TUESDAY MORNING, NOV. 15, 1910.

SELLING AND BUYING.

When Sir Henry Pellatt asks 150 for his electric light stock, which is worth about eighty to the city, and The World suggests that Sir Henry might consider what the purchaser thinks if he is really in earnest about selling, all The Windsor Record can think of in its belated wisdom is that the idea is millennial or Utopian, and that it must have been highly diverting to the knight.

The Windsor Record is not yet out of the kindergarten, surely. Does it really suppose that The World expects Sir Henry Pellatt or any other capitalist to consider any interest but his own? Nor does The World expect Sir Henry (nor The Windsor Record either) to appreciate the reduction to absurdity of the proposal that Sir Henry should use a little common sense in dealing with the city.

If Sir Henry were buying the plant of his electric light stock, instead of trying to sell it, he would be "highly diverted." Indeed, as The Windsor Record has it, if the city asked \$160 for the shares.

But what does The Windsor Record know about Toronto electric light stock, anyway?

COUNCIL AND COMMISSION.

Calgary is considering government by commission, but it is doing so thru the city council, which wishes to have its cake as well as eat it. The council desires to have the commission at the mercy of a majority vote of the council, and thus rob it of all the independence which is the redeeming feature of commission government. The ward politicians are always against popular and progressive government.

ANANIAS AHEAD: THE FIELD NO-WHERE.

The Hamilton Times calls upon the public to judge between it and The Hamilton Herald, "which of them has been lying to deceive the people." As no newspaper with any knowledge of the situation would attempt to compete with The Times in this respect, the award goes without saying.

The funny part of this particular incident is the fact that The Times has been trying to convince the people that it will cost more to build the Hamilton hydro transmission line as the commission wants to build it and as the city agreed to build it on April 5 last, than according to the plans which The Times and its friends have cooked up in the meantime.

HYDRO-ELECTRIC RATES.

Enemies of the hydro-electric power movement, that is to say, enemies of the people, are trying to make out that prices for power quoted to Brockville are too high. The rates furnished were for 1000 horse-power, \$49.34; 2000 h.p., \$32.48; 3000 h.p., \$27.83. These are only partial figures, as everyone knows who has taken any interest in the power plans. The hydro-electric commission scheme depends on the co-operation of the different municipalities which desire to have power.

If the municipalities in the eastern district combined, as they have in western Ontario, power could be supplied to them at cheaper rates than any company is willing to supply it. This, of course, is the reason such bitter opposition is maintained by the private companies against the hydro-electric plan. The people quite understand why the companies object to cheap power, and they are beginning to understand also why papers like The Brockville Recorder object to the people getting cheap power.

PULLMAN CAR RATES.

In the admission by the Pullman Car Company that cheaper rates can be had for sleepers, and that the Interstate Commerce Commission has the right to regulate the rates, there is hope for the man who climbs into the upper berth and the woman who struggles with the curtain on the lower one. There is a strong hint also for the Dominion Railway Commissioner, and no doubt Chairman Mabee will discover that regulation is quite as feasible in Canada as in the United States. Perhaps the sleeping and parlor car companies may discover that intervention by the board is unnecessary, and that the public is entitled to some of the dividends that now go to fatten unduly favored shareholders.

Alberta and Saskatchewan find themselves helpless in dealing with their water powers. The control of all streams and lakes and stouche, even

Saving Money.

THE wisdom of saving money must be apparent to every person who gives the subject any thought.
A LITTLE money saved enables you to take advantage of opportunities for making more money; to buy a lot to make the first payment on a home; to start in business for yourself. The opportunities for saving money are everywhere. Saving the small sums is the creation of Capital.

There is but one certain, safe way to accumulate money, and that is to save it. Thus, and thus, the foundation of wealth is firmly laid. Those who earn and spend are many. Those who save and accumulate are few. Those who save are the select few who gain a competence and place themselves in a position to grasp life's opportunities.

Economy is the Road to Wealth. Save and deposit your savings with Canada's premier Mortgage Corporation, which will also earn interest at THREE AND ONE EIGHTH PER CENT. ANNUUM, compounded four times a year.

A NUISANCE TO HIS CHILDREN.

"If I Left, the Children Would Have More."

"I think I will try and get back to Gravenhurst," said the patient and pitiful wife of Mr. D., a former patient at the Muskoka Free Hospital for Consumptives, when he was called upon a few days ago by the visiting nurse of the hospital. Mr. D. is a former patient of the work of the visiting nurse to follow up in their homes the patients who have come back from Gravenhurst. He is not able to work. All that comes to the home is \$5 a week in interest. "I am a nuisance to the children," he said. "If I left, the children would have more."

HAD KIDNEY TROUBLE.

Miss Hazel Rice, Winchester Springs, Ont., writes: "I was troubled with my kidneys for five years. They were so bad, at times, I could not cross the floor for the pain. The doctor could not do me any good and a friend advised me to use Doan's Kidney Pills. I bought six boxes and now feel as well as I did four years ago. I will recommend them to every sufferer."

No woman can be strong and healthy unless the kidneys are well. When the kidneys are ill, the whole body is ill, for the poisons which the kidneys ought to filter out of the blood are left in the system. Then how important it must be to see to it that this system of sewerage be not clogged up.

