

The Magic Touch

Of Hood's Sarsaparilla. You smile at it as the idea. But if you suffer from Dyspepsia

And indigestion, try a bottle, and be fore you have taken half a dozen doses, you will involuntarily think, and no doubt exclaim,

"That Just Hits It!"

"That soothing effect is a magic touch!" Hood's Sarsaparilla gently tones and strengthens the stomach and digestive organs, invigorates the liver, creates a natural, healthy desire for food, gives refreshing sleep, and in short, raises the health tone of the entire system. Remember

Hood's Sarsaparilla Cures

CRICKET.

CAPT. HYMAN'S TEAM WINS. Chicago, Ill., July 29.—The Canadian cricketers, of London, Ont., and Toronto cricketers, captained by Charles S. Hyman, of the London Cricket Club, played their first game of the week's series on the grounds of the Wanderers today, and defeated their opponents—a pick of Chicago and suburban cricketers, known as Helliwell's team. The same men were taken to Canada by Capt. Helliwell, of the Cicero Club. The Canadians scored 159 runs and extras, the score of Helliwell's team being 113. Twelve men were played on each side.

The visitors took the field first. The wicket was fast. Bowling honors were about even between Laing and Goldingham, the latter also distinguishing himself at the bat. Capt. Hyman elected to go to bat last, and the first half went through his wicket. The local team lost the game from poor fielding. Score:

HELLIWELL'S TEAM.

BASEBALL.

ALERT CHANGES.

"Struck Out" has this to say: "I was much surprised to notice in the city papers, about the last two games played by the Alerts, that Manager Reid had deemed it necessary to release their very reliable third baseman, John Player, also that he had placed Steve Dunn on second, and still continues keeping an out-field man much worse than any in the City League. If Tierney can be shifted round to suit any position, why not play him in the out-field? Player certainly put up a much more valuable game than any of the men in the out-field. Dunn may have got off so far without errors, but when it comes to covering ground he is not of much account, and I think you will agree with me when I state that his batting days seem to be past. Any person who is acquainted with the members of the Alerts must know that Player has had a great deal of trouble the last few years, and deserves great credit for the pucky game he has played. He should have been encouraged by his captain instead of called down in front of the stands. Player has signed with Hamilton, and will, I hardly doubt, show before long that Manager Reid has made a mistake, to say nothing of the shabby treatment

ADVICE TO SMOKERS

Who are going away on a fishing or holiday trip. Don't be without a good cigar. Don't trust to luck and run the chance of getting poor cigars when you are away. Get a box of

VIRGINIAS

and you can rest assured that you will have GOOD SMOKING at any rate. Five cents each; special price by the box.

FLYS.

Only three National League games were played on Monday.

Only three Eastern League games were played on Monday.

If you wish to learn how to "slide" go and take a few lessons of Capt. Sippl—Port Huron Times.

The Alerts will not play Galt here on Wednesday. The date has been changed to Aug. 17. Guelph will play two games here on Civic Holiday.

Manager Chapman, of the Toronto baseball team, of the Eastern League, is negotiating with parties in Schenectady for the transfer of his franchise to that city. His next home season will begin Aug. 21, and the deal will doubtless be consummated by that time.

While playing third base for the Nationals, of Welland, in the baseball tournament at Niagara Falls, yesterday, Frank Woodworth was run over by Flynn, of the Cataracts. Woodworth suffered a compound fracture of the jaw and the loss of several teeth. While his injuries are very serious, no drastic of his ultimate recovery are entertained.

WHEEL.

ROAD RACE AT PETROLIA.

Petrolia, Ont., July 29.—The Cameron road race, which was run off here to-night, was witnessed by 1,000 persons, the race being from Columbus (Rink) to Holmes' sideroad and return, a distance of ten miles. Following are the winners: Rgt. Ewing, 5 minutes' handicap; J. A. Pratt, 5 minutes' handicap; C. J. John Collins, 3 minutes' handicap; C. Mr. Bloss, P. Correy and George McDonald were the official starters.

RACING AT CLEVELAND.

Cleveland, July 29.—Today, in the mid-summer bicycle race, purse \$500, Harry C. Tyler was first; W. C. Sanger, second, and Pat O'Connor third; time, 2:09 1-2. One mile bicycle handicap, purse, \$100.—Pat O'Connor (70 yards), W. C. Sanger (scratch), H. C. Tyler (scratch), 3; Watson Coleman (115 yards), 4; A. L. Weing (100 yards), 5. Time, 2:10 1-2.

SPOKES.
A bylaw was introduced at the city council meeting on Monday night in Hamilton compelling bicyclists to carry lanterns and bells attached to their wheels at night. Tonight a number of wheelmen were on the streets with their wheels in the hands of the bylaw.

THE TURF.

