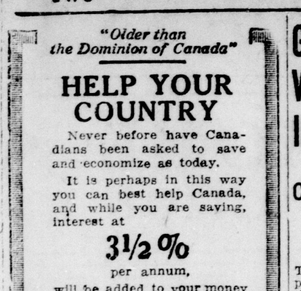
CHILD GETS SICK, CROSS, FEVERISH IF CONSTIPATED

Look at tongue! Then give fruit laxative for stomach, liver, bowels.

"California Syrup of Figs" can't harm children and they love it.



Mother! Your child isn't naturally cross and peevish. See if tongue is coated; this is a sure sign the little stomach, liver and bowels needs a cleansing at once.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomach-ache, diarrhoea, remember, a gentle liver and bowel cleansing should always be the first treatment given.

Nothing equals "California Syrup of Figs" for children's ills; give a teaspoonful, and in a few hours all the foul waste, sour bile and fermenting food which is clogged in the bowels passes out of the system, and you have a well and playful child again. All children love this harmless, delicious "fruit laxative," and it never fails to effect a good "inside" cleansing. Directions for babies, children of all ages and grown-ups are plainly on the bottle.

Keep it handy in your home. A little given today saves a sick child tomorrow, but get the genuine. Ask your druggist for a bottle of "California Syrup of Figs," then see that it is made by the "California Fig Syrup Company."

Grandma Used Sage Tea to Darken Hair

She mixed Sulphur with it to Restore Color, Gloss, Youthfulness.

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this oldtime recipe, improved by the addition of other ingredients, all ready to use, at very little cost. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the grey hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and beautiful. This preparation is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

GREAT WAR VETERANS WANT CITIZENS' HELP IN FINANCING A HOME

Canvass Will Be Made Shortly In City.

At the G. W. V. A. regular meeting Tuesday evening a committee was appointed to canvass the businessmen of the city to see what can be accomplished towards securing suitable quarters for the association.

Some time ago a committee was appointed to meet a committee of the council with a view to getting aid in securing suitable quarters.

President Lieut.-Col. W. G. Coles reported that several meetings had been held, but nothing definite settled. The committee of the council is holding a meeting this afternoon to consider the G. W. V. A. proposition.

Signaller W. E. Capewell advised that a suitable building should be secured, where beds and meals could be provided for returned men. He suggested a hotel at present vacant.

The proposition, as outlined, is that the general public would be willing to help finance the project. Some of the members thought that it would be wise to see what the city council would do before any move should be made.

Driver Wick of Guelph stated that Guelph City Council had granted $2,500 towards a clubroom for its association. The feeling of the meeting was freely expressed that in view of what other cities are doing, London ought to do something.

Name Committee.

President Coles declared that it would be well to lay the question over until another meeting. This did not meet with the approval of the members, and on motion Capt. J. H. Warburton and Signaller W. E. Capewell were appointed to canvass the city. The committee will report at the next regular meeting.

The case of a returned soldier who had been dismissed from the assessment department was brought up. The statement was made by one member that he was working with men who had no use for the returned soldier. The civilians in question, it was stated, did not at all conceal their antipathy.

Secretary J. W. Cunliffe was instructed to write Assessment Commissioner Stephen Grant in reference to the case.

Major Osborne reported that Comrade A. E. Pinnell had been presented with his membership button. Comrade Pinnell was delighted, and the major intimated that as Pinnell has been an invalid since the South African war, the G. W. V. A. members should make an effort to visit him often.

The question of amusement brought forth some discussion. Some expressed the opinion that the meetings were too uninteresting for the members to attend. It was suggested that a few games should be arranged after every meeting. This, it was thought, might induce a larger attendance.

Others suggested holding a smoker.

Serious Problems.

President Coles impressed the meeting that the G. W. V. A. had a serious problem before it. Amusement was all right, but it should not be the main object. Reference was made to the work of the association for soldiers' families during the past winter. The president did not want to see all amusement abandoned, but he cautioned the men not to attach too much importance to pleasure.

Comrades Billington, Muxworthy and Turner were appointed a committee to provide entertainment.

