

**A**LL IS NOT GOLD THAT GLITTERS" is the old proverb. If it be true generally, it is especially so of the "Gold Chain" trade; much of the chain made in Birmingham "for export" might more truthfully be called "copper alloy" than gold, for almost three-fourths of it is base-metal. Our

**STANDARD GOLD CHAINS**

are all made of sufficient fineness to resist nitric acid, and not to tarnish in wear, each part being polished to the highest bright-burnished surface. Our

Coloured Chains are Coloured by the Acid Process,

(not gilt) and can all be relied on as a standard of fineness. To prevent deception, we stamp each chain **R. W. & CO.** on the swivel, without which mark we do not guarantee any chain. To be had of all Jewellers.

**CERTIFICATE FROM MR. ALFRED KNUCKLE, American House, St. Joseph Street:—**

MONTREAL, March 7th, 1872.  
DEAR SIR.—I was afflicted during the beginning of this winter with a most severe COLD, attended with incessant COUGHING and DIFFICULTY OF BREATHING, which reduced me so low that many persons supposed I could never recover. I tried a great many things, which were given me both by my doctors and friends; but did not receive any benefit from anything until I commenced using your "HOARHOUD AND CHERRY BALSAM," which seemed to give me relief immediately. I continued using it until I was completely cured, and now I believe I am as well as I ever was in my life. I would gladly recommend it to any person suffering from a similar complaint. Almost anybody who knows me can certify to the above. **ALFRED KNUCKLE**
