ASQUITH FACING NEW CRISIS IN RESIGNATION OF GEN. FRENCH

Other Leading Officers Expected to Hand in Papers as Outcome of Repudiation of Guarantees—Premier Urges French to Remain.

LONDON, March 26.—Premier Asquith was brought face to face with a new crisis by the resignation of Field Marshal Sir John French, chief of the imperial general staff and virtual head of the British army.

The result of a meeting at the war office of the principal commanding generals of the British army was awaited with anxiety by the general public and in political circles today, as it was thought they might take some step which would virtually disrupt the army administration.

In the north of Ireland itself, where the controversy between Nationalists and Unionists had been the cause of so much difficulty to the British Government, there was no disturbance of the peace. The two parties were seemingly content to await events in London.

Urges French to Stay. A news agency issued an announcement that not only Field Marshal French, but Adjutant-General Sir John Spencer Ewart, had tendered his resignation, and added that the government had refused to accept either of them.

more Unionist than Liberal in his sympathies.

The Liverpool Post, a Liberal newspaper, says that the month of June is given as the latest date for a general election. It intimates that as a result of the intervention of King George an agreement has been reached by the Unionists and the Liberals under the terms of which the home rule for Ireland bill and the Welsh disestablishment bill shall be passed, with the understanding that a general election shall follow.

TUPPER EXPECTS EARLY ELECTION

Situation in Britain is Most Critical, Says Former Canadian Premier.

LONDON, March 26.—"Never in my long lifetime has there been anything like so critical a position as today," declared Sir Charles Tupper, "I am satisfied that the government will be compelled to go to the country, but I doubt exceedingly if they will be able then to carry a majority."

One of the greatest objections to the home rule bill, apart from the Ulster situation, continued Sir Charles, is that Britain, as such as Canada, realizes a federal government. It should be a representation of Scotland, Ireland, Wales and England by legislatures dealing with their local affairs.

The present Irish bill destroys that possibility, because it gives Ireland what nobody would dream of giving to Scotland or Wales, control of the postoffice and customs. The passage of the bill would prove a fatal obstacle to any bill providing a general federal scheme for the rest of the kingdom.

Many Want Seely to Go. Many Liberals, too, think Premier Asquith should have accepted the resignation of Col. Seely for he always has been suspected of being really
