STILL DEMONSTRATE
OWING TO DELAYWar Office Precincts Invaded by
Soldiers in Lorries and
on Foot.

REMINDED WAR IS ON

Press is Sympathetic, But Warns
Men That They Are Not
Acting Advisedly.

London, Jan. 8.—Soldiers objecting to delay in the demobilization of the British army engaged in further demonstrations today. The vicinity of the war office was invaded by lorries filled with men and by marching soldiers.

On the sides of the lorries were signs reading "Get a Move On," "Give Us Our Tickets," "Get on With It, Lloyd George" and other similar sentiments. The men were generally well behaved and treated the matter humorously, although they refused to disperse until a deputaion was seen by officials, who assured them that Viscount Milner, secretary for war, and Gen. Sir William Robertson were then in conference on the grievances advanced by the soldiers.

The press is generally displaying full sympathy with the troops, but does not hesitate to tell them that they are acting inadvisably in taking the present course, which is not open to their comrades overseas, who are equally entitled to demobilization.

Premier Lloyd George returned to London from Wales today, and is expected to bring about the completion of some of the complicated formalities which have hindered the rapid demobilization of those men who have been spared before the treaty of peace is signed.

INFLATION CHARGES
AT PAPER ENQUIRYPublishers Seeking Reduction
of \$19 for Newsprint
in Rolls.

Ottawa, Jan. 8.—The first day's session of the adjourned sittings of the paper control tribunal was remarkable chiefly for charges of cost inflation made against the paper manufacturers by W. N. Tilley, counsel for the publishers, who ask the tribunal to reduce the cost of newsprint in rolls from \$59 to \$50. George H. Montgomerie and G. F. Henderson, chief counsel for the mills, did not reveal the plan of campaign whereby they hope to have the price boosted to \$80 per ton, which is \$5 more than the price fixed in the United States, but they made it evident that they are going to try to get the court to rule that much of the evidence on which the publishers' case is founded, as it was not given in the witness box at the last session of the tribunal, but handed to the parties later as a supplement to the evidence given by Government Auditor Clark and his assistant, William Taylor, Justice Middleton stated that so far as he is concerned, he purposes to rely upon all the available facts. Mr. Tilley charged that at one time the mills had "boosted" their costs as much as \$17.24 per ton by a system of intermediary profits.

Mr. Tilley charged that the mills had further "boosted" costs by the following methods: some of which have been eliminated, and some have not. By averaging cost of sheet and roll newsprint, the there is actually a twelve dollar a ton difference. ALLOW FREIGHT CARS
TO CROSS LINE TO U. S.

Montreal, Jan. 8.—Of great interest to Canadian exporters to the United States is the announcement that Canadian freight cars after being kept carefully in Canada's own "yard" for fourteen months by the Canadian railway war board, will once more be allowed away from home across the boundary into the United States. The loss of Canadian freight cars in the American car "pool" was estimated to over 20,000 late in the fall of 1917. The Canadian railway war board was able to recover many of them, but found fresh losses occurring constantly. The emptied American cars were very readily absorbed into the American "pool," where their superior condition made them popular, especially for the carrying of grain as grain requires "light" cars. An order has been issued by the Canadian railway war board requiring Canadian exporters to the United States to use American cars. In spite of protests the order was kept in force until today. Canada is meantime easing her own car situation very considerably.

"Arrangements have been made," said the general secretary of the railway war board, W. M. Neal, "with the United States railroad administration, whereby our cars instead of being 'turned promptly' that means our requirements for Canada exactly."

Article No. 1
Cut out for
Reference.

THIS Announcement is made by the Dominion Government—made now because it feels that every Canadian wants to know, and is entitled to know, just what plans it has made to meet the problems that face the country. Only now has it been possible to finish the many plans and policies necessitated.

From day to day the Government will use this space to explain what it is doing to bring back our soldiers, to ensure the comfort of their dependents, to keep the whole nation busy and prosperous.

The problem is to take back our soldiers and war-workers into our social and business life under proper working and living conditions. It has four phases:—

1. To bring the soldiers home.
2. To fit those who have suffered overseas for useful employment.
3. To have ready for every soldier and war worker an opportunity for employment.
4. To assure for them proper living and working conditions.

