VEGETABLE MEDICINES.

By a species of instinctive feeling, the people nearly all countries are greatly averse to those medicinal preparations which contain mineral substances amongst their ingredients And yet, if the question was asked why they objected to this class of medicines, we presume few could give an intelli gent enswer. Nevertheless, the aversion is well

All mineral substances, when taken into the sto-mach, are cumulative in their nature— that is to say, they remain either partly or wholly in the system and accumulate with each additional dose, until in many cases the result is death. For example, ar senic, although known to be a deadly poison, yet in certain parts of Switzerland is extensively used by the mountain guides as a means of giving them, walgarly speaking 'long wind.' But although it is thus beneficial for a time, the ultimate result is always death

It therefore becomes evident that the popular dislike to mineral medicines is well founded, and it is doubtless in a great measure to the entire absence of any mineral substance that the wonderful success of

Ayer's Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color with the gloss and freshness of youth. Thin hair is thick-

ened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sedi-ment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

Murray & Lanman's Florida Water is really the most delightful and efficacions of totlet waters, every thing entering into its composition being of the finest quality, and so combined as to speare their heat effects. It never changes as to secure their best effects. It never changes nor alters, keeping for any length of time, and in any climate, as delicate and fresh as at the moment of its preparation. It is also very extensively used as a dentifrice, on account of the

which it leaves in the mouth. The proportions should be about a tea-spoonful to a glass of pure water. It neutralizes the minute particles of food lodging in the mouth, and which are the prolific cause of decayed teeth, had breath, and unbealthy, white-looking gums. Moreover, by the use of Murray & Lanman's Florida Water the breath is made sweet and pleasant, and the teeth white without any danger of injuring the enamel, a difficulty existing with nearly all the mouth lotions and powders for the teeth. We believe that there is nothing will tend more to produce this effect than the constant use of Murray & Lanman's Florida Water mixed with the water in the basin. It removes reduess and roughness. The ladies of Cuba and South America were the first to discover the extraordinary virtues of this floral water as a cosmetic and, after twenty five years of every-day use, they have decided that it is the only itagrant distillation combining all the requisites for a safe and reliable beautifier of the skin, as well as an exquisitely delicate perfume Probably the most distinctive feature of Murray & Lanman's Florida Water is its wonderful