Doan's Kidney Pills are a purely vegetable medicine, realizing quick, permanent relief, without any after effects. A medicine that will absolutely cure backache and all forms of kidney and bladder trouble.

Doan's Kidney Pills are 50c. per box or 3 for \$1.25, at all dealers or mailed direct on receipt of price by The T. M. M. Co., Limited, Toronto, Ont.

If ordering direct specify "Doan's."

WORKS ENQUIRY TO-DAY.

WITH FARQUHAR CHARGES

Queen St. Paving Matter to Be Vented—Preparing to Celebrate Advent of Niagara Power.

TO-DAY AT THE CITY HALL.

10 a.m.—Works department enquiry.
11 a.m.—Board of control.
2:30 p.m.—Court of revision.
3 p.m.—Fire and light committee.
3:30 p.m.—Special committee on hydro-electric celebration.

That, thru an error of judgment on the part of the city, there was an overpayment of about \$4000 on an asphalt paving contract on Queen-st., from Yonge to River, several years ago, is a charge which ex-Adm. Ewart Farquhar makes and which will be dealt with at the enquiry into the civic works department which is to be resumed before Judge Winchester at 10 a.m. to-day.

Another witness subpoenaed is James Pearson of a paving contracting firm. Pearson's contention is that the city's day labor system is unfair to competing contractors.

Mr. Farquhar says it was his charge which decided the mayor to ask for the investigation. "It looks pretty bad," he says. "The Queen-street contract for the taking up and putting of the gutter stone from end to end and putting of cement in its place. There is a comprehensive schedule in what an extra work has to be made. The city didn't observe that, but made only a nominal deduction for work which the contractors had started but which was not necessary, altho it had been contracted for in the first place. The contractors did put in some of the cement work and got credit for it at the stipulated rate of 27 cents a foot for the straight work and 32 cents a foot for the circular, but the deduction made for the unfinished work was only at the rate of 10 cents a foot."

There is also a claim that there was an overpayment in regard to a paving on Pembroke-st., and that the request of the property owners to have him inspect the work was not made. It was the only one who knew the kind of material used, was disregarded.

The city engineer said last night that the Queen-st. matter being severe old, he had forgotten the circumstances.

"The whole question is largely one of the engineer's discretion," said Geo. Powell, roadways engineer, against whom Mr. Farquhar's criticism is specially directed. "The plan called for one thing and the contractors thought the type of gutter-stone should be different from that in the plan. The settlement from the city's standpoint was satisfactory." Mr. Powell added that Mr. Farquhar was mistaken in his estimate as to the nature of the deduction.

To Celebrate Niagara Power. Arrangements have been made for a conference at the city hall this afternoon between the city engineer, Mr. Farquhar, local members of the parliament and legislature and the hydro-electric commission respecting the form which the city's share of the power should take. Mr. Farquhar will take P. W. Sothman, engineer of the commission, declares that the power will be a celebration of the city's power.

There may be a demonstration of municipal street lighting to-night; then again, there may not, but it will take place in the city hall. The city engineer, Mr. Farquhar, will be in the city hall to-night, 19 of the iron pillars, each of which is to support a cluster of five lights, will be in position on both sides of King-st. between Yonge and York. It is hoped to have these lights simultaneously with the Jarvis-st. and the King-st. section with power supplied by the Monarch Supply Company, and the other with Electric Light Company current.

The annual service of the convocation of Trinity College will be held in the college chapel to-night at 8 o'clock. The preacher will be the Rev. Prof. Boyle, D.D., who has lately joined the staff in divinity, after being rector successively in Wingham and Christ Church, Chatham. The annual business meeting of convocation will be held on Wednesday afternoon at two o'clock in the college library, and the annual meeting of the corporation of the college will be held in the same place on Thursday morning and afternoon.

Dufferin Street Property Sold. A four-acre tract of property on Dufferin-street near St. Clair-avenue was sold yesterday. It was generally known as the McLean estate, the homestead having been in the possession of the family for thirty years. The purchaser is W. H. Maton, and the price was \$13,000. The deal was put thru by Real Estate Wakefield. The property will be divided into building lots.

Island Committee. The island committee yesterday agreed to meet over to the use of the Lakeside Home for Sick Children property adjoining it on the north, at a nominal rental of \$1 a year. The land consists of 123 acres, has a frontage of 100 feet on Lakeside-avenue and is to be used for the purpose of building a playground for the children of the city.

The city solicitor reported that there had been no illegality about the course followed in renting certain privileges at Centre Island, without tenders. Edward Britnell writes the property of the city, suggesting that the city adopt the principle of more roads in the interests of horses. He says the sprinkling of oil makes asphalt roads slippery, while not affecting macadam, and that the average value of horses has increased from \$50 to 75 per cent. in five years, they deserve consideration.

After Gas Company. Controller Church announced that he will bring in a motion calling upon the Ontario Municipal and Railway Board to regulate the Consumers Gas Co. He complains that the meters and the gas is poor.

The park commissioner will recommend that \$1000 be provided for the work of gathering and destroying the eggs of tussock moths on private properties. The money will keep the work going until the end of the year.

It is understood that a deputation of doctors will appear before the board of control to oppose the request for another \$50,000 grant to the Western Hos-
