THE DOMINION
SAFETY BOILER CO.

MANUFACTURERS OF

The "Field-Stirling" Patent

High Pressure Boiler,

THE SAFEST AND CHEAPEST STEAM-GENERATOR
NOW IN USE.

This Boiler is unusually durable, being made of the best steel and wrought iron exclusively. No cast-iron is employed. It is simple in construction, has a rapid, well-defined circulation, and a large cool mud-drum, where all impurities are collected to be blown off. All parts of the Boiler are readily accessible for the closest inspection. This is point of greatest importance. It has great excess of strength and is not liable to be strained by unequal expansion. The water space is divided into sections so arranged that if any section gives way from shortness of water, the explosion would be local and comparatively harmless.

We guarantee dry steam and great economy of fuel.
Correspondence solicited.
