

The Markets.

Barley.

Quite a fair amount of trading is being done, and prices are fairly steady. Canadian barley is once more being quoted at Oswego, the figure being 60c., duty paid. It will be seen by the figures given that there has been a tremendous increase in the visible supply.

The stocks in store are 45,707 bush, against 42,434 bush at the corresponding date last year, and 32,410 bush, in 1902.

The visible supply in the United States and Canada is 1,121,000 bush, against 349,000 bush, in 1901 and 325,000 in 1902.

Hops.

Prices have probably got about as low as they will get, and still the enquiry is light. Some merchants, however, are holding out, but purchasers are holding off until the market appears thoroughly settled.
