Such a thorough canvass of every township of the diocese, if conducted in the spirit of prayer and in humble dependence on Divine assistance, can scarcely fail (his Lordship continues) of being eminently successful; but should we come somewhat short of our object, still our progress will be sufficient to encourage us, after a little time, to renewed exertions for its full attainment. It is the work of God, and to try our faith he may permit impediments and causes of delay; but we firmly believe that the issue will, in due time, be

It is in compliance with his Lordship's recom mendation to his Rural Deans thus expressed, and under its authority, that I have, as Rural Dean of this district, felt it my duty to call this meeting; and if it should seem to any person to have been too long deferred, I trust that the zeal which suggests that reproach may not be found to evaporate in vain complaints, but may manifest its celestial origin by prompting us all to make such strenuous and decided efforts as may speedily cause us to outstrip those who, by reason of their having been invited at an earlier moment to engage in the prosecution of so noble and pious an enterprise, now appear to have left us far behind. Already have we heard of one gentleman in the East who has undertaken to contribute the sum of £375 upon certain conditions, and of another in the West—and he a clergyman—who has contributed no less a sum than £500 to this sacred object; while gifts of £100 are quite common.* And will it be said that the grape persons residing within what that there are no persons residing within what is likely to form the new Diocese of Toronto able and willing to respond to the call of their vener-able diocesan with a like munificence, dutiful obedience, and alacrity? This is a generous and Christian rivalry; and a just reproach indeed would it be to us were we, who, by reason of our would it be to us were we, who, by reason of our contiguity to the cathedral city, have enjoyed for so many years the peculiar advantages to be derived from the more immediate supervision of a bishop, found wanting in a sincere and just

It was my intention to have laid before this meeting a roll containing the names—residences and assessed value of the property of all the members of our communion residing within the bounds of this Deaury, but upon enquiry I found it impossible to obtain the requisite information, kept in their respective townships. Without Moved by Captain Harris, seconded by W. this information it is, nevertheless, impossible for us to proceed with any degree of satisfaction icated on the assessed value of the property of Churchmen resident therein; and therefore one of the foregoing resolutions provides that the sub-committees of the various localities be re-Quested to procure a roll containing a correct statement of the above particulars for the information of the general committee of management at its meeting in June. And I am expressly authorized by the Lord Bishop to state that it is his particular desire that the clergy of this thery use every effort, and assist by every means in their power, in procuring within the specified time a correct statement of the above Particulars in the bounds of their respective missions. But although I have, unfortunately, not been able to obtain statistical information sufficiently accurate for our purpose, I can state in round numbers the sum which will approximate closely to that which it will be necessary for us to raise in this Deanery as our proportion of the Episcopal Endowment Fund.

I find there are in the three counties comprised within the limits of this Deanery between thirty-nine and forty thousand inhabitants be-longing to our church, while the assessed value

I thank you for your attendance here this day, and for the kind attention with which you have received my remarks; and cannot, I feel, better bring them to a close than by quoting the concluding paragraph of his Lordship's pastoral: "Let us day evening last, and was, we are happy her Synod for the first time, and requires of us Certain services which all admit are essential to the well-being and progress of the Church; we are, therefore, on our trial, and on our obedient the enjoyments of the evening. If we labor with hearty good whole, the evening passed very pleasantly, and the nett proceeds must have realized a side; but if we become lukewarm and remiss, we remain apathetic, instead of being active, our Church will be thrown from the high Position which she now occupies. Our responsibility is fearfully great; but make it a labor of springing from true faith in our Saviour, and we have nothing to fear."

PROTECTION FROM LIGHTNING By Spratt's Patent Lightning Rods. MANUFACTURED BY

V. WILSON & H. PYPER & BROTHER, 50, YONGE STREET.

THE Subscribers are the only authorized agents for the sale of these valuable rods in the Canadas. Manufactured and for sale, olesale and retail, at their manufactory, 50 Yonge Street, Toronto.

CAUTION-Allow no man to protect your building without first examining the points of his rods; and if they have not the Platinum Wire in the point, they are not Genuine. coating of the point is of a composition metal that never rusts, retaining its brightness for years; the nature is soft and can be cut with a knife, yet sufficiently hard not to melt under the influence of Electric fluids. Look out for Rods manufactured at St. George, C. W. They purport to be Spratt's Points and Rods, but are not. They are made of steel highly polished; but will become coated with rust after the first night's exposure to the atmos phere; consequently rendering them useless. Always ask for the agent's certificate, and be sure to notice the stamp, SPRATT'S IMPROVED

NOTICE.-No Policy of Insurance covers osses by lightning, unless burned down or set AGENTS WANTED.
