

A meeting of the Macdonald College Committee was held on 13th August, 1920, in Montreal.

The Committee agreed to the policy of preparing students in the graduate course for work as specialists in the different branches of agriculture and of instituting post graduate work leading to advanced degrees in as many lines as the finances of the institution will permit.

The Committee recommended to the finance committee -

Increases in salaries of the following professors on the understanding that they were to carry out the general policy above mentioned.

Prof. W. Lochhead, M.Sc. from July 1 1920 \$3800 without perquisites.

Prof. J. F. Snell, Ph.D., from July 1st, 1920, \$3200.00 without perquisites.

Prof. C. J. Lynde, Ph.D., from Octy 1st, 1920, \$3200.00 without perquisites.

The committee agreed to divide the present Biology Department into two departments, Zoology and Botany, with Professor W. Lochhead in charge of the former and Professor S. T. Dickson in charge of the latter.

The committee agreed to the following appointments:-

Prof. S. T. Dickson, Professor of Botany from September 1st, and to be a member of the Faculty of Agriculture at \$3000.00 per year without perquisites.

Ass't. Prof. G.P. McRostie, Cereal Department from time of assuming office at \$2400 per year without perquisites.
