Cable News.

LONDON, Aug. 18. Fifty thousand troops arrived during the day and encamped at points where they were able to protect the various lines of communication. Scarcely any railway lines entering London save a complete service; even the underground tube system was affected to some extent. The Great Western Railway and the Great Central Railway were the two services that were most seriously affected. The conditions in the provinces are somewhat more serious than in the metropolis. The West of England is completely cut off from London. Some disorder was reported at Birmingham to-day, while at Manchester business is at a standstill as the teamsters are still out on strike. At Liverpool chaos is complete. Railway companies have been compelled to discontinue selling tickets throughout Wales, where there is almost a total stoppage of traffic, and no trains could get through to Fishguard. As the day progressed, more serious reports came in. The strikers took possession of the railway line at Llanelli, a seaport of Wales, and succeeded in repulsing the police, who attempted to drive them off. At several out of way places in Wales the signal boxes were burned and other acts committed. The threat to call a general strike of teamsters throughout the country is not likely to be entered, as the men appear satisfied with the settlement recently reached.

BIRMINGHAM, Aug. 18. Strikers here are interfering with the transportation of food stuffs. Tonight there was a sharp conflict, when several wagons, loaded with meat, were being driven from the depot to the wholesale market, under escort of police and soldiers. A mob attacked the cavalcade, but was driven off after the free use of truncheons by the police.

SWANSEA, Wales, Aug. 18. Railway traffic here is at a standstill. Four stations are closed and guarded by police. The factories are shutting down owing to lack of fuel.

MINAR'S LINIMENT CO., Limited.
Gentlemen:—I have used MINAR'S LINIMENT on my vessel and in my family for years, and for the every day ills and accidents of life I consider it has no equal.

CAPT. F. R. DESJARDIN,
Schr. "Storko," St. Andre, Kamouraska.

The strike of dockmen, coal porters

Casino Show a Great Success.

The large and representative audience which witnessed the performance of "Via Wireless" at the Casino Theatre last night were highly pleased over the entertainment. It was a merry melange of fun from start to finish, and the various parts were excellently sustained. As usual, Mr. and Mrs. Rossley were the leading figures, and their comedy was of a most mirth provoking quality; the formidable Jack being in excellent form. Will Olio; however, made quite a hit in the character part of a deaf old rustic gaffer; his make-up, dialect and general deportment being particularly fine. This offering is well worth seeing.

Capt. Bartlett

TO EXPLORE CROCKER LAND.
Copenhagen, Denmark, August 12.—The captain of the Greenland steamer Godthaab, which has returned from North Star Bay, says he met Captain Bartlett, the commander of Peary's ship, the Roosevelt, on his way to Etah to get Eskimos and dogs for a great expedition next year to the most northerly polar district, Crocker Land, which was discovered by Peary in 1906.

The expedition will be led by Prof. MacMillan and Geo. Borup, who went with Peary on his last polar trip. It will proceed to Cape Columbia on the steamer.

Crocker Land was seen but not reached by Peary on his journey westward from Cape Columbia. It is north-west from Grant Land and almost due north from Cape Hubbard the most westerly point attained by explorers on that coast.

Capt. Jensen III.

We gather from reliable information that Capt. Jensen, who has been in the habit of going to the Labrador to purchase fish for some years past, is now very ill and finds it necessary to return to Europe, but he has made arrangements with Mr. Badoel on the Labrador, and his agents here that the business will be conducted on entirely the same lines as in former years, and the payments will be made in the usual manner.

We very much sympathize with Capt. Jensen, and hope that the voyage across will tend to improve his health.

Threatens Suicide.

A young woman named Adams residing with Mr. T. Graham, at the rear of the General Post Office, threatened to commit suicide last night. She ran out of the house, Mr. Graham followed her and informed Head Constable Sparrow. The girl made a detour around the block and went back to the house again where the officer found her later.

DO YOU NEED A SUIT OF CLOTHES at 'tween seasons reduction? As we intend to mark down our stock of Suits and Trousers in order to be kept busy. First-class trimming and an up-to-date cut and finish. **SPURRILL BROS., 58 New Gower Street.** Phone 574. Call in and see the stock and prices. We also cut, make and trim from material furnished.—aug16, godif.