Windsor, Ont., July 29.—Appearances would seem to indicate that the Windsor meeting is a very important and momentous affair, and make Windsor the racing center of the west. The fight between the Oakley officials and the law and order people will, it is said, result in a riding down racing track at the close of this week or next, and Saratoga is on the point of breaking up for the same reason. If this occurs there will be but one point in the west, outside of St. Louis, where there is a chance for the runners, and that point is Windsor. All day yesterday there was a crowd of owners at the track, imploring the officials to provide stable room. The 375 horses available in the track have filled every stand around and claim a stall even before the first race. Stable room is a stable room is asked for. There will be no games of chance allowed at the track, except that incidental to the horse racing itself.

GRAND CIRCUIT MEETING.

Cleveland, O., July 29.—The Grand Circuit meeting opened auspiciously here today. The attendance was the largest of any first day in the history of the Glenville track, fully 5,000 people being in the stands. Labaree was a strong favorite in the 2:33 trot, and would have won in straight heats had he not broken in the first heat on the first turn, Fred Kohle showing a good burst of speed. Robt. Waranoke was a favorite at \$16 to \$15 for the field. Bassora, an outsider, won in three straight heats. Summaries:

2:33 class, 3-year-olds; purse, \$2,000:	
Labaree, b. c.....	1 1 1
Robt. Waranoke, b. c.....	1 3 3
Geddes, b. g.....	2 2 2
Time—2:15, 2:17 1-2, 2:15 3-4, 2:12 3-4.	
2:22 class, trotting; purse, \$2,000:	
Bassora, br. s.....	1 1 1
Red of Waranoke, b. s.....	2 3 3

Catilda, b. m.....	7 10 8
Forester, gr. s.....	11 11 9
Blew, s. g.....	12 2 2
Time—2:17 1-2, 2:15 1-2, 2:16.	

OPENING DAY AT WINDSOR.

Windsor, Ont., July 29.—The opening day of the Windsor Racing Association was a big success, and had 3,000 spectators, including a large number of ladies, although the weather was showery. Three favorites fell. Cadillac fell in the steeplechase, breaking his neck. Jockey Lawrence was badly shaken up, but had no bones broken. The track was heavy. Summaries:

First race, six furlongs—Aunt 1, Midstar 2, Stark 3. Time, 1:18 3-4. Bob

Wagner, Tough Timber, Blue Bells and Radiator also ran.

Second race, five furlongs—Conspicuous 1, Miss Kitty 2, Lady Maud 3. Time, 1:06. Lillian B. Minnie Clyde, Viceroy and Extra also ran.

Third race, six furlongs—Granman 1, Alamo 2, Teta May 3. Time, 1:19. Spendolite, Damask, Martinet, Helen Wren, Benita and Wightman also ran.

Fourth race, five furlongs—John Wilson 1, Zaldivar 2, Bird Catcher 3. Time, 1:47. Dick Behan, Fiction, Weota, Uncle Dave and Tenny, Jun., also ran.

Fifth race, steeplechase, about two and one-half miles—Capanto 1, Dom Pedro 2, Garwood 3. Time, 4:14 1-2. Tom Nick, Vicar of Wakefield and Scamp also ran. Cadillac fell.

TIPS.

The following item should be stereotyped for the racing public, where there is to be racing: Over 500 horses are now at the track and train loads are arriving every hour. The coming events promise to eclipse all previous meetings in the history of the turf. Visiting horsemen all unite in the statement that the local track is the fastest and best in the world, and give most highly in speaking of its matchless merits. Several world's records are expected to be shattered each day of the races.

A Saratoga dispatch says: The great 2-year-old, Halma, for whom Eyrone McClellan received \$25,000 this spring, will hardly face the starters again this season. She is in the surgeons' hands. A year ago Belmont's crack \$18,000 colt, Keenan, is lame. It cannot yet be determined whether the injury is serious or not.

ARRESTED ON SUSPICION.

A London Carriage Painter Thought to Be the Man Who Burglarized a Sarnia Residence.

Sarnia Observer: Sunday afternoon about 4 o'clock Mr. Geo. Ingersoll, while standing in the doorway of Geary's drug store, noticed a man go up the stairway of the Carter Block, and thinking it peculiar that a stranger should have any business there on Sunday, notified Mr. Geary, who had rooms in the upper flat of the Carter building. In going over to investigate, Mr. Geary found the man in the middle of the stairway, and being asked his business said he wanted to see Mr. Hanna. He was piloted to the door and informed that Mr. Hanna's residence was on Emeric street. Mr. Ingersoll shot a second look at the man when he was passing up the street, and recognized him as the man he had seen coming out of Mr. Bruce's yard on Friday afternoon last, the day when the Carter block was broken into and robbed of about \$50 worth of jewelry, etc.

