WOMAN'S HEROIC SACRIFICES

Labored at Man's Work in Dawson City to Maintain Home in Ontario.

MIND WRECKED UNDER THE STRAIN

Brought to Toronto in Hope That Medical Attention May Restore Shattered Constitution.

A woman's lot in Dawson City is not cast in pleasant places. The tale unfolded to the world by J. A. McDonald is one of suffering and hardship. Mrs. McDonald reached Toronto, after a long journey, in a state of mind wrecked under the strain of her life.

One woman's Pluck. Mrs. McDonald went up to the Yukon two years ago. Her husband was a confined invalid, completely paralyzed, and unable to support her and the young family. The plucky woman decided to try her fortune in the north. She lived in a little cabin all by herself. Her brother went to a neighboring camp, where he worked for eighteen months that woman working by herself.

Broke Down at Last. The days went by. The woman grew more and more frail. The little cabin was the scene of many a night of brooding and grief. Still she stuck to it. Then one day the cord snapped. Her brother came in from the adjoining camp and found her a raving lunatic, screaming and trying to bring her back to her senses.

Called Strike Off.

The Federated Trades Union Won't Obey Workmen's Committee.

Amsterdam, April 10.—The Workmen's Defence Committee decided this morning to proclaim a cessation of the general strike at midday. The strike never was really effective.

At a monster mass meeting, however, held later in the day, the federated union repudiated the action of the Workmen's Defence Committee and decided to continue the strike without the consent of the committee. With the exception of the diamond cutters, all the men will remain out.

Cures Drunkards Secretly

SLAUGHTERING OF INNOCENTS

To Make an Easter Holiday Gift—some of Season's Novelties.

A new fad has taken hold of Toronto. The Easter egg is not in this year. The chocolate-covered oval, with its interior decorated with various designs, is a back as regards public favor. The new fad has ousted the egg.

Other Novelties. Then again there are the imitation hares, the little rabbits and the domestic fads. These are made of sugar, and have most interesting and varied designs. The rabbit, in particular, is a feature this year. It has a long tail and a long ear, and is very realistic in appearance. These latter have to be blown up before they will consent to display their locomotive capacity.

Public Meeting Called by the Mayor at the request of some members of the Anti-Vaccination League, and in the presence of a large audience, was held in St. Andrew's Hall on Thursday night.

A resolution was passed, moved by R. Carwell, seconded by J. S. Weir, Rev. J. C. McQuig and J. D. Nasimith, against vaccination. The resolution is as follows:

Resolved, That the entire repeal of the Vaccination Act, the disestablishment and disendowment of the state of the practice of vaccination, the abolition of all regulations regarding vaccination as a condition of admission to educational institutions or employment in state departments would be in the interests of justice and the health of the community, and that a copy of this resolution be sent to each of the M.L.A.s and also to J. W. Stewart, M.P., and Hon. E. J. Davis, asking their consideration and support, when the petition is presented to the House.

R. Carwell believed he could not do a worse thing for his child than to have it vaccinated. It was a barbarous and a wicked practice.

PROSPECTUS.

This Corporation has been formed for the purpose of dealing in lands in Manitoba and the Northwest Territories of Canada.

Up to a few months ago practically the whole profit from dealing in the lands in the great western portion of our country had been reaped by shrewd American investors, who realized the immense possibilities and the certain future of Western Canada. Before we Canadians realized the immense heritage which lay within the boundaries of our own country. In the last few months of the year 1902, however, the promoters of this Corporation, having thought the different financial institutions with which they are connected, been obliged to make a careful study of the western situation, became so thoroughly satisfied of the certain future of the Great West, and of the practically assured profit from an investment in western lands, that they decided to form a company to deal in land in the Canadian West. With that end in view, a block of something over 120,000 acres was secured in the Big Quill Plains, in the District of Saskatchewan, and a company known as the Eastern and Western Land Corporation, Limited, was formed for the purpose of acquiring and handling this block. The stock of the Eastern and Western Land Corporation, Limited, was placed upon the market, and offered to the public for subscription in January of the present year, and so prompt was the response that within one month it was necessary to close the stock books, and even then applications for a large quantity of stock were refused. But, from a shareholder's standpoint, the best part remains to be told. Before the sales of stock were stopped arrangements had been made with a large American land company for the sale of the whole of the Company's lands, at a price so largely in excess of the purchase price, that the stock of the Eastern and Western Land Corporation, Limited, is already a very profitable one, and is held very firmly by its present holders—and all this was done in less than one month. Can any better proof be given of the wisdom of an investment in western lands?

At the time the Eastern and Western Land Corporation, Limited, were dealing with the Quill Plains lands, the Directors had in view several other available blocks of land, and were having the same carefully examined, but waited until the result of the one operation proved to the Canadian public the safety and profit of this venture. This new land has been abundantly shown by the success of the Eastern and Western Land Corporation, Limited, and we have, therefore, no hesitation in placing before the public the stock of the Ontario and Saskatchewan Land Corporation, Limited.

It is only in the last few years that the Canadian public has realized that the Eastern and Western Land Corporation, Limited, and we have, therefore, no hesitation in placing before the public the stock of the Ontario and Saskatchewan Land Corporation, Limited.
