

FINANCIAL ADMINISTRATION

(Continued from Page One)

tion with the Department of Public Works; the Education Department I do not propose to give you any details. The principle item was the grant to schools, \$10,310.18. The Agriculture Department expended \$289,322.24, the chief items being—

- Expenditures under Agricultural Societies Ordinance, \$ 5,641.85
Judges at exhibitions 1,430.35
Institutes 3,066.63
Experimental farm 630.92
Fur Stock show 1,000.00
Destruction of noxious weeds 1,989.40
Stock inspectors 5,179.13
Brands 2,207.24
Vital statistics 1,694.00
Agricultural, medical and other statistics 545.35
Protection of game 1,929.69
Bacteriological and pathological work 1,504.63
General dairy 5,332.91
Loans to creameries 6,575.90
Opening expenses creameries 37,493.14
Establish poultry fattening stations 2,000.00

Grants to Associations. Grants were also paid to Cattle Breeders' Association, Horse Breeders' Association, Sheep Breeders' Association, Swine Breeders' Association and Alberta Fairs Association. Of the \$6,275.90 advanced to creameries we have received back \$1,362.47.

Hospitals, Charities and Public Health. Expenditure under Hospital Ordinance—\$ 15,885.00
Health Act 1,620.40
Care of incurables 502.15
In connection with printing and stationery, \$27,836.61 was expended; \$12,849.57 was expended for elections. The general election carried on the 10th and 11th of November, 1935, and the greater part of the expenses were paid during the year 1936. We paid the grant of \$1,200.00 Provincial Rifle Association of \$1,200.00 in connection with hall insurance we paid out \$24,571.88.

Estimated Revenue for 1937. I think that I have given the House the details of the chief items of our expenses during the year 1936, and for this present year I present to you a statement of the estimated revenue of this province. We start with a surplus from 1936 in the amount of \$412,258.66. A surplus from 1936 in public buildings of \$143,727.75, making a total surplus of \$555,986.41. (Loud applause.)

Land Titles Office for Edmonton. "It will be observed, Mr. Speaker, that Liberalism in this province is not a slogan but a policy. It is a policy of necessary public building throughout the province to a considerable extent. It is a policy of necessary public building throughout the province to a considerable extent. It is a policy of necessary public building throughout the province to a considerable extent.

Up-to-Date Registry Offices. "The Land Titles office building at Calgary is in very poor shape. In order to do the registry office business proper of the province it is necessary that we have a site for the registry office in Calgary, and we expect this year to engage upon the construction of that building. The amount for this purpose is \$200,000 as the first estimate for this purpose. Registry offices will probably cost in the order of \$200,000. In order to properly take care of the public documents it is very necessary that we have a site for the construction of registry offices. As I have already intimated, we expect a surplus from the Land Titles office of between \$70,000 and \$80,000, so that the general revenues of the province will not have to bear any part of the expense in the construction of buildings of this nature. The registry office accommodation in the city of Edmonton is a little better than that in the city of Calgary, but not a great deal better, so that hon. members can almost anticipate in a year or two that it will be our duty to undertake the construction of a registry office here.

of the North-West Mounted Police. (Applause.) We entered into an agreement with the Dominion government that our share of the expense should be \$75,000 a year; that expense in this splendid year of July last year. The Province of Saskatchewan entered into a similar agreement, which continues for a period of five years, and provides that the force will be kept up in these two provinces to five hundred men. Having the splendid force in the West will be a guarantee that the investment of the original fund will be administered to the satisfaction of the Western Provinces. I think we made a good agreement and one which will be to the advantage of the people of the West. The further expense in that connection is to be borne by the Federal government. It is only fair that they should bear a considerable portion of the expense of the force on account of the fractions of the customs laws and measures in which they are interested.

Provincial Police. "There is also an item of \$10,000 for special provincial police and constables; special constables and constables provided for unpaid in 1936 \$6,000; and another item of \$3,975.68, being amount unpaid for 1935, on account of maintenance of the force. With a force of 500 men from September 1st, 1935, to January 1st, 1936, I think, Mr. Speaker, it will be found that under the various estimates for the various services in the department of the attorney general are shown as last year, or lower in some cases.

