

- (b) "Appropriate governmental authority" means for Canada, the Atomic Energy Control Board, and for the Slovak Republic, the Nuclear Regulatory Authority of Slovak Republic;
- (c) "Equipment" means any of the equipment listed in Annex B to this Agreement;
- (d) "Material" means any of the material listed in Annex C to this Agreement;
- (e) "Nuclear material" means any source material or any special fissionable material as these terms are defined in Article XX of the Statute of the IAEA which is attached as Annex D to this Agreement. Any determination by the Board of Governors of the IAEA under Article XX of the Agency's Statute, which amends the list of material considered to be "source material" or "special fissionable material", shall only have effect under this Agreement when the State Parties to this Agreement have informed each other in writing that they accept that amendment;
- (f) "Persons" means in relation to the Slovak Republic any individual or any entity subject to the jurisdiction of either Party and in relation to Canada firms, corporations, companies, partnerships, associations and other entities private or governmental; and
- (g) "Technology" means technical data that the supplier State Party has designated, prior to transfer and after consultation with the recipient State Party, as being relevant in terms of non-proliferation and important for the design, production, operation or maintenance of equipment or for the processing of nuclear material or material and includes without being limited to, technical drawings, photographic negatives and prints, recordings, design data and technical and operating manuals, and excludes data available to the public.

ARTICLE II

The co-operation contemplated under this Agreement relates to the use, development and application of nuclear energy for peaceful purposes and may include, inter alia:

- (a) the supply of information, which includes technology, related to:
 - (i) research and development;
 - (ii) health, nuclear safety, emergency planning and environmental protection;
 - (iii) equipment (including the supply of designs, drawings and specifications);
 - (iv) uses of nuclear material, material and equipment (including manufacturing processes and specifications);
 - (v) nuclear fuel and nuclear fuel waste, including use, handling, transport, storage and disposal;and the transfer of patent and other proprietary rights pertaining to that information;
- (b) the supply of nuclear material, material and equipment;