Bitten by a Dog.

A boy named David Taylor was bitten by Mr. Blunden's dog at the South Side, last evening, so severely that Dr. Cowperthwaite had to be called in to cauterize and stitch the wound. The dog was ordered to be shot, but a policeman said "there are more ways of choking a dog besides choking him with butter," and putting a kill-lock rock into a bag he tied it to the dog's neck and threw it into the harbor. That policeman, it is said, will soon be promoted; he deserves it.

Took No Fish.

The S. S. Stephano of the Red Cross Line, sails for New York to-day with out taking a single caak of fish for transhipment to European markets owing to the cholera scare; shipowners have refused to take freight for the Mediterranean ports.

Revenge!

Admiral Sir Arthur Moore occasionally permits himself what may be called "the soft answer that stimulates wrath." On one occasion, during gun practice at a floating target, one of the guns made rather a bad miss. The officer in charge was summoned to the admiral's speaking tube. Down floated the gentle inquiry in Sir Arthur's most suave tones: "My dear sir, do you think the Lords of the Admiralty supply you with live shell for the sole purpose of shooting mackerels?" The officer had his revenge however, for the next shot from the gun he was in charge of knocked the target to pieces and stopped practice for the rest of the day!

THERE was a fair singer named Gertie, Whose shoes looked invariably dirty; One night e'er her solo, She shined them with POLO; Her mother said, "Gertie, how purty!"

POLO

SHOE POLISH

IT'S so easy to shine with Polo—just a daub, a rub and your shoes are clean for a week. Polo is always fresh; the BIG box keeps it so. Ask your grocer or shoeman for Polo—the polish in the BIG box—black or tan. The tan both cleans and polishes.

"Good for Leather—Stands the Weather"

City Council.

Mayor Ellis and a full Board were present at the first meeting in the new City Hall, held last evening.

The Sanitary employees sent in a formal request for increase of wages. The Council could not comply therewith. They intend, however, to have a revision of the entire staff at an early date.

M. Malone who has now 2 additional fish markets to attend to was granted by his request \$125 a day.

Applications from R. Pearson and J. Nolan for position of caretaker and fireman of the City Hall were placed on file.

G. Kearney, of the K. & A. Store, corner Water Street and Beck's Store, complained that a choked gully there had caused bad odors that had damaged his goods. Engineer will see the place.

C. N. Nicholl will be given water connection on Parade Street.

H. J. Cornick will be allowed to lay water pipes in the sewer cut to his house.

J. J. Mackay asked for a better supply of water at Wool Factory, Alexander Street. The Council is having pipes come by to-day's Allan boat.

The Inspector General sent in Detective Byrne's report on the alleged damage caused by trees and protection boxes on the Promenade by Joy and Lester's men. As the case is "all ball up" the Council decided to give it to their Solicitor.

Engineer will attend to complaint of E. J. Costigan re cesspool, Barron Street.

The Park Committee will investigate the case of T. Clooney, a Council employee, who is ill, unable to work and asks for a weekly allowance.

A long debate followed the reading of Solicitor R. T. McGrath's letter on behalf of the city cabmen who said that cabmen were not overcharging tourists, and now wanted the schedule of charges put forward by them to be discussed with the Council and if possible adopted. Councillor Mullaly would not agree to any dealing with the cabmen on the question till they first organized and sent a deputation that would be responsible for all of them. Councillor Martin, Councillor Channing, Councillor Ryan and the Mayor all took part in the discussion, and Councillor Myrick expressed the opinion that it would be better to deal with an organization. Finally it was proposed by Councillor Ryan and seconded by Councillor Coaker that the former committee—Mullaly, Channing and Martin look after this question. The Engineer will visit the property

Items of Interest.

The largest known bird's egg is that of the extinct megapornis of Madagascar, of which the museum of New York has a specimen. It has a capacity of two gallons, measures 26in. round the middle, and the shell is 7/8 in. thick. The largest egg of a living bird is that of the ostrich, which is equal to about thirty-six hens' eggs.

