York County and Suburbs

Campaign All But Concluded— School Sports at Weston -Suburban News.

EAST TORONTO, June 5.—The mass what the iron resources of Pennsylmeeting held in the interest of Alex vanio have made of Pittsburg the iron McCowan in the Y.M.C.A. Hall to-night, large and enthusiastic as it was, proved a fitting climax to a long list ment have assisted will largely con-of splendid public gatherings held at tribute to it. With such prospects for

stock, K.C., on the public questions at the rate of twenty thousand dolof the day, was a masterly effort, and lars a mile, the worst therefore that in point of eloquence and interest has can happen to the government is that

robably never been surpassed in East or or onto.

Mr. Blackstock's treatment of the position leader and his connection or of the position leader and his connection.

Dr. Godfrey was given a rousing rehas in process of time been fumigated and purified, they may in the natural order of things, in the dim and misty future, again receive the confidence of the general public. I do not claim for the present government that they are men of immense genius, said Mr. Blackstock, but they have shown themselves what is infinitely more essential, men of honor.

Referring to the three-fifths clause, Mr. Blackstock said: "This thing of trying to cram our opinions down another man's throat is a very poor thing. Why is it that the law against murder and theft is fairly well en-forced? Because it has the moral

R. O. Harvey dealt trenchantly with the school books and other live questions and made a capital address.
"I have received an invitation from "I have received an invitation from Mr. Curry to attend the latter's meeting in this hall to-morrow night," said they have been slighted, indeed insulted, by the council's action with arrangements and at this late date cannot accept. I'm not afraid tho," After the Autos.

Tonto Junction was incorporated. In short will be made to trace the criminal. Such actis cannot be left unpusibled. Rev. A. P. Brace preaches in the Methodist Church to-morrow morning on "The True Patriotism." Rev. E. H. Toye in the evening on "Our Incannot accept. I'm not afraid tho," said Mr. Harvey, "and I could whip the tar out of the Toronto lawyer." Dr. Walters and James Baird spoke

briefly, predicting a great victory for Mr. McCowan and the Conservative MIMICO.

Big Gathering Listen to Good Speeches and Music.

MIMICO, June 5.—(Special.)—The public meeting called in the interest of Dr. Forbes Godfrey in the assembly hall of the Mimico school to-night was one of the largest and most en-thusiastic ever held in the village, and as an indication of the love and esteem which he is held was most reassuring to the party following:

Price Green was chairman, and in opening the meeting incidentally re-ferred to the C.N.R. guarantee. Mr. Green's remarks were of especial interest and were in brief as follows: We are here to listen to a few words on the live political issues upon which you are going to return Dr. Godfrey and the Whitney government to yow-er; a government which has shown it-tled. The hearing will be continued self courageous and honest, which has carried thru a great deal of good legislation and one, not afraid to step into the breach and do things.

ern, a proceeding which is very common nowadays. The Manitoba Govern In t wa guaranteed the bonds of the Ed-monton lines; the governments of Nova Scotia and New Brunswick have guarthe bonds down there.

We did not hear any criticism from Liberal friends of the course of. the Dominion Government for guaranteeing the Edmonton line or of the guarantee of the Grand Trunk Pacific onds, and as far as the Canadian Northern guarantee is concerned it was regarded as a safe and proper course, the company being a prosper-ous concern that could pay its way and a gilt-edged investment; and you bear in mind that no government has been called upon to pay one dollar of interest upon Canadian

Northern bonds. Mr. Whitney would have been very focish not to have followed the course he did in securing a mortgage on the These terminals together with the branch lines and improvements will probably be equal in value to the main Now the old guarantee made with the Ross government simply covered the main line and as a clever lawyer said, it was like putting mortgage on a house and not including the cellar. Suppose such an arrangement had been made, and the Canadian Northern went into liquidation

where would the government be without security on the terminals?

The bondholders could say, "Hands off, we will sell these terminals to the highest bidder." The government to protect itself would have to go into the open market and buy them. I desire to show the value of this ine to the farmers and merchants of York County. Hutton Mines are situ-

deposit in the world. The company working the mines is composed of men who will operate them for all they are worth and employ a large number of people of a class that live well and spend money. The undertaking will be of great magnitude, their contract with the Canadian Northern being to transport five hundred thousand tons per annum. This will readily illustrate what a number of people will lustrate what a number of people will have to be employed. Now the country up there is of no agricultural value, and these people will have to get there food and vegetables, in fact everything they eat from here, thus you will see the importance of having a direct line from Toronto in order that we can avail ourselves of that market for our produce. The line market for our produce. The line therefore means business for the peo-

AND WEST END therefore means business for the people of York County.

I say again Mr. Whitney was wise to encourage the building of such a line, and any unbiased person will agree he was wise to see that he got proper security for what he did, and he has got good security when you consider that the mortgage covers the terror was that are made from time improvements that are made from time to time and what these improvements will mean when facilities have to be provided for the great development that must take place in that North-ern country. Ontario has perhaps the richest iron deposits in the world, and various points thru East York in the interest of Mr. McCowan.

The address of George T. Black-

with the late Ross administration was at once courteous, but severe. A few excerpts were: When the Liberal party has in process of time been fumigating in process of time been fumigating the severe was accorded a short time. The O'Connor Sisters, six in number, gave a fine musical selection.

WEST TORONTO.

WEST TORONTO, June 5.—That the board of health do not recognize the urday) in Lorne Hall. council's recent dismissal of Enoch Ward as sanitary inspector was very ing of the board to-night. With the evening and will make such arrange exception of the mayor, who was unable to be present, the members were there in full force, and they meant business. The council, it was stated, without consulting the board and force of the community in favor of it." without longing complaint of any kind in closing the eloquent K.C. paid a without longing complaint of any kind without longing complaints. force of the community in favor of it.

In closing the eloquent K.C. paid a set of Mr. Ward's inefficiency, had displaying tribute to the rugged honesty missed him from his position, disremissed him from his position him from him from his position him from him f garding the fact that Mr. Ward has entered the stable of C. T. been in the municipal employ almost continuously since the Town of To-horse and buggy made off. Every efcontinuously since the rown of horse and buggy made to trace the criminal fort will be made to trace the criminal
