### ARRANGES FOR GIRLS TO WORK ON FARMS

'Academic Standing Promised War Workers by Department of Education.

Girls can go out and work as farmers next year, just as boys did this year and still get their academic standing, according to regulations issued by the department of education yesterday. These regulations make it very clear this year that this work must be done on Ontario farms. During 1916 some boys made the mistake of going to harvest on the plains hoping still to get their standing in Ontario schools. Another point made clear is that by direction of the department ex-aminations must be held before Easter so that those who leave school for any war work may be secure of their standing as from that date. Similar regulations for teachers in training who enlist to those which obtained last year are to be in force

### WHAT THE CITY COUNCIL DID

Ald. McBride said the mayor had deliberately misrepresented conditions. Because the application had not been signed by W. D. McPherson, M.L.A., personally was no reason for not giving it proper consideration. It bore the signature of the recognized secretary of the government organization. Ald. McBride said he understood Mr. Webber was an able-bodied man, whose place was at the front. He believed it a miscarriage of justice that a returned wounded soldier-should not have received consideration.

Report Satisfactory.

When the board of control's report on the progress of negotiations for the purchase of the Metropolitan Railway was introduced, Ald. Ball said that as a report it was a report of the safe that a returned wounded soldier-should not have received consideration.
