

**CABINET, CHAIR AND SOFA
Manufactory.**

Queen Square, in the rear of Haszard's Gazette Office.

THE Subscriber having engaged a part of the Steam Power belonging to the above Establishment, is now prepared to manufacture every article appertaining to his business. Having left P. E. Island (his former home,) several years since, and been during that time, employed in some of the best Shops in the United States, he feels confident, that he can give satisfaction to those who may please to patronize him; he has obtained a knowledge of the modern and antique styles of Cabinet work, and as an aid to his business, has introduced some of the most approved Labor-saving Machinery, and also, a supply of the best WOODS used in Cabinet work, consisting of MAHOGANY PLANK, WALNUT and ROSEWOOD, which with BIRD-EYE MAPLE, BLACK BIRCH, &c., he can make up to order in the best style and shortest notice.

Turning, straight and sweep-sawing executed with dispatch to any pattern.
Drilling and Boring also done.
PATRICK HICKEY.

January 1st, 1856.

Stoves!! Stoves!!!

CHEAP AND SAFE LIGHT!

NEWELL'S PATENT

Safety Lamp & Lamp Feeder

Warranted to prevent all accidents from the use of BURNING FLUID, PATENT OIL, ROSIN OIL, CAMPHRENE,

And all other explosive compounds used for production of light.

This INVENTION is applied to common Fluid, Solar and Camphene Lamps, Lamp Feeders, Fluid-holders, Lanterns, &c., &c.

We respectfully invite the attention of the public to NEWELL'S IMPROVED SOLAR FLUID LAMP! which gives a steady, brilliant flame, nearest to Gas that has ever been produced. The cost of burning being only ONE CENT AN HOUR! These Lamps are particularly adapted for Churches, Hotels, Factories, Stores and parlours. Oil Solar can be altered, using the same shade. Common Fluid Lamps can be changed to Safety Fluid Lamps.

PORTER'S

Patent Burning Fluid and Camphene,

As cheap and good as can be bought in the market. Also, Shades, Globes, Lamp Wicking, Entry Hall Lanterns, Fluid Chandeliers, &c.,

For Sale, Wholesale & Retail, by

Newell, Willard & Co.,

No. 28 Bromfield Street, Boston.

N. B.—A large deduction will be made from the former prices of NEWELL'S SAFETY LAMPS, &c. The following certificates are a sufficient guarantee of the entire safety and efficiency of the Safety Lamp and Feeder.

We have had an opportunity to test the Patent Safety Lamp and Lamp Feeder of Mr. John Newell, of this city, in regard to the measure of protection their construction affords. In the trials to which we subjected them, we endeavored, without effect, to produce explosions of the vapor of the fluid mixed with air, and to burst them by the pressure of the vapor alone. The principle adopted by Mr. Newell is that of the well known Davy Lamp. He has so combined the parts, that we are satisfied that all risk of explosive action is removed.

CHARLES T. JACKSON, M. D.

AUG. A. HAYES, M. D.

Assayers to the State of Massachusetts.

BOSTON, Aug 30, 1852.

Mr. John Newell, of Boston, has exhibited to me a Lamp, and also containing vessels, furnished with wire gauze protectors, upon the principle of Davy's Safety Lamp for miners. He has used both these instruments before me with inflammable fluids, and in both, when set on fire, the flame was arrested by the wire gauze, which is coated with silver. If the instruments are faithfully constructed, and carefully attended to, so that the wire gauze does not suffer injury from corrosion, wear or violence, I am of opinion that the protection will prove effectual against explosion. Nothing short of this conviction would induce me to countenance the continued use of the burning fluids, so called, as I have thought they ought to be entirely discarded, if not prohibited from use; so frequent and dreadful are the accidents occasioned by ignorance and carelessness. In every case, glass lamps should be given up; and those of metal substituted, on account of the danger of fracture.

B. SILLMAN, senior.

NEW HAVEN, Oct. 16, 1853.