The secretary reported that he had received some leaflets giving information on New Ontario. The members present were not enthusiastic about taking up farming in the north.

The opinion was expressed that if the Government wished to do something it could secure lots of land in Western Ontario for the soldiers. Twenty acres of land in this section, well cultivated, would be of more value than 200 acres in Northern Ontario. The men would be glad to take up farming here, and food could be produced this year. If the Government had taken hold of the proposition. It was decided to leave this question over to the next meeting for further discussion.

A resolution was passed in confirmation of a resolution passed by the Brandon association. This resolution urges the Government to place returned soldiers in permanent positions wherever possible in the different departments requiring men.

The request that some action be taken in regard to asking for stronger temperance beer was defeated.

A report was received from Mrs. Henderson that the proposed concert would have to be postponed for some time.

It was decided to hold a smoker after the next regular meeting.

RECOUNT ON THURSDAY

West Middlesex Ballot Review Halted by Non-Arrival of Boxes.

The recount of the ballots cast in the last West Middlesex election will be held on Thursday next in Judge Macbeth's chambers at the court house. The failure of the ballots to arrive from the deputy returning officer at Ottawa prevented the recount being proceeded with Tuesday as scheduled. The recount will commence at 10:30 o'clock Thursday morning.

TELL YOUR WIFE CORNS LIFT OFF

Doesn't hurt a bit to lift corns or calluses off with fingers

Not a twinge of pain or soreness before applying, or afterwards. This may sound like a dream to corn-pestered men and women who have been cutting, filing and wearing torturous plasters. Yes! Corns lift out and calluses peel off as if by magic, says this Cincinnati authority.

A quarter ounce of freezone costs but a few cents at any drug store. Apply a few drops directly upon your tender corn or callus, and instantly the soreness disappears; then shortly the corn or callus will be so loose that it lifts off.

Freezone dries instantly. It doesn't eat out the corn or callus, but just shrivels it up so it lifts away without even irritating the surrounding skin. Women should keep it on the dresser and never let a corn or calous ache twice.

J. MELVIN BUSH.

Violin soloist and teacher, formerly of Von Ende School, New York, now member of the London Conservatory Faculty.

PREDICTS BIG BUSINESS

Trade Journal Points to $50,000,000 U. S. Orders Placed in Canada.

In its summary of the iron, steel, metal and machinery markets for week ending March 12, Canadian Machinery and Manufacturing News, Toronto, makes the following observations:

If the development in the engineering industry during the past few months is any indication of what may be expected in the future, Canadian concerns will benefit considerably by the influx of orders from the United States. It is estimated that orders to the value of $50,000,000 have been placed in Canada by the United States during the past five months for munitions, marine engines and other war equipment. There is apparently no reason to doubt that this business will increase as the necessities of the situation arise. This business in addition to the contracts placed by the imperial munitions board will in the aggregate represent a very large sum of money and add to the wealth of the country.

Conditions in the iron and steel industry have improved on account of the more seasonable weather enabling supplies of fuel to be shipped in heavier volume to consumers. This will be reflected in an increase in production which will soon be normal.

Capacity output is assured for the steel plants for the remainder of this year.

UP AGAIN MONDAY

Farm Labor Conscription Question Before Rotarians Again Next Week.

No action has been taken in regard the suggestions made by W. W. Gammage recently before the Rotary Club in regard the conscription of labor to assist farmers in handling their crops this year.

On Monday next the question will again be brought before the club. It will be presented by Robert Greene of Greene-Swift, Limited, and will be in the shape of twenty questions dealing with the situation. These will be circulated among the members, and they will be asked to submit answers. It is hoped that from these answers a resolution may be adopted which will stir the people up to a realization of just what the situation is.

"It is getting late to do anything," declared Mr. Gammage today.

35 ACRES OFFERED

Vacant Lots Gardening Committee Has Already Much Land Available.

