SNOW A FOOT DEEP.

Sequel to the Cold Dip-Michigan Fields  
Robbed in "The Beautiful"  
More Frost.

Williamsburg, Mich., May 14.—Wet  
and sticky snow lies a foot deep on an  
average, and is badly drifted. Fruit  
trees are bent over the ground, and many  
young orchards are badly damaged.

Ridgeway, Mich., May 14.—One of the  
hardest frosts known in years injured  
the fruit and early vegetables here.

Blissfield, Mich., May 14.—Blinding  
snow storm all morning. Wind blowing  
a gale. Frost killed all garden truck.

Toronto, May 14.—From all parts of  
Ontario come the reports of great dam-  
age done by the recent cold snap. In  
some parts ice half an inch thick formed  
on standing water. Farmers and  
market gardeners who were in the city  
today said that besides fruits and veg-  
etables being destroyed the pea crops in  
many places are badly nipped. Other  
grains have escaped. The weather that  
has followed the big drop in the tem-  
perature is most favorable. The cold  
rain removes the chill, but had a hot  
sun followed, crops that are now look-  
ing healthy would have turned black.

St. Paul, May 14.—Reports indicate  
that there was another severe frost  
last night all over Minnesota and South  
Dakota. It is feared the damage was  
even greater than on Friday, Saturday  
and Sunday nights.

Niagara Falls, Ont., May 14.—Snow  
fell to the depth of four inches this  
morning, followed during the afternoon  
with drizzling rain. The grape crop in  
the locality has been almost totally  
destroyed, which means thousands of  
dollars' loss. Strawberry patches look  
as if they had been swept by fire, cher-  
ries suffered severely, and also the  
peach trees. Corn, potatoes and other  
vegetables are flat on the ground, the  
season being fully three weeks ahead  
of last year.

Des Moines, Iowa, May 14.—Tele-  
graphic reports from 30 towns in Iowa  
show that the frost on Sunday did in-  
estimable damage to early vegetation  
and small fruits.

Montreal, May 14.—A large number of  
French-Canadians employed on section  
10 of the Soulanges Canal struck to-  
day. They want \$1 25 instead of \$1 a  
day's pay. The contractors, it is said,  
will replace the strikers by other men.

SUICIDE AT FOURSCORE.  
Toronto, May 14.—Geo. Williams, 80  
years of age, living at 16 Denison  
Square, committed suicide this morn-  
ing. The old man had been one of a  
robbers to the door-knob and threw the  
other end, with a noose, over the door.  
Standing on a chair, he placed his head  
in the noose and pushed the chair  
away. Williams has been in poor health  
for some time.

KINCARDINE DISTRICT METHO-  
DISTS.  
Lucknow, Ont., May 14.—The Kincardine  
district meeting of the Methodist  
Church held its annual meeting here  
today. There was a good representa-  
tion and a considerable increase was  
reported in the membership. The finan-  
cial condition of the district was satis-  
factory, considering the stringency of the  
times. The Rev. J. Livingstone was ap-  
pointed to the stationing committee.  
Rev. B. L. Hutton to the Sabbath school  
and J. A. Carrick to the missionary com-  
mittee.

Most people, like clocks, show in their  
faces the result of their works.

Have you seen Keene Bros.' bedroom  
sets with bevel plate mirrors for \$9,  
\$11 and \$12? They are the delight of  
everyone that sees them.

## SOULS AWAKENED.

Good Results Shown at the Yarmouth

Meetings.

Many Signify Their Intentions of Chang-  
ing Their Course and Leading  
Better Lives.

