F. O. B. WINDSOR

Straight and sure—like an arrow that flies
from the bow and imbeds itself in the bull's-
eye—

So have the Maxwell builders fixed a price
for their product—\$1045—which makes it pos-
sible for them to say:

"Below this figure there must be something
lacking which we have put into the Maxwell—
efficiency, durability, economy, comfort, beauty
or standard equipment.

—and above this figure we could give you
no greater practical utility—only larger size or
richer and fancier furnishings."

This is the scientific fact—proved and de-
monstrated by one of the giants of the motor
car industry in years of production on an im-
mense scale.

And we stand firm on this finding of the
Maxwell builders.

We believe the Maxwell to be the BEST
MOTOR CAR INVESTMENT possible today.

YOUR OWN PERSONALITY.

Preserve It and Be Yourself and Not
Somebody Else.

How hard do you fight to hold on to
your personality?

You are willing to fight to save the
money you have earned, to hold your
job or to get a better one. You fight
to keep your external possessions, but
do you fight to keep yourself?

Without a personality, an individual-
ity, it is impossible to achieve any
great success, no matter how success-
ful you may appear for a time. The
success that comes from having some
strong man's personality working
through you is not permanent or genu-
ine.

When Napoleon was fighting Aus-
tria in 1797, on the very soil where the
Italian battle lines stretch today, he
discovered that his own future de-
pended on the overthrow of the royalist
party back in Paris. He sent a young
officer named Angereau to Paris to ac-
complish a revolution. Angereau suc-
ceeded in bringing about what Napo-
leon desired. But neither Napoleon
nor history has ever given Angereau
any credit. He deserved none. It was
Napoleon, working through Angereau,
who overthrew the royalists. Ange-
reau lacked personality, individuality.
That is why Napoleon chose him as a
tool.

Trilby, singing under the spell of
Svengali, entranced her hearers; but,
with Svengali's influence gone, she was
the same unsuccessful, lonely Trilby.
Svengali chose her as a victim of his
influence because her personality was
not strong enough to resist him. He
stole her personality, just as he might
have stolen her little money or her old
blue military coat.

Dr. Johnson was so strong a char-
acter that he unwittingly overwhelm-
ed Boswell, and Boswell spent the re-
mainder of his life tagging around
after Johnson, worshipping him and
writing down all he said.

But the Napoleons, the Svengalis and
the Dr. Johnsons are not the only in-
fluences in this world that rob us of
ourselves.

For you the world is really divided
into two parts. One part is the multi-
tude; the other part is you. The multi-
tude tries to take away your individ-
uality and make you part of itself. If
it succeeds your life is bound to be a
failure, for there can be no success for
the young man or young woman who
permits the multitude to absorb him.

Your personality is really all you
have in this world.

If you think the mob's thoughts or
let the mob think yours, if you live the
mob's life and have the mob's feelings,
you don't own anything. There isn't
any you.

As you look yourself over are you
permitting anything to crowd you out
of yourself?—W. G. Shepherd in Wash-
ington Star.

More Birds, More Food.

If the eastern states alone could
bring back the quail, the rose breast-
ed grosbeaks and other bird benefac-
tors they would save \$15,000,000 a year
in the price of materials used to kill
potato bugs.

Charles F. Shoffner of the Liberty
Bell Bird club made this statement at
a luncheon at the Poor Richard club.
He made a plea for the birds as a
means of preserving the nation's food
resources.

"If Pennsylvania had but one pair of
robins to the acre," he said, "the birds
would consume 3,000 tons of insects a
day. The nation loses \$1,000,000,000
a year through ravages of insects
which the birds can eliminate. One
way to increase the crops is by bring-
ing back the birds."

Liberty and Independence.

When the presidential struggle be-
tween Clay and Jackson was at its
height it is related that a band of
emigrants from Kentucky and the then
other western states commenced to
settle on the north side of the Missouri
river and called their county Clay and
the county seat Liberty.

