'MESSENGER' PATTERNS

FOR THE BUSY MOTHER.

NO. 1133—CIRCULAR SKIRT.

Mme. Baker's Exclusive Patterns.

With long coats of cloth or silk, the circular or bell skirt will be extensively worn, and it is undeniably a graceful shape. Any style of trimming may be used, but a border of some sort is most effective and stylish. Broken lines are to be avoided on such a skirt. Perforations mark the line for cutting, if the skirt is to be short, but the circular form is at its best if made with a sweep. Our pattern, No. 1133, is made in five sizes, 22 to 30 in. waist measure, and 4 3-4 yards of 52-inch wide material will be required for a medium size.

Lighting a Child's Room.

The lighting of the child's room is a very important matter from a sanitary standpoint and also from one of convenience. If gas is the illuminant, it should never be left lighted longer than is absolutely necessary. If a night light is required, then a little night lamp should be procured, but even then it is a pity that more mothers do not train their children to be accustomed to sleeping in a room without a light. It is so much more

healthful. Where lamps are in use we far too often see children squinting because the strong lamplight is directly in their faces. Their elders seldom stop to think of this from their superior heights. A light should never be placed so that its rays flare into a child's eyes. One of the most prevalent causes for poor eyesight in young children is this very negligence on the part of their elders to provide shaded lights in rooms where children are sitting or playing.