Ald. S. R. Manness, chairman of the vacant lot committee, says he has between 50 and 60 applications for vacant lots for gardening purposes already in. They have been coming in fast and in a short time, he anticipates, there will be a rush. So far there have been between 30 and 35 acres of land offered, but the committee will require a great deal more. It hopes that vacant land owners, who are not going to use their soil, will come forward immediately with offers. P. E. Leonard on Tuesday notified the chairman that he had 15 acres of land in the east end which would be available for vacant lot gardeners.

Ald. Manness says the committee hopes to be able to award the plots to the different gardeners by the end of the month.

TO FIX WEIGHT

Important Fuel Measure Now Before Legislature.

Complaints of short weight in coal and short measure in wood used as fuel will be eliminated if the Legislature passes the Ottawa City Bill, given its second reading last night. One clause gives municipalities authority to compel all coal dealers to have all loads of coal weighed by the municipal officials and all wood vendors must have their loads measured.

The wood proposal was that a cord of wood should contain at least 128 cubic feet of wood. In the event of the legislation passing, persons selling wood for fuel must show the purchaser the municipal weigh scales officer's certificate showing how much wood the load contains.

IN EFFECT FRIDAY

New War Bread Regulations Go Into Force March 15.

On Friday, the Canada Food Board regulations governing bakers and making it imperative that they bake only war bread comes into force. The original date set was March 1, but an extension was granted to allow the bakers to use up their stocks of white flour.

The regulations also effect hotels and restaurants cooking for their own patrons.

In all cases the war flour must be used and at the same time the amount of other ingredients, such as cane and beet sugar, malt extract or malt flour, fats and milk, used with each barrel of flour, are limited. All bread rolls must be in units of one or two ounces, and rolls from wheat flour of any other than the standard war flour can only be made on securing written permission. By the order bakers are prohibited from wrapping bread. In Ontario all loaves must be 12 or 24 ounces.

TECHNICAL POINT

"Invasion" Clause in Insurance Policy Brought Up in Toronto Case.

Are Canadians in Flanders fighting to defend Canada from foreign invasion? Upon this point of law rests the decision in an important case in which Mrs. M. F. Skimin, 630 Parliament street, is suing the London Life for insurance on her son, who was killed while serving with a Toronto unit. The amount of the claim is $444. Judge Denton, before whom the case was heard in the county court at Toronto yesterday, reserved judgment.

Garnet R. Skimin took out the policy in January, 1916, and enlisted the following March. The company claims that the assured failed to observe the clause of the policy by which he was required to obtain the consent of the company before engaging in any military or naval service in time of war, except in defence of Canada against foreign invasion.

"Unless we beat the Germans, they are liable to come over here. In fighting the Germans we are fighting to defend Canada from foreign invasion," suggested his honor.

'WHO WILL WIN THIS BATTLE?"

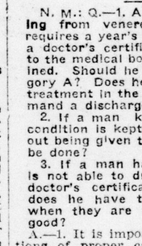
Your kidneys are the filters of the body. If they become inactive and fail to eliminate the waste matter, they are apt to throw the whole mechanism of the body out of order, thus toxic poisons can accumulate in the system and be as deadly as snake venom.

Besides causing the minor ailments of rheumatism, sciatica, lumbago and backache, neglect of the kidneys is apt to develop into more serious diseases, such as diabetes or stone in the bladder.

Rid the body of toxic poisons—clean the bladder and kidneys and cure the twinges of rheumatism with Anuric and you win the battle of life.

Anuric was first discovered by Dr. Pierce, and has benefited thousands of sufferers as well as appeased and eliminated the ravages of the more serious kidney diseases. Now procurable at any good drug store, or send Dr. V. M. Pierce, Invalids' Hotel, Buffalo, N. Y., or branch office, Bridgeburg, Ont., 10 cents for trial package.

Thorold, Ont.—"I was wonderfully helped by taking 'Anuric.' For about three years I had kidney trouble and rheumatism. I also had backache. My limbs would swell and I had rheumatism in my arms and hands. My hands would swell and joints would be so sore and stiff I could scarcely do my work. They would pain me something awful. I doctored but without relief. At last I saw 'Anuric' advertised. I began its use and two bottles completely cured me of all my rheumatism, and I think it was permanent, for that was a year ago, and I have never had any return of this ailment. I have never found a medicine so good as 'Anuric.'"—Mrs. R. H. Hutty.