Yesterday was the third day of the  
great Methodist revival movement, and  
already tangible results are becoming  
apparent. Although last night was a  
most disagreeable one to be out in,  
about a thousand persons found their  
way to the rink. The vast structure was  
comfortably warmed, and there was not  
the slightest sense of chilliness. Evan-  
gelist Yarmouth, too, is warming up to  
his task of awakening the unconver-  
ted of London, and last night a large num-  
ber sought the penitent bench. Besides  
that, seven or eight stood up to be pray-  
ed for. While the evangelist was plead-  
ing with the unsaved the choir sang  
sweetly and in a low tone several verses  
of "Almost Persuaded." Every sound  
was hushed, and a whisper could have  
been heard from one end of the rink to  
the other. Engaged in prayer with the  
suppliants were Rev. J. R. Gundy, Rev.  
Walter Rigby, Rev. A. G. Harris and  
Rev. Charles Smith. It was a very im-  
pressive scene.

The result of the meeting was most  
encouraging. Rev. Mr. Yarmouth is an  
eloquent, impassioned pleader, and a  
clever student of the Bible. He will go  
on an evangelistic tour around the  
world when he leaves London. His ad-  
dress last night was listened to with in-  
terest from first to last. Genuine re-  
vivals, he said, were never gotten up.  
Genuine revivals came down from God,  
and they wanted a genuine revival in  
London. He dwelt particularly on the  
power of prayer, and told in a graphic  
way of the wicked career of a young  
man and the prayers of a mother for  
his salvation. It was his own mother  
who prayed, and the speaker was the  
boy she prayed for. "And if my moth-  
er can pray her prodigal son into the  
kingdom of God," said he, "you can  
pray sinners in by the help of the  
Highest."

The afternoon meetings at 3 o'clock  
are fairly well attended, especially by  
ladies, and many have already deter-  
mined to lead better lives.

## NOT ON THE BILLS.

Real Marriage at a Theater Interrupted  
—A Mock Duel that Ended  
in Bloodshed.

Niles, Mich., May 14.—There were two  
interesting occurrences at the opera  
house last night that weren't on the  
board—a suddenly interrupted mar-  
riage and a stage duel that proved most  
real.

The Madison Square Stock Company,  
supporting Miss Charlotte Ritta, an ac-  
complished English actress, opened its  
season here by producing "The Un-  
crowned King," written by Arthur Tre-  
velyan, also of England. Miss  
Ritta last night made her first appear-  
ance on the American stage.

While in England the actress be-  
came betrothed to Mr. Windham, and  
they intended to be married on their  
arrival in America. Manager Windham  
conceived the idea of having the wed-  
ding take place upon the stage, think-  
ing it would prove a great hit and at-  
tract a large crowd to the theater. Dur-  
ing the play, where a mock marriage  
ceremony was to be enacted, a justice  
of the peace was to perform the real  
ceremony.

The play passed off satisfactorily un-  
til the third act was reached, but just  
as the justice was about to pronounce  
the words which were to make them  
one the would-be bride gave a shriek  
and fainted away. The curtain was  
dropped and the audience dismissed.

Miss Ritta was carried into a dress-  
ing room, where physicians labored for  
several hours before they were able to  
relieve her of hysterics. The company  
is now in a demoralized condition over  
the illness of the star, and the wedding  
has been postponed until a later day.

There is a mock duel in the play. The  
participants made it almost real, one  
actor receiving a fearful sword gash  
over the left eye that will disfigure him  
for life.

THE ONTARIO CONSERVATIVE  
LEADERSHIP.  
Toronto, May 14.—Mr. J. P. Whitney,  
of Monrovia, member for Dundas  
county in the Ontario Legislature, whose  
name has recently been connected with  
the Ontario Conservative leadership,  
said when questioned about this rumor:  
"I am not aware of a change in the  
Conservative leadership."

## SOUSA'S MARCHES.

It is said that there is such a demand  
for Sousa's new marches that the John  
Church Company, who are the publish-  
ers of "The Manhattan Beach" and  
"The Liberty Bell," find it impossible  
to supply the demand, and they recent-  
ly actually ran out of paper with which  
to keep their presses going. There  
seems to be a spirit and fire about these  
marches which is, so to speak, setting  
the country ablaze. The plan for  
Sousa's concerts opens at Nordheim's  
music store on Monday next for sub-  
scribers only. The general public can  
reserve their seats on Tuesday.