Mr. Bruce happened along shortly after, and on learning Mr. Ingersoll's story, immediately set out in the middle of the man, coming up with him on Christina street, and had him arrested. He appeared before the mayor this morning on a charge of vagrancy. He was returned under \$500 bond to enable the police to investigate the Point Edward burglary. Defendant says his name is Frederick N. Scott, that he is a carriage painter and came from London, Wednesday, and was the Chosen Friends, and his folks live on King street, near Adelaide.

DURRANT'S DEED DRAMATIZED.

And the Performers Are Placed Under Arrest.

San Francisco, July 30.—The production of the new play entitled "The Crime of a Century," which was placed on the stage at the Alcazar Theater last night, was a most successful one. The play is a dramatization of the deed of the third act. Just at the point when Dubois, the character who is supposed to impersonate Durrant, was about to drag a young woman to the belfry of a church, Sheriff Whelan and his deputies marched on the stage and arrested the performers, eleven in all. The manager of the theater was also placed under arrest. The manager stepped before the curtain and put a speech in which he claimed he had a right to produce the play, but he was taken into custody nevertheless for disobeying the order made by Judge Murphy restraining him from putting the piece on the stage. A great crowd attended the performance, which was hissed at intervals. The whole company spent the night in jail.

AN ORANGE DECLARATION.

Halifax, July 29.—The Orange Grand Black Chapter of British America, met last evening. The Most Worshipful Grand Master, Sir Robert Weir, in his address, said it was the duty of each of them to do all in their power to defeat the proposed remedial legislation for Manitoba by bringing with influence they could bear on their representatives, and by pledging all can- didates for Parliamentary honors in future to use their own influence for the maintenance of the public schools system throughout the Dominion.

OTTAWA SEPARATE SCHOOLS.

Ottawa, July 29.—The report of the commissioners appointed by the Ontario Government to investigate the condition of Ottawa's separate schools is being prepared. It is stated that the commissioners have obtained facts that are a surprise even to themselves. They have abundant evidence to show that the separate schools had good reason to be dissatisfied with education their children were receiving. It seems that the teaching of the Christian Brothers receives the severest criticism, but the separate school board will be exonerated.

SHORT WORK OF A BEAR.

Miss Emma Kinkle, a young lady living near Woodville, Oregon, showed her bravery and good sense by killing a bear. Miss Kinkle has had considerable practice with a gun and had shot several deer, so when she discovered a bear on the premises she called the dogs to her aid, drove the bear up a tree and shot it.—Portland Oregonian.

The Cunard steamer Aurania, sailing from Liverpool on July 29, was sighted July 26, with her machinery disabled and her crew in distress. She was rescued by the British ship, the "Orchard Lake," which was captained by Goldman, a Buffalo (N. Y.) business man, while bathing with his sisters and brothers, backed out beyond his depth and was drowned.

DYSPEPSIA OR INDIGESTION is occasioned by the want of action in the stomach to secrete the gastric juices, which with digestion cannot go on; also, being the principal cause of Headache, Pains in the Stomach, Bloating, Belching, Flatulence, and other ailments. Parmenter's Vegetable Pills taken before going to bed, for a while, never fail to give relief and effect a cure. Mr. F. W. W. writes: "I have taken Parmenter's Pills and have taken the lead against ten other makes which I have in stock."

Fine and cooler.

BUY

NOW!

Nearly every person knows the name of the king who said "There's a time for everything." He said it a long while ago, but the advice is as good today as ever. Doubtless you anticipate the balance of this announcement. If so, all right. If not, read on to the end, when you will know more about our business methods than when you started. Just here we wish to state that as there is a time for everything, now is the time to buy, because at this season we are getting ready for incoming goods and are desirous of clearing out all lines of summer goods, even though we trim the profit off as an inducement. This is what we call getting ready. It is our province as merchants, and our interest too, to finish each season with clean shelves. It pays us better to get our money out of these lines than to pack them away to endeavor some other time to secure the regular price. We are offering too large a list of summer goods to enumerate the very close prices. You think over your requirements and come and see if we have it. Ten to one we have. There will be plenty of hot weather yet and we have much that is suitable to meet it.

MONEY

BACK.

Much that we sell is confined to us exclusively, and we like to think that we have things for our customers that others don't have. Besides getting the lowest possible price, our customers receive the advantage of all the study of styles and of the most perfect tastes that we can command. Our guarantee goes with everything we sell. If articles are not as represented, return them. Your money back if you want it.

DEFECTS IN SCHOOLS.

The Fundamental Shortcomings of

Public Education.

Practical Knowledge Now More Needed

Than Anything Else.

(From the Chicago Herald.)

The American people are awaking slowly to the fact that there is a fundamental defect in the nature of their free school system. It is a lack of proportional attention to manual training.

It was our inevitable misfortune to pay tribute to a British ideal in founding free schools. At the time the American foundation was made education in Great Britain was the exclusive privilege of birth or of fortune. It is to be remembered that only in this generation has a common school been opened to the poor in the wealthier part of the British Empire, England.

