TWENTIETH YEAR

THE LARGE EARNERS

Most of the Speakers at Chicago Yesterday Were Opposed to Trusts.

A SERIES OF RESOLUTIONS

Which Strongly Denounced the Formation of Trusts Before the Convention.

W. J. BRYAN AND BOURKE COCKRAN

Were Expected to Have a Set-to, But the Nebraska Declined to Be Drawn Into It.

HE WAS RUNNING SIDE LINES

Besides Teaching the Young Irish, So It is Alleged, and He Has Been Arrested.

Chicago, Ill., Sept. 15.—Workingmen, so-called advocates of the single tax theory, and students of political economy were heard to-day at the Civil Federation Convention on Trusts and Combinations.

A majority of the speakers vigorously opposed industrial, financial and transportation combinations. The problem in its relation to the workman was discussed in all its phases.

The Committee on Resolutions held its first meeting at 10 o'clock, and elected Governor Lewis of Michigan chairman and Ralph M. Oakley secretary.

It was decided to name a sub-committee of five to receive and consider resolutions that might be presented, and report to a general committee.

The morning session drew a large audience, but the program was overshadowed by the announcement that in the evening William J. Bryan of Nebraska, and Bourke Cockran of New York, would speak from the same platform on the political prominence of the two orators.

A general feeling that the night session would be of more political than economic interest.

Single Taxer and Socialist.

Louis F. Post, the New York advocate of single tax, was the first speaker to-day. He addressed the convention on the "Trusts from the Standpoint of the View."

Henry White, secretary of the United Labor Party, secretary of the Knights of Labor, spoke on "Trusts as an aggressive and purely selfish organization."

Mr. Gompers Heard.

Samuel Gompers, president of the American Federation of Labor, followed Henry White. He denied that organized labor is a trust, but he admitted that it is a trust in the eyes of the public.

"I believe in the right of the organized labor to a more comprehensive view of the situation and to make better friends of the public," he said.

"In the midst of greater concentration of wealth and the vast development of industry, it behooves the workers to more ceaselessly than ever devote their efforts to organized labor, and to contract the effort which otherwise is directed to the unproductive condition would have upon it."

"Organized and alert, the workers cannot fail to lighten toil and shorten hours and lengthen life by constant and persistent effort, and make the world better for our children."

"Mr. Gompers was loudly applauded. His reference then took a recess until 7 o'clock."

The resolutions followed: "Whereas trusts have been formed for the purpose of gratifying the greed of their promoters at the expense of the public; they destroy competition, nullify the operation of the laws of supply and demand, deprive the people of the country of an opportunity to all combinations in restraint of trade, invention and improvement, and hold in check the progress and the welfare of the people."

"Resolved, first that we are unalterably opposed to the trusts and monopolies as in derogation of the common Government Ownership Demanded."

"Second, that we demand of the several states and Congress that they take such action as will lead to the public ownership of all public utilities, and so demand of the Federal and State legislatures such legislation as will effectively control the railways and prevent extortion and discrimination."

"Third, that we demand of Congress and the legislatures of the several States that they take whatever action is required to destroy monopoly."

"Fourth, that in our judgment no candidate for public office is entitled to the suffrages of his fellow citizens who does not earnestly declare his hostility to all combinations in restraint of trade, or the further granting of any special privileges, and openly avow his purpose to favor such legislation as will suppress them."

"Fifth, that it is the duty of the people, by organized effort, to secure the nomination by the political parties of the opponents of the trusts and monopolies, who have the integrity, courage and ability to control the rights of the people against impending industrial slavery."

"Sixth, that the growth of private industrial corporations, and the concentration of the several States, and the persons given to such artificial persons by such laws, is a national disaster, and that we demand of the Federal and State legislatures such legislation as will effectively control the railways and prevent extortion and discrimination."

"Seventh, that we demand of the several States and Congress that they take such action as will lead to the public ownership of all public utilities, and so demand of the Federal and State legislatures such legislation as will effectively control the railways and prevent extortion and discrimination."

"Eighth, that we demand of the several States and Congress that they take such action as will lead to the public ownership of all public utilities, and so demand of the Federal and State legislatures such legislation as will effectively control the railways and prevent extortion and discrimination."

"Ninth, that we demand of the several States and Congress that they take such action as will lead to the public ownership of all public utilities, and so demand of the Federal and State legislatures such legislation as will effectively control the railways and prevent extortion and discrimination."

"Tenth, that we demand of the several States and Congress that they take such action as will lead to the public ownership of all public utilities, and so demand of the Federal and State legislatures such legislation as will effectively control the railways and prevent extortion and discrimination."

"Eleventh, that we demand of the several States and Congress that they take such action as will lead to the public ownership of all public utilities, and so demand of the Federal and State legislatures such legislation as will effectively control the railways and prevent extortion and discrimination."

"Twelfth, that we demand of the several States and Congress that they take such action as will lead to the public ownership of all public utilities, and so demand of the Federal and State legislatures such legislation as will effectively control the railways and prevent extortion and discrimination."

"Thirteenth, that we demand of the several States and Congress that they take such action as will lead to the public ownership of all public utilities, and so demand of the Federal and State legislatures such legislation as will effectively control the railways and prevent extortion and discrimination."

"Fourteenth, that we demand of the several States and Congress that they take such action as will lead to the public ownership of all public utilities, and so demand of the Federal and State legislatures such legislation as will effectively control the railways and prevent extortion and discrimination."

"Fifteenth, that we demand of the several States and Congress that they take such action as will lead to the public ownership of all public utilities, and so demand of the Federal and State legislatures such legislation as will effectively control the railways and prevent extortion and discrimination."

LET THE PEOPLE JUDGE.

After the disgraceful revelations that were made of corruption and of election frauds in West Elgin, North Waterloo and South Ontario, there is only one honest thing to do, and that is make an appeal to the people.

Still more is it apparent that this appeal should be made in view of the statement of Mr. Hardy that he was ignorant of the petition of the people of West Elgin, asking for the enforcement of the law against the election thieves, until he read it in The World of the day before.

The general administration of the Province is in this admission in a disorganized condition; the ministry of the day are demoralized; public confidence in them is utterly shaken, and there is only one way of cleaning up the mess, and that is an appeal to the people.

If Mr. Hardy's health is not good we regret the fact, and he is entitled to pass into some kind of retirement. Worse men than he have gone on the bench, but the sore should not be allowed to fester any longer.

Ontario stands to-day disgraced before all her sister provinces, and in view of these facts Mr. Hardy should either resign and make way for a successor who will appeal to the people, or, failing that, then he ought to act on his own responsibility and make a straight appeal to the electorate.

To try and snatch one victory here and another there, in the two or three bye-elections that are yet to be held, is only to delay the issue and to make the existing stench still more noxious.

To fight the bye-elections, to call a session of Parliament, can only delay and at the same time aggravate the situation. There is, therefore, only one clean, straight, up-and-away way out of the difficulty, a way that will clear the air and restore public confidence, and that is to let the people judge.

A general electoral fight in the open must take place.

The World further regrets that Sir Oliver Mowat, the Lieutenant-Governor of this Province, is in feeble health and hardly up to the responsibilities that devolve upon him.

If that is the case, Sir Wilfrid Laurier ought to know what to do under the circumstances. But the responsibility rests on the Liberal party under all the circumstances to make an immediate appeal to the people of the Province, and surely men who believe in popular government and the rights of the people ought to have no hesitation in taking the one course that will disinfect the situation. This is clean, and quick, and sweet to anything else that might be.