I have examined Newell's Patent Safety Lamp and Lamp Feeder. They are constructed upon strictly philosophical principles, having a tube of silver wire gauze, with a small perforation in the cap. If well made, they cannot fail to insure protection against those dangerous explosions to which the vapors of burning fluids and camphene are subject, when mixed with air. Their general introduction, I have no doubt, would prevent many distressing and fatal accidents.

E. S. CARR, M. D.

Professor of Chemistry, Albany Medical College, and of Applied Chemistry in the University of Albany.

W. B. DAWSON are our authorized Agents for the sale of the above in P. E. Island.

JAMES MORRIS.

The Infallible Remedy!

HOLLOWAY'S PILLS.

ERYSIPELAS OF EIGHT YEARS' DURATION CURED.

Copy of a Letter from Geo. Sinclair, Esq., of Paris, Canada, dated the 18th July, 1854.

To Professor Holloway.

Sir,—I feel a pleasure and a pride in bearing witness to the wonderful benefit I have derived by the use of your inestimable Ointment and Pills. For eight years I suffered unceasingly from attacks of erysipelas; large purple blotches came all over my body; in addition to the unpleasant feeling of itching and burning, which affected me both night and day, rendering life a misery to me, as well as to all around,—so severe was the attack. I used several reputed remedies without deriving the least cessation to my misery. At last, I determined to try your Ointment and Pills; after taking them for a few weeks, a visible improvement took place, and I feel considerably better;—in three months, by continuing with your medicines, I was completely cured, and now enjoy the best of health. The truth of this statement is well known here, hence there is no necessity for me to request secrecy.

I am, Sir, yours respectfully,

(Signed) GEO. SINCLAIR.

ULCERS IN THE LEG.—REMARKABLE CURE.

Copy of a Letter from Mr. Edward Tomkinson, of Cape Breton, Nova Scotia, dated the 4th May, 1854.

To Professor Holloway.

Sir,—My sister, Miss Jane Tomkinson, suffered for a great number of years from a bad leg; in which there were several deeply seated and old wounds, defying the skill of some of the most eminent of the medical faculty, a variety of remedies were also used unsuccessfully; and it seemed to me that there was not any thing capable of mitigating the agonies she endured. At length, she had recourse to your Ointment and Pills, and after using them for about five weeks she was completely cured, after all other means had failed to afford her the slightest relief. I have no objection to these facts being published, if you feel disposed to make them known.

I remain, Sir, your most obedient servant.

(Signed) EDWARD TOMKINSON.

A BAD BREAST CURED WHEN AT DEATH'S DOOR!

Copy of a Letter from Mr. Henry Malden, of Three Rivers, Canada West, dated July 9th, 1854.

To Professor Holloway.

Sir,—My wife suffered most severely after the birth of our last child with a bad breast. There were several holes in it one as large as a hand; all the devices and stratagems I tried would not heal them, but it assumed an aspect more frightful than before, and horrible to behold. As a last resource I tried your Ointment and Pills, which she persevered with for seven weeks, at the expiration of that time her breast was almost well; by continuing with your remedies for two more weeks, she was entirely cured, and we offer you our united thanks for the cure effected.

I am, Sir, yours truly,

(Signed) HENRY MALDEN.

The Pills should be used conjointly with the Ointment in most of the following cases:—

Bad Legs	Cancers	Sore-throats
Bad Breasts	Contracted and Stiff Joints	Skindisorders
Burns	Elephantiasis	Scurvy
Bunions	Fistulas	Sore-heads
Bite of Mosquitoes and Sand Flies	Gout	Sore-nipples
Coco-bay	Glandular swellings	Soft Corns
Chiego-foot	Lumbago	Tumours
Chilblains	Piles	Ulcers
Chopped hands	Rheumatism	Wounds
	Scalds	Yaws.

Sold at the establishment of Professor HOLLOWAY, 244, Strand, (near Temple Bar,) London, and by all respectable Druggists and Dealers in Medicines throughout the Civilized World, in Pots, at 1s 2d, 2s 6d, and 5s each.

There is a considerable saving by taking the large size, directions for the guidance of patients every disorder are affixed to each pot.

GEORGE T. HASZARD Agent
