

NOW RAISES 600 CHICKENS

After Being Relieved of Organic Trouble by Lydia E. Finkham's Vegetable Compound.

Oregon, Ill.—"I took Lydia E. Finkham's Vegetable Compound for an organic trouble which pulled me down until I could not put my foot to the floor and could scarcely do my work, and as I live on a small farm and raise six hundred chickens every year it made it very hard for me. "I saw the Compound advertised in our paper, and tried it. It has restored my health so I can do all my work and I am so grateful that I am recommending it to my friends."—Mrs. D. M. ALTERS, R. 4, Oregon, Ill.

Only women who have suffered the tortures of such troubles and have dragged along from day to day can realize the relief which this famous root and herb remedy, Lydia E. Finkham's Vegetable Compound, brought to Mrs. Alters. Women everywhere in Mrs. Alters' condition should profit by her recommendation, and if there are any complications write Lydia E. Finkham's Medicine Co., Lynn, Mass., for advice. The result of their 40 years experience is at your service.

AUSTRIANS SEE NO CHANCE OF VICTORY

French and British Doing More to Bring War to End on Fighting Front

LONDON, Sept. 10.—The continued advance of the Entente Allies on the battlefield in France is making a profound impression on Austria-Hungary, according to a despatch from Zurich to the Evening Star. The recent departure of Austrian troops from Vienna caused riotous scenes in the Austrian capital.

Thousands of angry women, the despatch says, raided the railway stations, protesting against the departure of the men.

NO HOPE OF GERMAN VICTORY
BASEL, Monday, Sept. 10.—President Wilson's programme as a basis for the negotiations for peace are endorsed by Count Michael Karolyi, president of the Hungarian independent party. He writes:

"A decisive military victory, despite its successes, is a dream for which it is useless to pursue. The prime condition of peace negotiations is the democratization of nations and the abandonment of imperialist theories. A second condition is that we should not become slaves to the idea of middle Europe, either military economically or politically, and that we should not strengthen our alliance with Germany which form the first step toward the realization of this central Europe. We ought to accept as a basis for negotiations President Wilson's programme."

PERIOD OF PRECAUTION
PARIS, Sept. 10.—The Allies are now almost back to the lines they occupied before the German offensive, after six weeks of unbroken victory and the war has entered a period, not of calm but of precaution, with promise of just as wonderful things to follow. The dry and fine weather which helped Marshal Foch to turn the tables on the Germans so fast, has now ended, and a warm stormy spell has set in.

The fighting yesterday centred south of Cambrai, south of St. Quentin and to the heights south of Soissons, three vital spots for the Germans, who resisted desperately but unsuccessfully the Allies' forward thrust. The German heavy artillery is becoming active from Arras to Rheims, indicating that General Ludendorff fears no further removal will be forced upon him.

Military critics here are guessing what Marshal Foch will do next. Critics credited with having inside information are displaying much ingenuity and variety in their descriptions of the coming moves on the different parts of the front, but the belief is fixed and confident throughout France that there is little danger of General Ludendorff being allowed to buttress himself against the Allied line. The Germans are a little out of breath by the pace Marshal Foch set for them, but they are unlikely to get a respite during the coming autumn and winter. It is assumed that Marshal Foch will not let them go to earth as was done after the first battle of the Marne.

COMMAND APPROACH TO LAFERE
With the French Army in France, Sept. 9.—(By the Associated Press)—French troops forced the crossing of the Crozat Canal today, overcoming strong opposition and occupying positions in the triangle formed by the two branches of the canal and the road from LaFere to St. Quentin. They also advanced north of the Oise, taking the Liez fort and north of the Oise captured Etreviller and Roucy. Though these were operations of details they tightened the lines around

DID YOU EVER THINK

why that skin trouble, from which you are suffering, will not heal? It is because it is so deeply rooted that ordinary ointments are incapable of penetrating to the seat of the disease.

Zam-Buk, on the contrary, is so refined that it is capable of reaching the underlying tissues, and that is why so many cases of skin trouble, which have defied all other treatments, have yielded to Zam-Buk.