QUERIES REGARDING MILITARY SERVICE

Send In Your Problems and They Will Be Answered From Official Information by The Advertiser.

H. P.: Q.—If a man in Class A-2 signs up before he hears from Ottawa regarding his appeal case, can he in the event of his exemption being granted, get leave of absence for the stated time of his exemption?

A.—Since he enlisted voluntarily he must abide by his action in this regard. He can, however, apply for permission to lay his claims for exemption before the leave of absence board, mentioning the fact that he was granted exemption by the appeal judge.

IRELAND: Q.—Is there such an organization as the "border patrol" on duty between Canada and the United States, and if so to whom would I write regarding joining it?

A.—There is no information available on the matter here.

J. E. K.: Q.—A man placed in Category A-2 by the first medical board is in uniform now, and has been placed in Category C by a later board. Can he apply for leave of absence without pay until Class C is called? If so, to whom should he apply?

A.—Yes; he may ask the officer commanding his unit for permission to apply to the leave of absence board for leave.

N. M.: Q.—1. A man who is suffering from venereal disease, which requires a year's treatment, presents a doctor's certificate to that effect to the medical board on being examined. Should he be passed in Category A? Does he have to submit to treatment in the army? Can he demand a discharge?

2. If a man known to be in that condition is kept in the army without being given treatment, what can be done?

3. If a man has rheumatism and is not able to drill, and presents a doctor's certificate to that effect, does he have to take treatment when they are not doing him any good?

A.—1. It is impossible to decide questions of proper category or others of a medical nature here. He would have to submit to treatment for such diseases as well as any other disease. He cannot demand a discharge unless after treatment for a reasonable time he is found to be incurable.

2. If he is not receiving treatment when he should he has the right to make a complaint, and he will then receive it. With the numerous medical inspections given in the army it would be impossible for him to escape treatment, and if he deceived the medical officers to escape treatment he would be liable to a severe punishment.

3. If he is not able to drill he can report sick, and he will then receive treatment. He is obliged to take treatment if he reports sick.

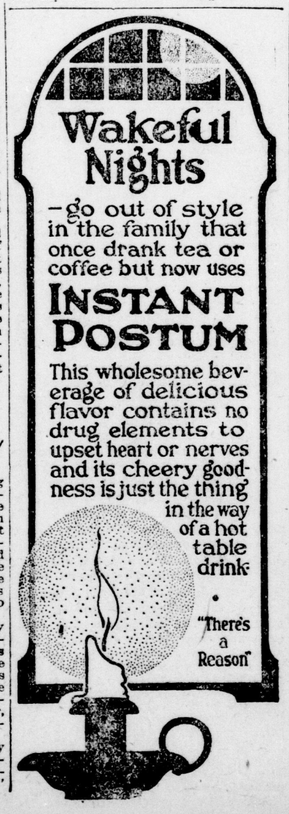
SIXTEEN ACCEPTED

Tuesday's Recruiting at Local Mobilization Centre Picks Up.

Twenty-two volunteers were examined at the local mobilization centre on Tuesday. Six were rejected as medically unfit.

Two men were apprehended under the M. S. A. The following is a list of the accepted recruits:

A. L. Evans, C. E., Detroit; William Swalles, Railway Construction, Detroit; A. B. Harding, C. E., Detroit; E. J. Rushlaw, W. O. R., Detroit; Wm. M. Jones, 63rd Battery, Detroit; E. W. Chapman, Railway Construction, Detroit; A. M. Foster, 63rd Battery, Detroit; W. L. Wise, W. O. R., Detroit; W. B. Barker, C. E., Detroit; H. J. Orsetti, W. O. R., Windsor; C. H. Nairn, C. E., Detroit; F. Cripps, C. E., Cleveland; P. Horion, W. O. R., Cleveland; F. C. Barber, 63rd Battery, London; A. F. Bennett, C. O. C., London; F. C. Kerr, 63rd Battery, London.



