The closing day of the Grand Circuit races at Hampden Park, Springfield, Mass., was eventful for two fast heats made by Hal Pointer in the free-for-all pacing class. Pushed by Yolo Maid, the gelding made the first heat in 2:10½, the second in 2:14, and the third in 2:10½. This establishes a new record for the Hampden Park track, the best previous record being 2:14, made by Goldsmith Maid in 1876. An oddfellows' GAME.

TROTTING AT BRUSSELS.

BRUSSELS, Aug. 21.—The races here today were well attended. The weather in the morning looked threatening, but cleared off about 11 a.m. The new track was all that could be desired, in splendid shape, and the events were well contested. The first and second places were taken in the several races as follows: In the first race by Charlie G., Brantford, and Queen, Dresden. In the 2:32 class by Axtel, Stratford, and Bay Fly, Grand Valley. In the named race by Sleepy Mape, Brussels, and Thomas C., Brussels.

Antiochus Epiphanes, the old sinner, came down three times with his array to desolate the Israelites, advancing one time with 102 trained elephants, swinging their trunks this way and that, and 62,000 in family and been gain deteated. But the third time he laid successful siege until the navy of Rome came In with the flash of their long banks of oars and demanded that the siege be litted. And Anticohus Epiphanes, and companied the strong and the water of the ground around and account of the Roman ambassadors, took a staff and made a circle on the ground around Anticohus Epiphanes, and companied the strong and the sevent was a staff and made a circle on the ground around account anticohus Epiphanes, and companied the strong and the sevent was a supplementation of the strong and the strong a

took a staff and made a circle on the ground arcund Antiochus Epiphanes, and compelled him to decide before he came out of that circle; whereupon he lifted the siege. Some of the Hebrews had submitted to the invader, but some of them resisted valorously, as did Eleazer when he had swine's flesh forced into his mouth, spit it out, although he knew he must die for it, and did die for it; and others, as my text says, did exploits.

An exploit I would define to be a heroic act, a brave feat, a great achievement. "Well," you say, "I admire such things, but there is no chance for me; mine is a sort of a hum-drum life. If I had an Antiochus Epiphanes to fight, I also could do exploits." You are right, so far as great wars are concerned. There will probably be no opportunity to distinguish yourself in battle. The most of the brigadier-generals of this country would never have been heard of had it not been for the war.

Neither will you probably become a great inventor. Nineteen hundred and ninety-nine out of every two thousand inventions nine out of every two thousand inventions found in the patent office at Washington never yielded their authors enough money to pay for the expenses of securing the patent. So you will probably never be a Morse or an Edison or an Eli Whitney. There is not much probability that you will be the one out of the hundred who

afford a considerable fee; let the judge gift they hung an oil painting of me in every bar in the city I could work them just the same."

"I suppose you're through with this town now? You couldn't catch them now that they know you so well?"

"I'll be back here in six months and catch these same fellows who are swearing here that they know me so well."

"You'll wear disgnises?"

"I don't know as I will, though. I have several excellent makeups. I got some disseveral excellent makeups. I got some disseveral excellent makeups. I got some disseveral excellent makeups.

But what are you going to do with those children who are worse off than if their father and mother had died the day they were born? There are tens of thousands of such. Their parentage was against them. Their name is against them. The structure of their skulls is against them. Their nerves and muscles contaminated by the inebriety or dissoluteness of their parents, they are practically at their birth laid out on a plank in the middle of the Atlantic Ocean in an equinoctial gale and told to make for shore. What to do with them is the question often asked. There told to make for shore. What to do with them is the question often asked. There is another question quite as pertinent, and that is, what are they going to do with us? They will, ten or eleven years from now, have as many votes as the same number of well-born children, and they will hand this land over to anarchy and political lamnation just as sure as we neglect them.

Annual Picnic of the Sons of England.

Unfavorable Weather Keeps a Large Crowd Away-A Pleasant Afternoon Spent-Good Programme on the Hill-The Prize-Winners-The Committee.

Notwithstanding the light rain in the morning the weather turned out to be charming later on Friday, and the Sons of England had a very pleasant afternoon for their annual outing at Port Stanley. The unfavorable appearance of the sky prevented a large number from joining the excursionists. Otherwise the attendance would have been big. The Sons of England band, under Bandmaster Charlton, was present, and rendered some choice pieces very creditably. During the afternoon they took a trip on the "Joe Milson," and were accompanied by a goodly number. Dayton's Orchestra also furnished music for those who indulged in dancing. Dinner,
