REV. ALEX. GILRAY,
College Street Presbyterian Church, writes:
Dear Sirs,—
It is with much satisfaction that I learn that you have decided to establish a branch office in Toronto, believing as I do, that the more widely your Acetic Acid remedy is made known, the greater will be the gratitude accorded to you for the relief experienced by many sufferers in Canada. We have used your Acid for over eighteen years, and are now prepared to state that it is worthy of a place in every family. We have found it thoroughly safe and effective and have commended it to many,—for which we have been thanked. We wish you success in your new quarters, as we feel sure your success will bring relief here as it has already done to large numbers in the old land and other countries. Much will depend on the patient and persevering use of the Acid as set forth in your little book.

It is claimed in an article by M. de Djeri in the *Kerve Scientifique* that aluminum will soon replace tin for many purposes, that for equal volumes the price of the two metals is not very different, and that the alloys of aluminum with copper and other metals are superior to those of tin.

Putting the cart before the horse is no longer a mere conception. In France it is now an accomplished fact. An inventor has gotten up a street car or omnibus, not drawn but driven with gearing from a treadmill attached to the rear of the vehicle and supported on wheels. The horse, therefore, rides while he works.

The tunnel which carries the Colorado Midland Railway through the Rocky Mountains, at Hagerman Pass, Col., has just been completed. ECONOMY AND STRENGTH.
Valuable vegetable remedies are used in the preparation of Hood's Sarsaparilla in such a peculiar manner as to retain the full medicinal value of every ingredient. Thus Hood's Sarsaparilla combines economy and strength and is the only remedy of which "100 Doses One Dollar" is true. Be sure to get Hood's. Hood's Pills do not purge, pain or gripe, but act promptly, easily and efficiently.

Only the Scars Remain.

"Among the many testimonials which I see in regard to certain medicines performing cures, cleansing the blood, etc.," writes HENRY HUDSON, of the James Smith

Woolen Machinery Co., Philadelphia, Pa., "none impress me more than my own case. Twenty years ago, at the age of 18 years, I had swellings come on my legs, which broke and became running sores. Our family physician could do me no good, and it was feared that the bones would be affected. At last, my good old mother urged me to try Ayer's Sarsaparilla. I took three bottles, the sores healed, and I have not been troubled since. Only the scars remain, and the memory of the past, to remind me of the good Ayer's Sarsaparilla has done me. I now weigh two hundred and twenty pounds, and am in the best of health. I have been on the road for the past twelve years, have noticed Ayer's Sarsaparilla advertised in all parts of the United States, and always take pleasure in telling what good it did for me."

The revival of the Napoleonic spirit now in progress in France and evidenced by the numerous dramatic and literary efforts which are put forth by the disciples of that dynasty is cropping up in the queerest way right here in New York. Half the French restaurants in town are investing in color prints of Bonaparte, and pictures of the Emperor adorn conspicuous places in the markets and delicatessen shops in the different French colonies.—*New York Press*.

For the glass an insoluble gelatine film has been substituted, and the material, known as "tecturium," is now extensively employed in constructing hothouses, verandas, factory windows and store roofs in several foreign countries. It is tough and flexible, and, if desirable, may be painted any color.
