### THE MILITARY SITUATION.

Boha, Delarey, De Wet, and Cape Colony Rebels Now to Be Dealt With.

London, Feb. 28.—In his latest report to the War Office, Lord Kitchener gives a general review of the military situation. He says:—"The enemy's forces in the field are now practically confined to four definite areas. In the Eastern Transvaal the personal influence of General Louis Botha continues to hold together a considerable but diminishing force between the borders of Swaziland and the Brugspruit-Waterval blockhouse line. In the west Generals Delarey and Kemp cling to the difficult country between the Mafeking Railway line and Magaliesburg. In the north-eastern districts of Orange River Colony, De Wet and ex-President Steyn still control a comparatively large and determined force, who have quite recently given proofs of their boldness and initiative in attack, and in Cape Colony the country to the north-west of the Cape

## "77"

(Special Cable from London.)

London, Saturday.—"London and, in fact, many parts of England, are again in the grip of influenza. Medical observers say this influenza epidemic, like the first one, originated in Southern Russia, travelling across Europe, and leaving a terrible record of death or disablement in its train."

All serious epidemics of Grip have travelled rapidly westward, and this epidemic can be expected here before the first of March. Prepare yourself by carrying in your pocket a bottle of Dr. Humphrey's Celebrated Grip and Cold Cure. Taken early, cuts it short promptly. "77" breaks up stubborn Colds that hang on, and prevents Pneumonia. At Druggists, 25c, or mailed.

Grecian Minister Resigns to Fight a Duel—Some Wise Precautions—In the Austrian Reichsrath—London Press Comments on Prince Henry's Visit to America—Minor Cablegrams.

### BOISTEROUS RUSSIAN STUDENTS.

St. Petersburg, Feb. 28.—According to an official account of the disturbances on Feb. 22 at Moscow University, four hundred students, armed with bludgeons, iron bars and revolvers, wrecked the interior of the university buildings, barricaded themselves within and hung out red flags from the windows. The police and troops forced an entrance into the interior, and arrested the ringleaders of the rioters. A decree of the Minister of Public Instruction has been issued ordering the expulsion from the university and high schools of all students arrested in connection with rioting.

### RESIGNED TO FIGHT A DUEL.

Athens, Feb. 28.—M. Topalis, the Minister of Justice, has resigned in order to fight a duel with Colonel Komnoudouris. The quarrel which caused the encounter to be decided on was the outcome of proceedings against one of the deputies, charged with inciting to commit murder.

### SOME WISE PRECAUTIONS.

London, Feb. 28.—Commencing today, all American-bound vessels from English ports infected with small-pox must have their officers, seamen, firemen and immigrants vaccinated, unless they can show signs that they have recently inoculated with vaccine virus. The order includes Liverpool, Glasgow and London, but Plymouth and Southampton so far are excepted. The United States has been instituting a rigid system of inspection. If the epidemic increases they may suggest even more strict measures.

### IN THE AUSTRIAN REICHSRATH.

Vienna, Feb. 28.—In the Lower House of the Reichsrath yesterday, M. Daszynski, leader of the Socialists and deputy from Cracow, attacked the policy of Count Goluchowski, the Austrian Minister of Foreign Affairs, during the Spanish-American war. M. Daszynski accused Count Goluchowski of pursuing a policy subservient to the Hapsburgs, but inimical to the people, and failing to bring satisfaction for the Austrian subjects murdered during the riots at Hazelton, Pa., in 1897. Replying to the charge, Count Goluchowski, the Premier, contended that the dynastic and people's policies had always been identical, and repudiated the charge that Austria had not afforded adequate protection to her subjects abroad.

### TRIBAL FIGHT IN ALBANIA.

Constantinople, Feb. 28.—The Russian ambassador here, I. A. Zinoviev, has made vigorous representations to the Porte concerning the belated situation in the neighborhood of Ipek, Albania, where a tribal fight, during which two Turkish soldiers were killed, occurred Feb. 23, putting out Turkey's responsibility for the safety of the Christians in Albania.

