Certainly the notice served on the people is not long; but is a way our Grit President Milburn helped to support friends have of doing things when they have the power. The Grits have been in power in Nova Scotia now for about nineteen years. At the last general election in 1897, the opposition only elected three members; so that the Government may be said to have had things their own way. Premier and in the firm grip of Foster and Ire-Murray has issued a lengthy and, the assassin shouted : manifesto in which he dwells upon the alleged good qualities of his administration and the ple thoric condition of the Provincial exchequer. There is no doubt ed by Secretary George B. With all this money our Grit friends in Nova-Scotia are in a position to do some enormous boodling and they may be depended upon to do it. They are announcing railway deals and other projects by which they hope to hood wink the electorate into granting them a release of power. We raise this right hand and placed it on shall see.
