REPRESENTATIVE AND CHAMPION OF AMERICAN ART.

$\Gamma H E$ ALDINE:

AN !LLUSTRATED MONTHLY JOURNAL claimed to be tho

HANDSOMERT PAPER IN THE WORLD.

"Give my love to the artist worknen of THE ALDINE who are striving to make their professein worthy of admination for beauty, as it has always been for usefulness."—Henry Ward Beecher.

THE ALDINE, while issued with all the regularity, has none of the temperary or timely interest characteristic of ordinary periodicals. It is an elegant mascellany of pure, light, and graceful literature and a collection of pictures, the rarest spectmens, of striatic skill, in black and white. Although each succeding number uffords a fresh pleasure to its friends, the real value and beauty of THE ALDINE will be most appreciated after it has been bound up at the close of the year. While other publications ma, claim superior cheapness as compared rivals of a similar class, THE ALDINE is a unique and original conception—alone and unapproted—absolutely, without competition or in price or charactor. The possessor of the volume just compiled cannot duplicate the quantity of fine paper and engravings in any other shape or number of volumes for ten times its cost.

The labor of getting THE ALDINE ready on the press is so great that reprinting is out of the question. With the evention of a small number specially reserved for unding, the edition of 1871 is already on hausted and it is now a scarce as well as valuable book

Features for 1872.—Art Department.

The enthusiastis support so readily accorded to their enterprise, wherever it has been introduced has convinced the publishers of THE ALDINE of the soundness of their theory that the American public would recognize and heartily support any sincere effort to elevate the tone and standing of illustrated puplications. That so many weekly wicked sheets saist and thrive is no evidence that there is no market for anything better—indeed the success of THE ALDINE, from the start is direct proof of the contrary. With a population so wast, and of such varied taste, a publisher can choose his patrons, and his paper is ruther indicative of his coven than of the tack of the country. As guarantee of the excellence of this department, the publishers would beg to announce during the coming year, specimens from the following eminent Americas Artists.

W. T. Richards, Grany, Parkins,

W. T. RIGHARDS, WM. HART, WM. HART, GEORGH SMILLHY, AUG. WILL, JAMES SMILLY, FRANK BRARD, J. HOWS.

Grany. Parkins, F. O. C. Darlhy, Victor Narlis, VM. H. Wilcox, James H. Brard, R. E. Pigluy, Paul Dixon,

The pictures are being reproduced without regard to spense by the very best engravers in the country, and will be at the very severest critical comparison with the best foreign work, it being the determination of the publishers that THE ALDINE shall be a successful yndication of American tests in competition with any existing publication in the world.

LITERARY DEPARTMENT.

Where so much attention is paid to illustration and got no of the work, to much dependance on appearances may very naturally be feared. To anticipate such misgivings, is only necessary to state that the editorial management of THE ALDINN has been intrusted to Mr. Richard Henry Stoddart, who has received assurences of sestatuse feare. who has received assurances of assistance from a host of the most popular writers and poets of the

The chromo is 11 x 13 inches, and is an exact acceptance of the eriginal picture. No American shromo, whick will at all compare with it, has yet been effered at retail for less than the price asked for THE ALDINE and it together. It will be delivered free, with the January number, to every subscriber who pays for one year in advance.

A feeling has long provated that the intellectual life of the Canadian antion ought to have some organ in the form of a good periodical. Attempts have been made to give it such an organ, but hitherto they have not been successful.

These requisites have now been effectually secured. The literary aid and materials requisite for the

Politics will be treated with the aim of infusing as much as possible of the historical and philosophical spirit into the popular discussion of political questions. Religious questions, if they form the subject of any papers, will be treated with a similar aim.

In some measures they may have been promature; but it is believed that their failure has been anning due to the want of a sufficiently strong and well-organized staff of writers, and of a tand sufficient to guarantee to contributors the fair rommoration, without which, as multiplied experience proves, a periodical cannot be successfully carried on.

The literary aid and materials requisite for the support of a first-class imagazine will be sought, without restriction, from all quarters—Canadian, British, and Foreign.