### THE PRESS MEN AS COMPARED WITH THE SOLDIERS.

London, Feb. 28.—The tone of the editorials in the English newspapers on the subject of Prince Henry of Prussia's visit to the United States is distinctly improving. The Pall Mall Gazette, during the course of a long leading editorial on the banquet given at the Waldorf-Astoria Wednesday night, by the New York State Society, says:—"Our brethren of the American press may well feel proud of themselves and their profession, which was enough to make Prince Bismarck grin in his grave, cannot be otherwise than pleasing to the gentlemen of the American press." The St. James Gazette also expresses itself as highly gratified at Whitehall's reference to Great Britain during the course of his speech at the press banquet.

### ICE GORGES AT PITTSBURG.

It is Piled 30 Feet High at Montrose, on the Allegheny River.

Pittsburg, Pa., Feb. 28.—The great gorges in the Allegheny River are broken, and the ice is sweeping down on this city. The first break occurred at Montrose about 3.30 o'clock this morning, and an hour later the gorge near Sandy Creek broke with a roar like that of heavy artillery, and began to move slowly down the river. Caught in the swiftly-moving ice packs were two steamers, the D. T. Watson and the George Browdy, with a crew of four. The Watson was reported from Montrose fighting her way against the heavy ice in the middle of the river. It is considered extremely doubtful whether she will be able to survive. The Browdy is off the mouth of Sandy Creek in an exactly similar position. The residents of the river towns have

been warned of the approaching ice, and preparations have been made to flee to higher ground in the event of the ice gorging again, causing the river to overflow. Reports at 10 o'clock were that the ice had gorged again at Montrose, Six Mile Ferry and Sharpburg, and that it was still intact at Brilliant Station. At Montrose it is piled thirty feet high from shore to shore. The Freepoint road is under two feet of water, and all the houses along the road are partly submerged. The lower section of Verona and the creek under water, and many houses flooded.

## BRONCHITIS

### A SERIOUS DISEASE

Becomes Chronic and Returns Year By Year, or Develops Into Bronchial Pneumonia, Croupous Bronchitis, Asthma, or Consumption.

The real dangers of bronchitis are sometimes overlooked. It is too serious a disease to trifle with, and for that reason everybody should be familiar with the symptoms.

Children are most liable to contract bronchitis, and, if neglected, it becomes chronic, and returns year after year, until it wears the patient out or develops into some deadly lung disease.

The approach of bronchitis is marked by chills and fever, nasal or throat catarrh, quick pulse, loss of appetite, and feelings of fatigue and languor.

Bronchitis is also known by pain in the upper part of the chest, which is aggravated by deep breathing or coughing, until it seems to burn and tear the delicate linings of the bronchial tubes.

The cough is dry and harsh, and is accompanied by expectoration of a frothy nature, which, gradually increases; is very stringy and tenacious, and is frequently streaked with blood.

There is pain, not unlike rheumatism, in limbs, joints and body, constipation and extreme depression and weakness. In some people the exhaustion amounts almost to nervous collapse, delirium follows, and in young children convulsions may follow.

Dr. Chase's Syrup of Linseed and Turpentine, we believe, the most effective treatment for bronchitis, has proven time and time again in many thousands of cases.

It is the most effective remedy for bronchitis, because it is far-reaching in its effects on the whole system, not merely relieving the cough, but actually and thoroughly curing the disease. It limbs, joints and body, constipation and tightness and pain, aids expectoration and permanently cures.

There are other preparations of turpentine and linseed put up in imitation of Dr. Chase's Syrup of Linseed and Turpentine. To be sure you are getting the genuine, see the portrait and signature of Dr. A. W. Chase on the box. It costs 25 cents per bottle; family size, three times as much, 60 cents. All dealers, or Edmondson, Bates & Co., Toronto.

And 2,000 Horses Also Fell Into the Hands of the British Forces—Gen. DeWet's Son and His Secretary Among the Prisoners.

London, Feb. 28.—The War Secretary, Mr. Brodrick, announced in the House of Commons to-day that during the last two days 600 Boers had been killed or captured, and that 2,000 horses and 28,000 head of cattle had fallen into the hands of the British troops. The prisoners include General De Wet's son and the General's secretary.

### MANITOBA LEGISLATURE.

Guaranteeing \$8,000 a Mile to Canadian Northern—Encroaching on Assiniboia.

Winnipeg, Man., Feb. 28.—A Government bill was submitted to the Legislature yesterday outlining the extensions to the Canadian Northern Railway system of about two hundred miles, and providing a bond guarantee of \$8,000 a mile for these new lines. This will increase the possible liability of the Province by \$1,576,000. The bill shows the agreement between the company and the Government was made Nov. 5, 1901. The bill before the Legislature provides for the ratification of this agreement, and for the inclusion of the proposed branch lines in the mortgage which the Government has on the Canadian Northern system.