NO LARGE WAR ORDERS FROM UNITED STATES

Ottawa, March 13.—The Imperial Munitions Board, when asked today as to the orders for shells from the United States placed in Canadian factories, stated that no large orders had been received recently. Some three months ago orders were received for the machining of 6,500,000 75-millimeter shells, the manufacture of 10,000,000 75-millimeter forgings from steel supplied by the United States and the making of two million cartridge cases. In addition to these orders, another has been received for 425,000 4.7 shells. This comprises the total of the orders received by the Imperial Munitions Board from the United States for Canadian factories.

PERSONAL MENTION

Mrs. Wm. Fleming of Holbrook is spending a few days with her daughter, Mrs. Wm. H. Dennis, at Burgessville.

Lieut. Frank Gray of Listowel has returned to London for medical treatment.

Hartley Spencer of Cayuga is leaving for Caledonia, where he has accepted a position with the G. T. R.

Pte. E. Francis, who enlisted at Windsor, but who has been stationed in Toronto is spending a few days at his home in Shedden, after being ill.

Mrs. Wellington Hay has returned to Listowel, after spending the winter in Florida.

Mrs. Walter Delisle of Lukerville, who recently underwent an operation at the Hotel Dieu in Windsor, is spending a month with her sister, Mrs. Edward Malenfant, at Edgar Mills.

E. J. Wright, of the Standard Bank, Chatham, who has been called to the colors by the ruling of Justice Duff, was presented with a signet ring by the staff prior to his departure.

Cadet Elgin Hay of the Flying Corps is at his home in Listowel on a short leave.

VOICE OF THE PEOPLE

PRACTICAL CO-OPERATION IN GREATER PRODUCTION.

To the Editor of The Advertiser:

With the most hearty co-operation of the superintendent-general of Indian affairs, we have arranged to let our senior boys go out about the middle of April and assist farmers in "greater production campaign." We purpose running the institute farm this year with the assistance of senior girls. We could also spare a few girls to assist farmers' wives.

These boys are well trained, and capable of handling horses, and all kinds of farm machinery. They can remain until midsummer, or even harvest. Wages $25, $30 to $35 per month, according to age.

It will be my duty to see that they render faithful service, and also to see that they get good, kind treatment.

Our object is three-fold:

1. To assist farmers, and through them, our country.

2. To give the boys an opportunity of earning some money for themselves.

3. To demonstrate what girls can do on a farm if properly guided.

Parties needing help, write at once to S. R. McVITTY,

Principal Mount Elgin Indian Industrial Institute, Muncey, Ontario.

HANGS FIRE TILL JUNE

Arbitration of Jail Maintenance Charges Will Not Be Settled Until Then.

The question of arbitrating the cost of maintaining the court house and jail will not be settled until the June session of the county council.

The city has notified the county that it will not agree to pay 75 per cent of the capital cost, and the cost of keeping prisoners on a per diem basis, as the county desires.

The county council will not meet until June, when arbitrators will be selected.

Ex-Ald. J. G. Richter, who is well acquainted with conditions, will probably be chosen by the council.

No Alimony—Just a Separation

Peaceful, quiet separation, no damage done, everybody happy again—that's the situation when you divorce your corns with Putnam's Corn Extractor. Acts like magic—don't use any but "Putnam's"—it's the best, 25c, at all dealers.

SCHOOL BOARD FILES CONTRA ACCOUNT FOR COSTS OF ELECTIONS

Will Pay Its Share, But Charges City for Use of Schoolrooms.

The board of education will pay the council $284 as its share of the municipal elections expenses, as arrived at by City Clerk Sam Baker, but will demand that the board be paid $441 for the use of 63 rooms in the public schools at $7 each for election purposes.

The board made no charge for the schools, when the election was held, and has never been charged for election expenses before. The members claim that if they must pay a share, the city should pay the cost of using the rooms.

The council will be informed of this at once.

Transportation interests are being organized by the Government to handle a greater volume of traffic through Canada's ports this year.
