

NEW ALDERMEN.—The civic elections took place on Wednesday. The new aldermen are:—Ward 1, W. J. Stewart; Ward 2, Wm. Dennis, re-elected; Ward 3, Thomas Mitchell; Ward 4, Edward O'Donnell; Ward 5, Wm. McFatridge, re-elected; Ward 6, Isaac Creighton.

GREAT BRITAIN IN THE NAVAL PARADE.—In the great naval display at New York this week, Great Britain, Germany, France, Russia, Italy, Spain, Brazil and other countries are co-operating with the United States in making a creditable show. England contributed five ships of war, all of course built in Great Britain, Italy sends three fine ships built and equipped in England, Spain has three, the best one of the trio being English built. Of the United States contingent two are from English designs bought by the United States Government; the third is an English design modified, and the three gunboat cruisers are copies off a type of ship belonging to the British navy. More than half the number are British built ships of war, or vessels modelled after British designs.

NOVA SCOTIAN SCHOOLS.—The report of the Superintendent of Education on the public schools of the Province for the year ending October 31st, 1892, shows that the number of pupils in attendance increased by over one thousand, while the total number of schools in operation and teachers employed increased by about forty. The average salaries of first-class male teachers increased by about forty dollars, and of first-class female teachers about ten dollars; while the average salaries of the lower classes of teachers, male and female, as a general rule decidedly diminished. This fact is well worth noting, as it appears to indicate that the work of superior teachers is gradually becoming more appreciated by the people, while that of lower grades is correspondingly less in demand.

THE DOMINION ATLANTIC RAILWAY.—The bill to enable the Windsor & Annapolis Railway to purchase the Western Counties Railway passed its third reading in the House of Assembly with little discussion. The consolidated railway, which is to be known as the Dominion Atlantic, will operate in all 235 miles, and will prove a great convenience to the travelling public. The people of the western counties of Nova Scotia are delighted with the new arrangement, and Manager Campbell, of the W. & A., has received much well-merited commendation for the energy and enterprise he has shown in accomplishing this change. The Flying Bluenose will run from Halifax to Yarmouth daily this summer to connect with the Boston boats, and will no doubt do a rushing business when the tourist travel opens for the season.

Hood's Pills act especially upon the liver, rousing it from torpidity to its natural duties, cure constipation and assist digestion.