At the same time another lot of emi-
grants from Virginia and other south-
ern states pitched their tents on the
south side of the Big Muddy and called
their county Jackson and the capital
Independence. And so it remains to
this day. Clay stood for Liberty and
Jackson for independence.

Submarine Ridges.

The Norwegian sea is separated from
the North Atlantic by what may be
regarded as a continuous ridge run-
ning from Greenland to the British
islands plateau, of which Iceland and
the Faroe islands are emerged portions.
The Mediterranean is cut off from the
North Atlantic by a ridge at the Strait
of Gibraltar, over which the greatest
depth is only 175 fathoms, with steep
slopes on either side.

Frostproof Corn.

Department of agriculture experts in
Washington are trying to develop a
frost proof variety of field corn. They
say they are hopeful of early success.
Plants have already been developed
which have resisted cold which froze
soil to a depth of two inches.

Put Less Tea in the Pot

Because it chiefly consists
of the Assam teas of
Northern India, the
Rose is required in the tea pot.

Where four or five spoonfuls of ordinary tea are
required just use
three of Red Rose.

And Red Rose
tastes better.

AIMING A BIG GUN.

A Task in Which Figure Chemistry,
Mathematics and Physics.

Today there is about as much differ-
ence between aiming a big gun and
aiming a rifle as there is between sail-
ing a superdreadnaught and sailing a
steam yacht. It was not very long ago,
however, that a gun was aimed simi-
larly to a rifle in that the direction
in which it was pointed was obtained by
sighting along its barrel.

But now things are not done that
way. The gunners are often far out of
sight of what they are shooting at, and
the remarkable hits that they make
are only explained by the use they
make of careful scientific calculations.

To direct the fire of one of the bigger
guns, for example, requires that no
less than fifteen complicated correc-
tions be made, says Popular Science
Monthly. Each correction requires an
average of five adjustments, all of
which must first be exactly figured out
by those in command. The most im-
portant corrections which are made
are for the influence of the resistance
of the air, the influence of the earth's
curvature and the attraction of grav-
ity on the distance the bullet may be
carried.

In place of the guesswork of previ-
ous times is the use of the most ad-
vanced developments in the fields of
mathematics, physics and chemistry.

A Simple and Cheap Medicine.—A
simple, cheap and effective medicine is
something to be desired. There is no
medicine so effective a regulator of the
digestive system as Parmelee's Vegetable
Pills. They are simple, they are cheap,
they can be got anywhere, and their
beneficial results will prove their recom-
mendation. They are the medicine of
the poor man and those who wish to
escape doctor's bills will do well in giving
them a trial.

A Cynic.

A Clubman—Is that old chap in the
corner always so glum as now? An-
other—By no means. He laughs twice
a year, spring and fall, when the wom-
en's hats come in.—Puck.

Fitting Equipment.

"What kind of wheels are those they
have on the bottom of aeroplanes?"
"Of course they are flywheels."—Ex-
change.

Shun idleness. It is the rust that at-
taches itself to the most brilliant met-
als.

No surgical operation is necessary in
removing corns if Holloway's Corn Cure
be used.

VINOL CREATES STRENGTH

Positive—Convincing Proof

It is all very well to make claims,
but can they be proven? We publish
the formula of Vinol to prove the
statements we make about it.

Is Cod Liver and Beef Peptones, Iron and
Manganese Peptones, Iron and Am-
monium Citrate, Lime and Soda Glycero-
phosphates, Cascarin.

Any doctor will tell you that the
ingredients of Vinol as published
above, combine the very elements
needed to make strength.

All weak, run-down, overworked
nervous men and women may prove
this at our expense.

There is nothing like Vinol to re-
store strength and vitality to feeble
old people, delicate children and all
persons who need more strength.

Try it. If you are not entirely sat-
isfied, we will return your money
without question; that proves our
fairness and your protection.