The plans of the Government are such as will help solve these problems. What those plans are will be reported to you in this series of announcements.

POST-WAR FINANCE
OF GREAT BRITAINIdea is Suggested of Wiping
Out Loans to Russia,
France and Italy.

By Mail From J. F. B. Livesay, the
Overseas Correspondent of the
Canadian Press, (Limited).

London, Dec. 15.—The Observer, which is well informed on financial subjects, publishes today a significant article on post-war international finance, which has been written by Canadians. After referring to the "recoverable assets" Britain has to command, the writer goes on to say: "Behind the problems of the sum that will ultimately be produced in repayments of our loan to allies and dominions and of the amount we shall get out of Germany against our bill for damages. All these uncertainties affect not only the question of how much the government will have to raise every year in taxation, but also the larger problem of our position in international finance and of our power to maintain our prestige and to control the exchange."

How We Stand.

Discussing the question of "How we stand now," the writer says: "We are on paper still very much a creditor country. The chancellor boasted, with very just pride, in his budget speech last April, that all we had borrowed abroad during the war had been repaid in order to re-lend to allies, so that with regard to our own war cost we had been self-sufficing. The figures officially published, insofar as they can be understood, more than bear out this statement."

The article suggests that Great Britain should entirely wipe out her loans to her allies—Russia, France, Italy, Belgium, Serbia and others, "making a present to our late brothers in arms, much harder hit than we are, of their promises to pay."

"We do not seem to have weakened our international position to the extent of much more than 2000 millions, by borrowing abroad and sales of securities," says the article. "And 2000 millions is only half the sum that was usually accepted before the war as amount of our overseas investments. So that we are still nearly half as much a creditor country as before the war, even after wiping out our loans to allies. Relatively, of course, the weakening is greater, because America and many neutrals have increased their wealth very rapidly during the war, while we have been losing; but there seems to be no reason for the view that we are no longer a creditor country, especially as we have a considerable foreign account in our claim on Germany."

MORE STEEL WORK.

Brantford, Ont., Jan. 8.—The Steel Company of Canada, which discontinued steel work some time ago, is going on with the regular peace time production, and the additions built before the war will be utilized.

QUIET FUNERAL
OF COL. ROOSEVELTFinal Service Was Attended
by Family, Senators and a
Few Friends.

Oyster Bay, Jan. 8.—The body of Theodore Roosevelt was laid at rest today. It was committed to earth at 1.43 p.m. in a family cemetery plot overlooking Long Island Sound. The final service was witnessed by members of the family and a few friends, the congressional delegation and a group of 200 neighbors, among them many of the senators who had been assembled at the grave while the church service was in progress.

As the outdoor congregation recited the Lord's Prayer it was noted that Capt. Archibald Roosevelt stood directly behind the clergyman, while to the left and quite alone was former President Taft, the colonel's life-long friend. Other members of the family stood a few paces back from Capt. Roosevelt, while the congressmen and people of Oyster Bay were assembled directly behind a delegation of Rough Riders in the front of the grave.

The body of the former president rested with his head toward the west, where the sun, dropping toward the horizon, brooded in striking silhouette the white-robed figure of the priest reciting the time-honored funeral service of the Episcopal Church.

Only the Rough Riders' floral tribute relieved the plainness of the casket as it was lowered to its final resting place. The battle flags were taken back to the trophy room at Sagamore Hill, where the colonel's family will prize them as he had since their presentation as mementoes of his part in the Spanish-American war.

NEW YORK HONORS MEMORY.

New York, Jan. 8.—All traffic was suspended for one minute in this city, the church bells tolled and the various exchanges were closed for the afternoon in consequence of the death of former President Roosevelt.

ALBERTA TAKES STAND
AGAINST FEDERAL LOAN

Edmonton, Alta., Jan. 8.—Alberta will continue to finance itself without calling upon the federal government for a grant, according to Premier Stewart. It is believed that this province will be able to find the money on general resources. The premier declared himself opposed to general principles to the province's finances becoming implicated in any way with those of the Dominion, and altho Alberta is entitled to a loan of \$1,000,000 from the federal treasury at any time it wants it, the chances are that there will be no such borrowing this year.
