Opening Of Legislature

The Provincial Legislature opened on Thursday afternoon last with the usual formalities.

The following is the Lieut. Governor's Speech:

Mr. Speaker and Gentlemen of the Legislative Assembly:—

I am pleased to welcome you on your return to your Legislative duties at this, the second session of the Thirty-ninth general assembly of this Province.

The Great War having terminated, our gallant returned soldiers are being rapidly and successfully re-established in civil life.

Famine has stalked abroad, but at home there has been an abundant harvest. Here we enjoy peace and plenty and national security. For all these blessings we should be profoundly grateful to Divine Providence.

During the year 1920 a satisfactory beginning was made in the improvements of the highways in accordance with a programme approved by the Federal Government for aid under "The Canada Highways Act." In spite of the shortage of labor and the high cost of materials the grading and improving of seven projects embracing about 60 miles of the worst stretches of road in the Province were undertaken and carried well through to completion. It is the policy of my Government to take advantage of the financial assistance offered by the Federal Government, and during the current year to undertake a much larger amount of road improvement.

The subject of Education is all important and all absorbing. It is the policy of my Government to give the people the benefit of more efficient schools.

During the past year the Government has increased the salaries of the teachers. The supplements from the school districts have been more generous than in former years. Greater interest in better education has been aroused and manifested. The number of vacant schools in the Province has greatly diminished.

Initial steps have been taken towards the medical examination of the pupils of the public schools. Elementary music and the art of singing are being taught in the Prince of Wales College, with a view to their introduction and practice in the common schools.

It is also the policy of my Government to stimulate and promote agriculture. Some of the features of the work undertaken by the Department of Agriculture during the past year include:—

The holding of a Provincial Horse Show for the encouragement of horse breeders.

The establishment of a limestone crushing plant at Mininash.

The importation of crushed limestone at reduced freight rates. The purchasing of clover hulls for the encouragement of Island grown clover seed.

Increased grants to Exhibition Associations resulting in larger exhibits of live stock.

Grants to School Fairs—teachers and pupils encouraged to greater efforts.

Generous prizes to dairymen as inducements for greater effort in the production of milk. Assistance in importing high class dairy animals and sheep. An increase in the special grant to institutions.

By arrangement with the Federal Government of Labor this Province was permitted to share in the money set apart for technical education in Canada, and to use that money for agricultural instruction purposes.

An Agricultural and Technical High School was thereupon established at Charlottetown. Valuable work has already been accomplished. The attendance has been larger than was anticipated, and the outlook for the future most promising.

Various bills on matters of general interest will be submitted for your consideration.

The Public Accounts for the past fiscal year will be placed before you.

You will be pleased to know that the expenditures have been well within the revenues, and also that a substantial reduction has been made in the debt of the Province.

The estimates of expenditure for the current year, based upon the requirements of the Province and with due regard to economy, will be submitted for your consideration and approval.

I feel assured that the various matters submitted to you will receive your careful and serious consideration, and that under the guidance of Divine Providence the results will be for the best interests of the Province.