University of Alberta. There is perhaps one item in connection with the estimates of the Department of Education which may require some explanation—I refer to the appropriation requested for the purchase of sites for provincial university, including an Agricultural College, \$150,000. As I intimated yesterday, to my mind it will be necessary to have our university in this province in proper shape to do its work in the fall of 1938. With a class of sixty or seventy in prospect for the Arts department we will be remiss in our duty if we do not make provision for our university work to commence by the end of the year. I think the site for a university should be amply provided for. Many of the sites in the Dominion and in the United States are cramped for lack of ground. We should have not less than two or three hundred acres, and I think we should be able to secure this amount of ground at some satisfactory price. I think we should be able to secure this amount of ground at some satisfactory price. I think we should be able to secure this amount of ground at some satisfactory price.

Large Sums for Public Buildings. "The vote in 1936 for the Department of Public Works was \$71,000, and this year the sum of \$1,230,000 is asked, an increase of \$1,159,000, principally made up as follows: Court House, Cardston, completing construction, \$ 17,000.00
Sites for asylums and jails 10,000.00
Court House, Wetaskiwin, 20,000.00
Jail, Lethbridge, first estimate 20,000.00
Asylum, first estimate 25,000.00
Court House, Edmonton, first estimate 20,000.00
Land Titles office building, Calgary, first estimate 200,000.00
Reformatory, first estimate 5,000.00
Provincial telephones 200,000.00

Court House for Edmonton. "It will be observed, Mr. Speaker, that Liberalism in this province is not a slogan but a policy. It is a policy of necessary public building throughout the province to a considerable extent. It is a policy of necessary public building throughout the province to a considerable extent. It is a policy of necessary public building throughout the province to a considerable extent.

Up-to-Date Registry Offices. "The Land Titles office building at Calgary is in very poor shape. In order to do the registry office business proper of the province it is necessary that we have a site for the registry office in Calgary, and we expect this year to engage upon the construction of that building. The amount for this purpose is \$200,000 as the first estimate for this purpose. Registry offices will probably cost in the order of \$200,000. In order to properly take care of the public documents it is very necessary that we have a site for the construction of registry offices. As I have already intimated, we expect a surplus from the Land Titles office of between \$70,000 and \$80,000, so that the general revenues of the province will not have to bear any part of the expense in the construction of buildings of this nature. The registry office accommodation in the city of Edmonton is a little better than that in the city of Calgary, but not a great deal better, so that hon. members can almost anticipate in a year or two that it will be our duty to undertake the construction of a registry office here.

Training of Teachers. "We expect this year to complete the construction of the Normal school in Calgary. We made a start last year under the vote made for that purpose, and this year we ask the House to vote the sum of \$125,000 to complete construction. Our Normal school building with every equipment we expect will cost \$150,000, and when completed, probably in the vicinity of the Normal school building, and most up-to-date building and equipment in the West. I think it is a very important item in this connection for Normal school in the basis of our educational system.

SNAP SHOTS FROM THE BUDGET. Our surplus is \$666,125.51. The department of public works built 190 new bridges and repaired 65 old ones. The total expenditure on bridges was \$233,700, and \$188,377 on roads. A total of 877 1-3 miles of fire guard were plowed at a cost of \$4,928. The estimated output of coal for the past year is 1,250,000 tons. Sixteen new mines were opened. Sixty-one mines are in operation in Alberta. Thirteen new villages were organized in the province in 1936, making a total of thirty-six at the present time. The output of the Alberta creameries totals \$400,970.77. "We should have not less than 200 or 300 acres for the university site. Many of the universities in United States and Canada are cramped for room."

"We ask the House to vote with the estimates of \$900,000 for a Court House in Edmonton. It will cost perhaps about \$80,000." "We have a surplus from the land titles office of \$50,000. The income from the corporation and land taxes is estimated at \$55,000 for 1937. The Government have agreed to retain the services of the R. N. W. M. P. for the effective carrying out of the law, and will contribute \$75,000 to their maintenance. The provincial telephones will be built out of current revenue. The Government will collect \$240,000 railway taxes next year. Twelve thousand is appropriated to carry on the budget expenses of the coal, beef and labor commissions. The Government will establish a bacteriological laboratory in the province independent of the one at Regina."

in connection with farm crops 3,000.00
Increase in cost of destruction of noxious weeds 2,400.00
Increase in cost of stock inspections 1,000.00
Increase in cost of bacteriological and pathological work (this includes the extra expense of establishing the laboratory here) 3,500.00

Bacteriological Laboratory. "This bacteriological and pathological work is now carried on at Regina. The expense is borne by this Government and that of the Province of Saskatchewan. Regina being so far away from convenient when matters arise that require to be investigated by an expert in this work to have to send him the work done. We expect shortly after the 1st of July to have a man doing this work in our own province, and by this government quite independent of the Province of Saskatchewan.

