ERADICATE THE RAT!

Finds Help in Lydia E. Pinkham's Vegetable

### Compound.

Cape Wolfe, Canada .- " Last March I was a complete wreck. I had given up all hope of getting better or living any length of time, as I was such a sufferer from female troubles. But I took Lydia E. Pinkham's Vegetable Compound, and today I am in good health and have a pair of twin boys two months old and growing finely. I surprised doctors and eighbors for they all know what a wreck I was.

"Now I am healthy, happy and hearty, and owe it all to Lydia E. Pinkham's remedies. You may publish this letter if you like. I think if more women used your remedies they would have better health."-Mrs. J. T. COOK, Lot No. 7, Cape Wolfe, P.E.I., Canada.

Because your case is a difficult one, and doctors having done you no good, do not continue to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial. It surely has remedied many cases of female ills, such as inflammation, ulceration, displacements, tumors, irregularities, periodic pains, backache, and it may be exactly what you need.

The Pinkham record is a proud and peerless one. It is a record of constant victory over the obstinateillsof women -ills that deal out 1 despair. It is an established fact that fal Lydia E. Pinkham's VegetableCompound has restored health

to thousands of such suffering women. Why don't you try it if you need such a

other parts of the British Empire who are active in sewing, knitting and giving in the Empire's great teststructions that followed, that rats and plague were entirely "built out" of that part of the city.

## FIRST CATCHER'S PAD.

It Was Worn by Charlie Bennett of the Old Detroit Team.

Charlie Bennett, the noted catcher of the famous Detroit team of 1886-7, often told with delight the story of how he and his wife made the first catcher's breast protector.

It was a constant source of worry to Mrs. Bennett to watch her husband being made a target for the speed merchants of thirty years ago. And she fully realized the pressing necessity of some kind of armor to prevent the hot shot sent through by these speedy slabmen from caving in a ri

tion of the various armies in the great struggle. The women do not follow closely the moves of the armies but they are touched with the suffering of winter warfare to the millions of men in the battle lines. All honor to the ladies in Canada and

naked hand and threw it into the bay. He was seized three days later with plague. But the flea is the chief inoculator. Fleas abandon a rat dead of plague and go in search of living beings who still have warm blood circulating in their veins. Biting man they inoculate into him the living virus

Since plague is a disease due to rats and rat fleas and not to filth or dirty, habits, there's only one thing to do to avoid plague, eradicate the rats. This can be done by making war on them with traps, poison and starvation, and by "rat proofing" against them; that is by building them out. As a result of the Chinatown plague epidemic in 1907, so efficient was the ratproof con-

#### NUTE AND COMMENT

Britain is buying from us all the war supplies we can produce-many factories are working twenty-four hours a day-and we are securing for our crops and foodstuffs generally, the highest prices in our experience.

The Council should not be parsimonious regarding the salaries of its officials. It is poor economy that does not see that the laborer is worthy of his hire-and in Own Sound the officials' salaries are not extravagant. But on the other hand it is a poor boss that does not insist on a full day's work for a full day's pay. If the official is getting full pay, the council shculd see that he gives value for it .- Owen Sound

The French official reports are usually "Very encouraging." The people would like more information, nevertheless.

Brockville Times: The German aviators threaten to wrest the laurels from the German sailors as baby-

"Back to the land" is a cry which

Rumors are rife concerning wholehalf. sale war taxes on foodstuffs. Not After much deep thinking and cononly is there talk of a tax on tea but there are those who look for another

duty on sugar, coffee, liquors and tobacco. There is in fact speculation going on in all these lines by men anticipating the taxes.

It is, however, scarcely likely that sugar will be taxed again. It now bears a war tax of 70 cents per cwt., and should an attempt be made to squeeze a further revenue from it, there would probably be a silent

protest on the part of a large portion of the consuming public, resulting in a decline in consumption. There would therefore be a danger of the revenue being lessened by adding too freely to the war-tax.

5,000 Facts About Canada

"Know Canada! make Canada mown !" is a striking sentence in the War Year edition for 1915 of that popular booklet "5,000 Facts About Canada," compiled by Frank Yeigh, of Toronto, who knows Canada as probably few Canadians do. It is true that he who would know Can-

ada and its wonderful growth in any one year, will find this annual pub-lication "worth its weight in Yukon gold or Cobalt silver," while as a means of making the Dominion known in other countries, it is no less valuable. Fifty chapters are devoted to such subjects as Agricul-ture, Area, Banking, Census, Im-migration, Mining, Manufacturing, Trade, etc., and a page of Canadian one year, will find this annual pub-Trade, etc., and a page of Canadian

or two which belonged to her better

siderable labor the Bennetts shaped out something that had a faint resemblance to the protector worn today. In a private trial it worked fine, and in the tryout Charlie would let the ball slip through his hands and bang up against his chest without experiencing the slightest jar. After Bennett got used to it he wore it in a regular contest, and, with the eyes of thousands of spectators upon him, he would let a fast one hit him square on the chest. The ball would rebound back almost

to the pitcher .- New York World. Deaf Mute Church Work. Religious work among deaf mutes was established in 1849 by Dr. Gallaudet, who started a small Bible class for them in a room in the University of New York. The Churchman, an Episcopal weekly, says that at the

present time there are thirteen ordained clergymen, twelve of whom are themselves deaf, ministering to the spiritual needs of 35.000 deaf mutes in the United States of whom there are fully 20,000 in the southern section. The salaries of the missionaries to the deaf range from \$1,000 to \$1,800 annually, and a very few of them have their expenses, in addition, provided.

Trade, etc., and a page of Canadian War Facts show how up-to-date it is. Sketch Maps are included of the Dominion in 1867 and 1915. Copies may be had from progressive news-dealers, or by sending 25c. to the Canadian Facts Publishing Co., 588 Huron St., Toronto, Canada. Huron St., Toronto, Canada. was averted.
