The Opposition Policy. The following resolution, which was John Macdonald, represents the commercial policy of the Opposition :-

"That this House is of opinion that welfare of Canada requires the adoption of a national Policy, which by a judicious readjustment of the Tariff, will benefit and foster the Agriultural, the Mining, the Manufacturing and other interests of the Domintrymen, now obliged to expatriate themselves in search of the employment denied them at home; will restore prosperity to our struggling industries, now so sadly depressed; will prevent Canada from being made a sacrifice market; will encourage and develop an active inter-provincial trade and moving (as it ought to do) in the direction of a reciprocity of Tariffs with our neighbors, so far as the varied interests of Canada may demand, will greatly tend to procure for this country, eventually, a reciprocity of trade.'