Dairy and Poultry Work. "We are providing an increase for dairy and poultry fattening work. Last year we undertook to give some assistance to the poultry industry, and we were successful. The farmers of the older provinces make quite a large amount of money out of their poultry, and we feel that this province has good fields for the development of this industry, and we propose to give it encouragement over and over again.

Under the head of immigration and colonization \$55,000 is asked. This amount will be expended under orders in council. I might draw the attention of the House to the fact that all the other provinces of Canada have voted for this purpose. I think probably larger votes were asked by them, but only wish to make a comparison of this work. Probably we will require one or two parties in the province to direct new immigrants coming into the country in various matters.

"An item of \$23,206.59 will be asked to provide for the sugar beet industry. It might say that we have received numerous inquiries as to the provisions of the act passed at the last session of this parliament in this connection. There is some likelihood of another factory being established, probably in the vicinity of Calgary. We hope that the encouragement which has been given this industry will lead to the establishment of the factories we expect.

returned returns from the various railways to the various railways operated by them. We received returns from the Canadian Pacific railway, stating the amount of mileage under operation in this province, and in that return they further stated that they considered in their opinion all their railway lines subject to taxation; that their lines were entirely exempt from taxation throughout the province. They advised that they were willing to pay what they considered a reasonable amount towards the revenue of the province, but they considered that our tax was heavy upon them. The other railways held the same view—that our taxes were too high. The matter rests at that. We consider that we can collect the tax, but heretofore we have received nothing out of account, but we have an amount in the estimates of \$34,000 which we hope to receive this year under the railway agreement.

Proposed Provincial Bridges. "In connection with the Public Works Department I may say that we expect to meet the estimates of the South Saskatchewan river at Medicine Hat, for the construction of a \$89,000 bridge. The estimated cost of the Man River, north of Pincher, 20,000. Construction of bridge over Bow River at Calgary, 25,000. Construction of bridge over Bow River, south of Gleichen, 35,000. To start bridge over Old Man River, east of the present bridge, 15,000. To replace steel structure on present piers on Red Deer River, 25,000. To construct bridge on Red Deer River, 30,000. Construction of bridge over north fork of Sheep Creek, 8,000. These two later bridges, I am not mistaken, are in the constituency of my friend, the leader of the opposition. (Leader of the opposition, Mr. Egan, and Conservative applause.)

The proposed construction of the steel bridge on the Red Deer River, \$30,000. I understand is in the constituency of my friend, the leader of the opposition. (Leader of the opposition, Mr. Egan, and Conservative applause.) The items I have enumerated provide for permanent steel structures on concrete piers and abutments. No Idle Spokes Desired. "Now, Mr. Speaker and hon. gentlemen, we hope that the work accomplished by this administration last year in respect to the budget and the estimates has been fully appreciated by the people in this province. We had two elections in this province, both of which we are placing a large amount of money in circulation, and we think we are getting the support of the people. We are placing a large amount of money in circulation, and we think we are getting the support of the people. We are placing a large amount of money in circulation, and we think we are getting the support of the people.