Don't delay! Get a box of Zam-Buk and prove it for yourself. Not only is it best for eczema and all skin troubles, but also for ringworm, ulcers, old sores, blood-poisoning, boils, piles, burns, cuts and all skin injuries. All druggists or Zam-Buk Co., Toronto. 50c. box, 3 for \$1.25.

Send 1c. stamp for postage on free trial box.

Sheep Fencing

One of the arguments advanced against sheep raising is the difficulty of fencing. This is losing force. The barbarous and almost useless two or three strand barbed wire fence is mercifully being replaced by the more human and effective woven wire by progressive farmers. A very modest additional outlay of labor and money provides the additional security necessary for sheep. Over against this little extra labor and expense place the cheaper building for winter shelter and smaller amount of labor in caring for them, then add the fact that their surplus return above feeding expenses is probably the greatest of any stock.

Minard's Liniment cures Colds, etc.

Harvest Help Required

Harvesting is in full swing throughout the West and although the wheat is not as heavy a crop as was hoped, still it is better than was previously thought possible, in view of the drought in the early summer, and the midsummer frosts.

"Wheat cutting is in full swing," reports Mr. J. D. McGregor, of the Canada Food Board, "and the crop outlook in the central part of the Manitoba gives promise of a considerably greater yield than has been expected. The rains during the filling season not only increased the yield of wheat, but improved the quality of grain. There has been sufficient labor so far, but more men are needed from now on.

It is estimated that about 5,000 men are needed in Manitoba and about 10,000 in Saskatchewan.

Potato Speculators Warned

Dealers and others who may be ambitious in regard to this year's crop of potatoes and apples have been warned by the Canada Food Board against speculation. "In negotiations for the purchase or sale of apples, potatoes or other roots, due consideration should be given to the possibility of some action being taken by this Board," declares their recent statement.

Relying on North America

Under the plans of the Allied Food Controllers, at least 70 per cent of the deficiency in essential foodstuffs of the Allied Countries in Europe must be supplied from North America, because of the short ocean haul as compared with that from other available food markets.

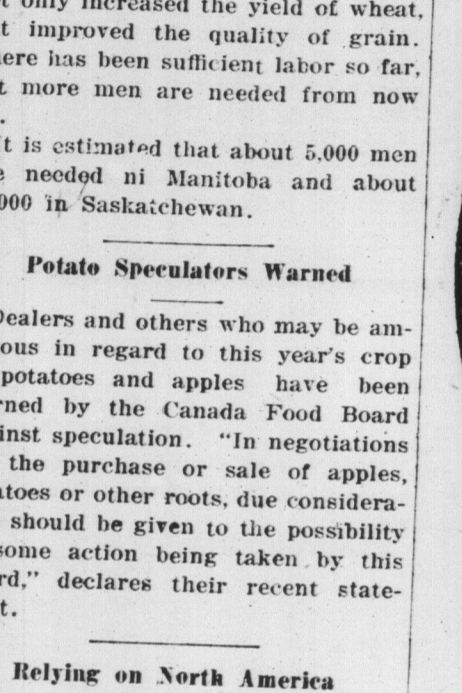

Much useless argument might be avoided if people would candidly admit their ignorance.

Without Food our Armies cannot advance on Berlin.

We must Save wheat flour. Do your share.

1 and 2-lb. Butter Parchment on sale at the MONITOR Office

To win this war every ounce of the strength of each of the allied nations must be put forth to meet the organized, trained and disciplined efficiency of the Central Powers—that gigantic, ruthless force which is the result of fifty years of planning and preparation.

And every ounce of every allied nation's strength is in the hands and brains and hearts of the individuals of each nation, because they are free peoples.

Now the individuals of each nation must live as well as fight, therefore a proportion of the effort and material of each nation must be diverted from war purposes to living necessities,

So the less each individual takes for himself or herself for personal use the more effort will there be left for fighting and winning the war.

Every cent you spend represents that much effort because somebody must do something for you in order to earn that cent—somebody's effort must be given to you instead of to the war.

Therefore the less you spend—the less of somebody's effort you take for your individual use—the more will you leave in the national surplus for war effort.

The war can be won only by the surplus strength of the allied nations. The money each individual saves represents that surplus strength.

So the truly loyal Canadian will use less, spend less, and save more, to help to win the war.
