An Electrotpe furnished
free for dealers

THESE FEEDERS are now made with a capacity of two quarts, and the price is reduced to **30 CENTS** each, or **\$3 PER DOZEN**, by express or freight. When ordered by mail add 10 cents each for postage.

These feeders can be re-filled without moving the Feeder, or disturbing the bees. The letting down of food is regulated by a thumb screw. It is easy to regulate—either a quart or a spoonful can be given in a day, or an hour, as may be required, and where it is most needed, over the cluster of bees. For rapid feeding two Feeders may be placed over the bees at one time, not a drop of food can be lost, and robber bees cannot get at it

HASTINGS' LIGHTNING

READ TESTIMONIAL

ORISKANY, N. Y., March 7, 1892.

M. E. Hastings,

Dear Sir.—The Ventilated Bee-Escapes which you sent to me last season worked well and did all you claimed for them. They do not clog, and clear the supers rapidly. In fact it is the best escape I have yet used. I cannot speak too highly of the escape, and consider it a great boon to bee-keepers.

Yours respectfully,

W. E. CLARK.