Western News. Stettler has several cases of mumps. J. O. McKay will open a general store at Gleichen, about April 1st. Rev. F. Langford, license inspector at Calgary, is dead. Calgary expects an 18 mill tax rate for 1937. Strathmore builders are paying \$28 a thousand for common lumber. Calgary expects to have a direct mail delivery before the end of the month. G. P. McDonalds accountant for the Burns Co., at Calgary, died on Monday. Mr. Marshall, of Calgary, is the new manager for Cushing Bros. at Regina. Moore law hotels have advanced the price of board—10 cents on single meals. Construction work commences today on the new steel bridge over the Bow at Centre street, Calgary. Calgary capitalists are promoting a \$500,000 Rocky Mountain Cement Co., with works at Frank. Mayor Moffat, of Claresholm, has resigned office to accept a position with the council and his school board. There are now twenty-eight Oddfellows in Alberta. The newest is at Okotoks. Calgary's new municipal telephone system will cost \$125,000 to install, 4,500 phones can be accommodated. The Brunswick hotel at Vermilion is now under the management of J. Baxton, of Edmonton. Fall wheat is shooting up and prospects for a bumper crop in Alberta were never better. J. P. Gordon has resigned his post as principal of Alameda school to accept a position with the council and his school board. Contracts have already been let for the erection of thirty new houses at Stettler as soon as the snow leaves. Half a million dollars will be expended in improvements in the C. P. E. Railway in Winnipeg during the season of 1937. Work is being directed towards the building of a new hotel at Okotoks, which will be held at Okotoks, about 25 miles from Okotoks. Orton & Edwards have opened out in the blacksmithing business at Okotoks. The erection of a new school at Okotoks, which will be held at Okotoks, about 25 miles from Okotoks. Yeggeville council and board of trade will have a joint meeting Thursday night to discuss the establishment of a weekly market in the town. Saskatchewan Grand Orange Lodge caused a revolution on line on the western side of the province. The school districts to fly the Union Jack on the schoolhouse every teaching day in the year. Regina Baptists will build a new \$40,000 church this year. Saskatchewan L. O. L. Grand Lodge meets at Moose Jaw in 1937.

The Young Liberals At Home TO MEMBERS OF LEGISLATURE

Edmonton Liberal Organization Accords Premier Rutherford and his Followers a Rousing Reception—Cabinet Members Address Meeting. (Wednesday's Daily) The Young Liberal Club rooms were crowded by an enthusiastic gathering of the young Liberals of the city last night. His speech was given by the club to the members of the Legislative Assembly.

The Premier, Hon. A. C. Rutherford, was present and in his happiest mood. The Premier had reason to feel good for he was fresh from a victory in the legislature. His speech was given by the club to the members of the Legislative Assembly. The Premier, Hon. A. C. Rutherford, was present and in his happiest mood. The Premier had reason to feel good for he was fresh from a victory in the legislature. His speech was given by the club to the members of the Legislative Assembly.

Western Items. Camrose has now a board of trade. An athletic society has been organized at Totfield. The I.O.F. will open a lodge at Bawlf shortly. Bawlf creamery will commence operations on April 1st. A jewelry company is being formed at Totfield. Sharas are 22. Regina's new brick and stone Y.M.C.A. building will cost \$55,000. 187 pupils are attending Macleod public school this month. Dr. Demovian denies the report that he intended leaving Red Deer. Calgary will spend \$5,118 on its park-ward boulevards this year. C. D. Austin, one of the public school teachers, is the new editor of the Lethbridge Herald. The Klubs Club of Saskatoon are asking the Saskatchewan Legislature for incorporation. Ex-Sergeant Martin of Qu'Appelle, who joined the Mounted Police in 1874, died on Thursday. An automobile license costs \$5 at Lethbridge. The speed limit is eight miles an hour. The Knights of Pythias will erect a brick block with five foot frontage on Round street, Lethbridge. Camrose will in future take the billiard and pool rooms, 315 for first table and 210 for each additional table. Moore law district Free Methodists will have a Sunday school convention at Hinton, March 20-21. Moore's law corps of the Canadian Mounted Rifles can now enlist 140 men, by special permission of the Militia Department. Lethbridge electric Co. started their ship of the party. The new power plant is being built at Lethbridge. The Royal Bank and the Bank of Nova Scotia will open offices in Lethbridge this spring. Calgary has now a new military organization, a Veterans' Association. There are now fifty members. A tent fire drill at the Central School, Lethbridge on Monday, emptied the building in forty-two seconds. Mr. McCoombe of High River, purchased 25 acres of land from the Raymond Sugar Co. last week. There are now fifty-three ordained Anglican ministers laboring in Saskatchewan diocese. The ladies of the Regina Hospital aid in the construction of a playground ball shortly. The Regina city council will attend a banquet to the members of the Saskatchewan legislature during the present session. At the Anglican ordination service, Calgary, March 12, 1937, three priests and two deacons were ordained. Further reports of the Regina Murders, Gilbert, has been granted, the date of his execution being now fixed for August 1st. C. J. Eckstrom is looking for a land owner to furnish him a site on which to build an opera house at Lethbridge. At Radisson, Sask., a hotel man was fined on Friday last on a charge of selling liquor illegally. The amount of the fine was \$50. At Lethbridge the license and pound report for February showed \$100,000 revenue from licenses, \$184 from dog licenses and \$55 from fines, a total revenue of \$189.