Genius is great enough to make all  
things great that it touches.

City, on Tuesday afternoon by swallow-  
ing carbolic acid. Shaw left a long let-  
ter giving his reasons. He said he was  
a banker in Warwick township, near  
Toronto, at one time, but failed. He  
charged his wife with being faithless.

CRUSHED BY A FOLDING BED.  
Detroit, May 14.—Geo. S. Macdonald,  
recently employed by Billings & Drew,  
on Woodward avenue, is at Harper  
Hospital, and the attending physician  
thinks he may die at any moment. He  
was badly injured by being caught in  
a folding bed at 10:30 o'clock last night.

When the accident occurred Macdonald  
was sitting on the side of the bed read-  
ing a paper. The bed is of massive  
design, with numerous drawers, and  
when closed has the appearance of a  
bookcase or dresser. Instead of the bed  
closing, the upper portion came down,  
crushing him with its great weight.

## LAKE SUPERIOR.

Its Physical Features, Its Marvelous  
Depth and Purity.

Prof. Mark W. Harrington, chief of  
the Weather Bureau, read a carefully  
prepared paper on "Some Physical Fea-  
tures of Lake Superior" before a largely  
attended meeting of the Geographical  
Society at the Cosmos Club House re-  
cently. The paper gave an interesting  
description of the lake, its area, coast  
line, islands, drainage area, formation,  
depth, currents, changes of levels, per-  
iodic and non-periodic changes, tem-  
perature, precipitation, forest fires,  
fauna and commerce. Lake Superior,  
the lecturer said, was the largest and  
deepest not only of the Great Lakes,  
but of all the bodies of fresh water on  
the earth. Its total coast line is 1,782  
miles, of which 880 miles are on the  
American side and 902 miles are on the  
Canadian side. The total area, includ-  
ing bays and islands, is 32,175 square  
miles. The lake has an area of 660  
square miles, and the bays an area of  
1,041 square miles, leaving a total area  
of open lake water surface of 30,465  
square miles. The boundary line over  
the lake between the Dominion of Can-  
ada and the United States is 289 miles  
long. Probably the next largest body  
of fresh water in the world, the lecturer  
said, is Victoria Nyanza, or Ukereweia,  
in Equatorial Africa, with an estimated  
area of 25,000 to 30,000 square miles, as  
against the Lake Superior's known  
surface area of 32,166 square miles. The  
combined area of the Great Lakes of the  
St. Lawrence is 95,275 square miles, and  
a third of this is formed by Lake Su-  
perior. The largest island in Lake Su-  
perior is the Isle Royale, or the Regal  
Island. The Indians have always con-  
sidered this island an evil spirit, and  
even now are loath to visit it. On ac-  
count of the large expenditures upon  
it, with no adequate return, the island  
has also proved somewhat of a "hoo-  
doo" to the white people. Caribou still  
remain on this island and have become  
quite tame. The island is described as  
isolated and nearly submerged moun-  
tain ridge, rising from 1,000 to 1,500 feet  
from the bottom of the lake. It is the  
only island of the kind in the lakes, and  
is only paralleled by isolated and vol-  
canic islands of the great oceans.

The world wouldn't be fit to live in if  
all of us were millionaires.

If we gave the devil his due, we  
might give ourselves away.

A monopoly is a good deal like a baby.  
A man is opposed to it on general prin-  
ciples until he has one of his own.

PEACE OF  
MIND AND BODY

Rev. A. O. Watts.

Inverness, Meantime Co., F.Q.: "I look  
upon it as my duty to my fellow suf-  
fers who are troubled so severely in their  
peace of mind and body because of a disor-  
dered stomach, to recommend the use of K. D. C.,  
which is properly termed the King of Dys-  
pepsia Cures."

"I have been using your K. D. C. for  
some time, it has greatly helped me. I have  
recommended it to many who have been  
benefited by it."

IT WILL PAY YOU  
TO TEST K. D. C.