The Italians in London are sufficient in number to form a large town. There are so many as 14,000, about 2,000 of whom are ice-cream vendors and 1,000 organ-grinders. The other 11,000 are chiefly engaged as plaster bust sellers, artists' models, cooks, valets, teachers, artists, restaurant and hotel keepers and so on.

Herr Kieker, a German inventor, took a three-mile walk over Starnberg Lake, near Munich, using "water shoes" of his own construction. Despite the wind and the rough weather, he covered the distance in an hour and a half. The "water shoes" are cylindrical form and are 6ft. long. They are constructed of brass frames and sailcloth.

A remarkable meeting took place at Sturt town, in the Wellington district, between a man named Flowers, and his son, who had never seen each other, though the son is forty years of age. Mr. Flowers, sen., left America for Australia forty years ago; his wife remained behind, intending to follow later, but she died in giving birth to a son, who was cared for by an aunt.

The Liverpool skyscraper, the Royal Liver building, which has just been opened, is of seventeen storeys, 200ft. high, and weighs 80,000 tons. It has a clock bigger than Big Ben; each dial is 25ft. in diameter, the minute-hand 14ft. long, and at one point 3ft. wide. The clock never needs winding, but is propelled by electricity, being connected with Greenwich by Post Office wire. Special mechanism prevents the hands being interfered with by wind, snow, or rain.

Fire alarm boxes fitted with loud-speaking telephones are now installed in the suburban district of Kiel, Germany, and they are placed at various points along the streets. This appears to be the first time in which loud-speaking telephones have been applied to fire-alarm use. The telephones are mounted in an iron box, and upon opening the cover an electric contact is made which rings up the nearest Fire Department Station. Owing to the use of such telephones the voice is always heard clearly, in spite of the street noises.

A Parisian inventor has devised a craft for getting over the water, which is so light and compact that it can be folded up and packed into a box no bigger than an ordinary suitcase. The case part unfolds and joins together to form the main frame work or hull of the boat, which is the catamaran order. The two cigar-shaped floats are made of waterproof canvas. When packed up they occupy little space, and when in use they are blown up with a bicycle pump. The framework is fastened between them by means of ribs and straps, and when you have fixed a three-jointed, double-bladed paddle together and put a folding seat in place you are all ready to set out on your marine travels.

Electric Restorer for Men
Phosphonol restores every nerve in the body. It restores vitality, restores energy, restores strength, restores health. Price \$3 a box, or two for \$5. The Scott Drug Co., St. Catharines, Ont.

GO TO BELL ISLAND.—The Inspector General sent Constables Lawler, O'Flaherty, and Hutchings to Bell Island this morning to preserve order during the Regatta going on there to-day.

WITH THE ADVENTISTS.—Who Changed the Sabbath—Christ or "Pope"? This subject will be presented at the Adventist Church, Cookstown, Road to-morrow night. Seats free. A welcome to all.

No more Torture from Rheumatism

Relief quick and cure certain when Dr. Bovel's Herb Tablets are used. Read the following letter.

Sault Ste. Marie, Ont.
Dear Sir:—I have used three boxes of Dr. Bovel's Herb Tablets. They have done more to relieve my rheumatism than anything I have ever used. I have been a martyr to this disease for years.
Gratfully yours,
D. M. PELLOW.

For sale by all Druggists or Dealers at 25c. per box. If your Dealer cannot supply you send 25c. (in stamps) to us direct.

BOVEL MANFG. CO'Y.
St. John's, Nfld., or Montreal, Can.

ing the door, turned and made a low bow, saying, "Good-bye, your Majesty"—his father had been a magistrate in India.

"The King smiled kindly, and replied, 'Ah, I see you have learned your lesson well; only you have not got it quite right!'"

