

CITY OF ST. JOHN, N. B.

Extracts from Opinions of the New Brunswick Press on Lovell's General Geography,

A WANT SUPPLIED.—School teachers, parents, and all interested in educational matters, have telt that a Geography, above all other books, was required in the schools. Mr. Lovell has supplied this deticience; the plan ot which is excellent, and is adapted to the youth of the British provinces. It is emphatically a British North American Geography, and commences at home, as it should do, and not on the old principle of learning the youth everything about foreign nations, while they are kept in ignorance of the country in which they live. We wish to see it in every school, and hope it will supersede those now in use.—Morning Globe, St. John, N. B.

An excellent, and we must add, indispensable school book. As a manual of Geography it leaves nothing, as far as we can judge, to be desired. It will necessarily lead the youthful mind to dwell upon the vastness of the British domlnions in North America, and cause our juvenile triends to consider that "where formerly the red man and the wild heast roamed, in our day Christianity and civilization claim their power, and science follows in their patin."—New Brunswicker, St. John, N. B.

This excellent work supplies a want long felt in these provinces,—a text book which treats of our own country. We trust it will be universally patronized.—New Brunswick Baptist, St. John, N. B.

This Geography is very carefully and elaborately got up. It seems to be worthy of the encomlums which all of the first rank and position of all creeds and parties in Canada lavish upon it.—Morning Freeman, St. John, N. B.

This excellent publication completely supplies a long existing desideratum in our provincial schools. So well has the task been exceuted, both by author and publisher, that we recommend it with the greatest confidence to the patronage of all our provincial teachers and parents. The publication as a whole is so pecu-

liarly adapted for the use of British colonists, that we enruestly hope it will rapidly supersede all other Geographies in our provincial schools.—Courier, St. John, N, B.

This work is put forth by a Canadian publisher, and will admirably answer the purpose intended. It is a useful publication, and might very well replace the Geographies got up in the United States, where uncle Sam's territory usurps undue space and notice, and British North America is treated as it were a not much explored, and a little known region of the world, of which it is in reality a very fair and ample portion.—

Head Quarters, St. John. N. B.

The Provinces receive a fair share of space and detail, while other countries receive full justice. The work is one which deserves an extensive circulation; it is a colonial production; is well printed, and comes highly commended by the saxans of Canada. We cheerfully recommend it to the school teachers of the province as an excellent substitute for the faulty Geographies now in use.—Morning News, St. John, N. B.

Wo are glad to be able to inform our readers, and especially the teachers of our New Branswick schools, that we have at last a Geography which seems suitable to our wants. "Lovell's General Geography" is, in our opidion, an exceedingly valuable and suitable contribution to our school literature. We expect soon to see this the only Atlas used in our Schools in these colonies. We commend it especially to the notice of all the teachers of schools in our province. We believe they will be doing a service to the pupils under their care, by urging them to be a side the Atlases previously in use, and to procure "Lovell's General Geography."—Allion, St. John, N. B.

We have glanced over this work with much satisfaction. It (1) is a want which has long been felt in the schools of these provinces. We predict for it nu extensive sale.—Christian Watchman, St. John, N. B.
