## THE COAL STRIKE OFF.

President Mitchell Advised the Miners to Accept Operators Terms.

No Doubt That an Agreement Will Now be Reached and Work Recommenced.

COMMISSION OF 1903 SCALE THE BASIS.

SCRANTON, Pa., May 5.—There will be no strike of the miners in the anthracite coal fields, providing the operators will agree to give every man his old place and re-instate those who have been dismissed because they obeyed the suspension order of John Mitchell. This was the agreement reached at today's session of the convention. They did not adjourn, however, President Mitchell requesting that the delegates remain in Scranton until the scale committee reports the result of its meeting with the operators, which will be held in New York on Monday, if the operators agree to meet the miners' representatives. The no strike decision was reached after President Mitchell and National Secretary Treasurer Withon had addressed the delegates, recommending 1903 award be continued. At resolution to this effect was offered and unanimously adopted, after which the convention adjourned.

After adjournment, President Mitchell meet the following statement.

For several months we have been endeavoring to negotiate a wage scale and adjustment of conditions of employment with the representatives of the anthracite coal mining companies. the anthracite coal mining companies.
During these negotiations we made
a number of propositions, each of
which materially modified our original
demands. We did this not because we
were convinced that our original propositions were unfair or wrong, but
purely for the purpose of finding a
common ground upon which we could
reach an agreement that would secure
and maintain peace in the anthracite
coal district.

We still believe that ages of the coal district.
