

**THE DARK HORSE**  
*(The one candidate on which all parties in the United States agree.)*

Let the combination shine your shoes. "2 in 1" is liquid and paste combined.

**2 IN 1** A better shine in half the time. Quick and easy. Best by test.

Shoe Polish 10c.

**FOR TIN WEDDING.**

There Need Be No Monotony In Gifts For This Anniversary.

**NEW INDIVIDUAL MOLDS.**

Of Delightfully Shaped Cake Tins There Are No End This Season—They Come In Sheets Containing a Dozen and a Half For Fancy Cakes.

A young matron went shopping recently to find something for a tin wedding present and at the tinsmith's she was confronted with such an assortment of dessert molds and molds of all sorts, shapes and sizes that she is still talking about them. She was so fascinated with the molds that she has invested in a supply for herself.

The large molds for fish mousse now have small individual fish shaped tins to match. A most pleasing effect can be obtained by arranging the small molds of jellied fish around the larger fish on a large oval platter. Ring molds are always a valuable acquisition to one's kitchen, as they are made to hold one or more quarts and used for the concoction of artistic dishes, such as macaroni paste, rice mold, aspic meats, cornstarch puddings or cranberry jelly.

KITCHEN CABINET FOR YOUNG HOUSEKEEPER.

For frozen desserts there are all tight molds in all kinds and shapes, and these are necessary for things needing to be packed in salt and ice. Among the very newest molds are hollow affairs in cone or pyramidal shapes, like irregular peaks. Other molds turn out wonderful desserts resembling bunches of flowers and fruits. There is a pronounced revival of the huge molds for frozen desserts, like the old time monumental affairs used by our grandmothers. No doubt some of these curious old metal molds are stored away in pantries and cellars. If so they should be brought out and put to use.

The gift chosen for this particular tin wedding was a dozen individual molds, so pretty for Spanish cream or other frozen cream desserts. The dozen included three hearts and the same number of diamonds, spades and clubs, particularly suitable to use for card party refreshments. These attractive little molds come in many other fascinating shapes, such as shells, stars and bunches of cherries or grapes.

Of cake tins the shopper found a bewildering assortment. They come in sheets containing a dozen or a half dozen, for the most decorative little fancy cakes for afternoon tea, children's parties and special occasions. Among these are beasts, birds, dolls, etc.

No gift appeals more to the young housekeeper than the conveniently equipped cabinet seen in the cut. Nothing seems to be omitted, from clock and scales on top to a casserole and baking pans and measuring cups in the cupboard under the mixing board. The stationary flour sifter is particularly handy, and the best thing about the cabinet is that everything tucks out of sight and the doors close at the day's end on all the culinary implements of the day's work.

**Ribbon Trimmed Hats.**  
 Dame Fashion shows many signs of remaining faithful to the warm affection which she showed last season for ribbon trimmings of every sort and kind, and it is now a foregone conclusion that some of the smartest and most effective hats for late spring and early summer will be adorned with giant bows of ribbon and tied with long ribbon strings and streamers. A special advantage is that it is practically weather proof.

In other instances flowers and ribbons are very successfully grouped together with an effect which is altogether admirable. Yet another excellent result is brought about by the use of those flowered chine ribbons which are patterned with large clusters of roses in brilliant colors, surrounded by very natural looking foliage in soft shades of green grouped on an ivory white ground.

**"FEEBLE STOMACH"**

Causes Digestive Weakness and Poisons the Entire System.

"No one can have suffered more than I did with stomach trouble," writes Phil. E. Pascalet, well known at St. Andrews Corners. "My doctor told me my indigestion and sleeplessness were due to poisons in the blood. Certainly my condition was desperate, and it seemed from the despondent feelings that swept over me that I would lose my reason. I happened to read about Dr. Hamilton's Pills and bought five boxes from the druggist. Such body-cleansing pills I never used; they were mild and yet quite strong enough to drive all the humors out of the blood. My stomach gained strength rapidly with Dr. Hamilton's Pills and I improved so much that in eight weeks I could eat and digest all ordinary food. Depression and weariness passed away and I am, thanks to Dr. Hamilton's Pills, enjoying robust good health."

No remedy for biliousness, indigestion, headache, sick stomach, or constipation that compares with Dr. Hamilton's Pills. Refuse substitutes. Sold in 25c. boxes. All dealers, or The Catarrhose Co., Kingston, Ont.

New York Express, 2	3 00 p.m.
Accommodation, 30	5 16 p.m.

G. VAIL, Agent Watford

What kind of a silo will yours be?

Wood—or Concrete?

If you were to build two silos—one of wood, the other of concrete—side by side, and then could see them as they will look after five years of service, you wouldn't have to think twice to decide which is the best material. In a few years more there wouldn't be much of the original wooden silo left—the repairing you'd have to do would be as troublesome and cost as much as the building of an entirely new one. But the passage of five, ten, fifteen or even twenty years will make no difference to the hard-as-rock wall of the concrete silo.

**CONCRETE SILOS LAST FOREVER**

WIND, rain, fire and lightning are alike defied by concrete. You need no insurance against its destruction, because it cannot be destroyed. Concrete silos are best for another reason. The concrete keeps the ensilage at an even temperature, so that it "cures" better, and therefore contains more food-value for your stock.

**YOU CAN BUILD ONE YOURSELF**

No matter whether you have ever used concrete or not, you can build a concrete silo. Our book, "What the Farmer Can Do With Concrete," gives all the information you will need, not only about silos, but about scores of other uses for concrete on the farm. It isn't a catalogue, nor an advertising circular. A handsome book of 160 pages, well illustrated, and written for farmers. It is free. Just send your name and address on a postcard or in a letter and the book will be sent free by return mail.
