Announcement

FOR over twenty years the Ontario Agricultural College has provided Courses of Study and Practical Field Work for farmer's sons, and thousands of young men have taken advantage of it. At first the Course was two years. This was found to be too short, and in 1888 a third year was added. Still later it was found impossible to do justice to the work in three sessions, and the regular College Course, leading to the Degree of B.S.A., now covers a period of four years.

But there are many farmers and farmer's sons who cannot spare the time to take the long College Course, and others who might find the time, but have not the means or education sufficient for matriculation. For the sake of such men we have supplemented our regular work by adding **SHORT COURSES** to meet their special requirements.

Better men are wanted to manage our Cheese Factories and Creameries, to give instruction to our Cheese and Butter-makers, to judge the Live Stock and Farm Produce at our Fall Fairs, and the boys and girls of the farm would be benefitted by a better knowledge of the Poultry Industry.

The Courses are offered for the purposes above indicated, and any farmer's son or farmer's daughter should find it profitable to take a Short Course at the Ontario Agricultural College.