Premier Roblin moved a resolution favoring the extension of Manitoba boundaries into Assiniboia, which was seconded by Mr. Burrows, of Dauphin, with a slight amendment. The resolution passed.

The supplementary estimates will amount to \$60,000, including \$20,000 for the referendum vote.

### GERMANY IN CHINA.

Great Political Advantages Secured in Shang Tung.

London, Feb. 28.—Cabling from Peking, the correspondent of the Times says he has learned that the German agreement for the acquisition of a mining monopoly in Shang Tung Province is upon the eve of settlement, and that it will confer great political advantages. The agreement will practically close a large part of Shang Tung Province to British and American industrial enterprises, and the question is an unsatisfactory one. The correspondent, however, Great Britain and the United States can ignore the inconsistency of their attitude in protesting against Russian encroachments in Manchuria, while acquiescing in the more insidious, but equally exclusive, policy of Germany in Shang Tung.

Germany bases her claim to this monopoly, concludes the correspondent, on the fact that it was demanded by the late Baron Von Ketteler, and that she cannot withdraw a claim advanced by her murdered minister.

### MR. DEVLIN'S VIEWS

On Immigration From Ireland the Subject of Discussion.

### A NICE SAMPLE OF AGENT

To Send to Ireland or Any Where Else to Secure Emigrants—He Endeavors to Throw the Blame on the Newspaper Reporters as Usual.

Ottawa, Feb. 28.—(Special.)—Charles R. Devlin, Canadian immigration agent in Ireland and his peculiar views on the question of emigration from Ireland, which many members of Parliament consider unfit him for the public position he holds, were under review before the Committee on Agriculture this morning.

The matter was brought up at a previous meeting by Col. Sam Hughes, who objected to the opinions expressed by Mr. Devlin in an interview printed in the Montreal Witness, but the subject was laid over until this morning, in order that the interview complained of might be produced as well as Mr. Devlin's explanation. Then the Committee met this morning the interview in the Witness, containing the charge complained of, was read by the clerk of the Committee, as follows:—

"I do not admit that the interview complained of might be produced as well as Mr. Devlin's explanation. Then the Committee met this morning the interview in the Witness, containing the charge complained of, was read by the clerk of the Committee, as follows:—

### SHOT BY POLICEMAN.

A Man and a Woman Receive Bullets Intended for Highwayman.

New York, Feb. 28.—Daniel B. Murphy and Mrs. Mary Farley were shot by policemen last night while the officers were trying to shoot a highwayman. Murphy was shot under the eye, and will probably lose his eyesight. Mrs. Farley was shot in the ankle. The policemen were Officers Van Winkle and McGee, who saw a highwayman at work on his victim. They started after the robber, who shot at them. They returned the fire, and Murphy fell. Then they shot into a blind alley, and Mrs. Farley suffered. The highwayman escaped unhurt.

### MIGHTY CATCH, WOULDN'T TAKE.

"Button up your coat, man! You'll take cold."

"Well, don't get excited. I won't take yours."

"IMPOSSIBLE," for you to enjoy motherhood," says the doctor. Sometimes he qualifies the statement, and says: "Impossible without an operation." Yet both these "impossibles" have been made possible by the use of Dr. Pierce's Favorite Prescription. Many times the hindrances to motherhood are to be found in womanly diseases or weaknesses, which are perfectly and permanently cured by "Favorite Prescription."

This great medicine cures irregularity and dries up debilitating drains. It heals inflammation and cures female weakness. It makes weak women strong and sick women well.

"I wish to add my testimony to hundreds of others as to the value of Dr. Pierce's Favorite Prescription. I have been in a hospital for treatment. My case has been regarded as a hopeless one, and they knew not what the trouble was. Heart was laid, stomach all out of order; tired out; severe pains in all parts of the body; sinking spells, and nearly every ailment a woman could have. I took many a bottle of 'patent medicines' without effect. I began taking Dr. Pierce's Favorite Prescription, and ten months afterward I gave birth to a ten-pound boy. All physicians had said as a fact that I never could bear a child. Both the baby and myself were strong, and I got along splendidly—thanks to your medicine."