Only after prodigious effort and long-deferred hope was the spelling book allowed to the child of the English laborer. The allowance of rudimentary education was conditioned upon the presumption that a little spelling, a little reading and writing and figuring made up the sum total of instruction that ought to be given to any but a rich man's son.

The common schools of the United States have been generally based upon a like idea, liberalized so as to lead to the acquisition of the broadening path of academic and collegiate instruction, but until within recent years altogether literary. If we were to be merely a commercial people; if our role among nations was exclusively a buying and selling one; if we were to originate nothing in the arts or crafts; if, as a nation, we were never to become artistic, or like England herself, to remain content with an artistic taste derived from a generous patronage of foreign art, with only mediocrity and slavishness at home—merely literary training would be enough for American youth.

A different destiny fortunately awaited us. The best blood of the oldest nations of the western world in our veins, an artistic inheritance was bound to make its way. The political liberty and social equality afforded the necessary conditions. In spite of a total absence of any but literary instruction, the feeling for design broke out spontaneously and compelled creation of special institutions in which the craving for artistic expression found vent. We produced, even in our national infancy, a group of artists who won fame abroad when the country lacked means to reward them at home. The presence in American soil of the clays, metals and stones that belong to fine and industrial arts; the rapid development of architecture demanding adeptness in decoration; a growing intimacy between American thought and the standards of continental art finally coerced attention of educators and patriots alike upon the grave fault in our common schools—exclusiveness of literary training, overlooking the country with an

A. Screaton & Co.

134 Dundas Street.

nual tides of young men and women totally ignorant of practical knowledge. Another no less potent force was simultaneously working demonstration of the defect. Rich in woods suited to decorative uses, cabinet making, drawing for textile factories, and designing in glass and pottery engrossed an annually multiplying aggregate of skilled labor earning the highest wages. It was found to be entirely a foreign-born and foreign-bred skill. It came and continued to come almost entirely from continental Europe. American youth received no instruction in drawing or modeling in the common schools. Foreign youth receiving that instruction in Prussia, Saxony, France, Switzerland, Austria, Hungary and Bohemia, came and come over here to take the highest stipend paid for any form of labor, and American youth remain excluded from its opportunities. It is a common saying today, and a true one, that in the United States there are laborers and artists, but few artisans.

Our artists are the progeny of special design, and of the now sturdy beginning made in manual instruction in the common schools. Many people cherish the illusion that manual training makes carpenters, bricklayers and blacksmiths. It is this error that has obstructed the progress of manual training even in this country. Manual training, properly so called, is the grammar of form. As well expect a child to be a designer, a draftsman, a sculptor, or either the science or art of music, or another to become a doctor without going to a school in medicine, as anyone to become skilled in the arts of design, or the useful crafts without manual training. The study of form is the foundation of all technical knowledge. With their superior health, food, lodgment, clothing, with a vista open to any width, the chances for every American child, the youth of the United States can easily become foremost in the arts and crafts if the rudimentary instruction, indispensable for a symphony with principles of design, be given in the common schools.

GRASSHOPPERS AND DROUGHT.

Some Specimen Experiences in Grey and Bruce Counties, Ont.

The tract of country in the north which is chiefly affected by the great locust, grasshoppers, embraces the townships of Berwick, Glenora, Holland, Sullivan, and parts of the parishes and Artemesia, in Grey county, and Brant, Enderlee, Saugen and Bruce, in the county of Bruce. A writer who took a trip through these townships says:

Fall wheat will yield about 50 per cent of an average crop; hay 25 per cent; peas good, nearly up to the average; oats, 35 per cent; root crop very poor; fruit none. Through Brant and Enderlee all crops are very poor, but it is only when you come into the Grey townships, where a grasshopper plague Enderlee all crops are very poor, but have been added to those of frost and drought, that any person can form an idea as to what total annihilation of the crop means. I called upon a number of farmers today whose reports I submit. I may say that I was careful enough to call only on successful, energetic men. On all the farms visited were all the evidences of thrift—stone or brick houses, large barns, good outbuildings and fences; in fact, a thrifty and successful community.

SPECIMEN CASES.

William O'Mara, lot 1, con. 1, E. G. R. Glenora—Twenty acres in hay; total yield, 2 1-2 tons. Fifteen acres in oats; total yield, for loads, estimated. Five acres in peas; total yield, two bushels, estimated. Root and fruit crop a total failure. Five horses, eight cattle; out-turning brush for two weeks.

William Vasey, lot S 1-2 29, con. 3, Sullivan, 135 acres—Twenty-five acres hay; total yield, half a ton. Five acres fall wheat; one-quarter crop. Eighteen acres oats; two bushels to the acre, estimated. Fourteen cattle, four horses.