Indigestion & Dyspepsia

In all its Forms Can be Cured. It is quite a daily occurrence to hear persons say: "Oh, what a feeling of distress I have after meals, fullness of the stomach, heaviness and headache, I feel too tired to do anything. I have no heart to exert myself, and at times I care for nothing. I often have a pain in the pit of the stomach, no appetite, my heart beats rapidly on the slightest exertion. I feel just as tired when rising in the morning as when retiring to bed. My sleep is often disturbed, and I often awake with a sense of suffocation and a difficulty of again going to sleep. I have to be careful of what I eat, and my life seems a veritable burden."

Now, it seems a shame and a pity for persons to be suffering like that when it is in their power to get cured by taking a bottle of Dr. Stafford's Prescription A. A sure cure for persons afflicted with stomach troubles. It can be obtained at

DR. F. STAFFORD & SON,
Duckworth St. and Theatre Hill.
Small size, 25 cents; postage 5c. extra; large size, 50 cents; postage, 10c. extra. Mail orders must be accompanied by remittance.—aug3

Don't Marry and Live Longer.

Aurora, Ill., Aug. 12.—Miss Elizabeth Dundan, 100 years old, the oldest resident of Sangamon County, advises women who wish to live long not to marry.

"You may never enjoy the superlative happiness of those who wed, but you will have a life of peace. You won't know what war is, and you know what Gen. Sherman said about war," she told friends she met at the annual reunion of Sangamon County early settlers.

"I never had a love affair, and I have always been happy."

Miss Dundan's advice to women consists chiefly of don'ts. She says: "Don't hurry, don't be a suffragette, don't wear rats, don't wear high-heeled shoes, don't wear tight clothing, don't overindulge in tea or coffee."

"If necessity demands that you earn your living, choose some occupation by which you may support yourself and still remain within the refining, nerve-resting influence of your own home."

ONLY ONE ARREST.—The police arrested one drunk last night; he was held to appear before the Magistrate this morning.

IT IS SIMPLY INVALUABLE

That is Mr. Stewart's Opinion of Douglas' Egyptian Liniment

Mr. Israel Stewart, of Desmond, Ontario, has given Douglas' Egyptian Liniment a very thorough test, and this is what he says about it.

"After using and making some remarkable and speedy cures with Douglas' Egyptian Liniment, I must say that I believe it to be the most wonderful remedy for man and beast I have ever used. We had a horse badly injured in the pasture field and before we were aware of it the wound was in a very bad condition, but Egyptian Liniment soon dislodged everything nasty and a rapid cure was made."

"In the house it is simply invaluable in all cases of rheumatism, sciatica, neuralgia, burns, sprains or bruises. It is a boon to humanity."

"You owe it to your family and your stock to keep a bottle of Douglas' Egyptian Liniment always on hand, ready for instant use."

It stops bleeding at once. It heals cuts and wounds without inflammation or proud flesh. It quickly takes the pain and swelling out of sprains and bruises of all kinds. In fact it is simply splendid for every trouble of man or beast which a Liniment can cure. 40 cents at all dealers, free sample on request. Douglas & Co., Niagara, Ont.

Story of King George.

The Child Admired His Father More Than His King.

His Majesty's vanity and the thoroughness with which he carries through whatever he attempts are the theme of an article entitled "King George the Thorough," from the pen of one who knows him, that appears in the June number of Pearson's Magazine. The author relates a number of anecdotes illustrating the many-sidedness of His Majesty's activities, and others that show his kindness. A typical incident showing the King's special liking for children is the following, which occurred quite recently:

"An officer in the army, serving in India, died before he had received a medal to which he was entitled. Shortly afterwards his widow received a command to repair to Buckingham Palace, bringing with her a son, if she had one, or else a daughter. The lady obeyed the command, accompanied by her little five-year old son. They were conducted into the Presence, and presently found themselves all alone with the King, who, drawing the boy to him, and giving him his father's medal, said: 'What I am doing you do not understand now, but you will understand some day. Tell me, what are you going to be when you grow to be a man?'"

"I am going to be a soldier, like my father," answered the child.

"Well," observed His Majesty, "it is a good thing to be a soldier like your father; but still, I should advise you to be a sailor, like your King."

"No," the child persisted, "I must be a soldier, like my father."

"Soon afterwards the audience was at an end, and then the child, reach-
