Is "Peace Without Victory" A Dream, or a Prophecy?

Two unprecedented incidents have been recorded in the cable dispatches since President Wilson outlined before the United States Senate the kind of peace that "the peoples of America could join in guaranteeing." On the day following his speech a great conference of the British Labor Party in England rose to its feet and applauded for five minutes at the casual mention of President Wilson's name—and then enthusiastically voted its unqualified support to the British Government in carrying the war to a victorious conclusion!

The other incident was the sending to President. Wilson from the Allies' trenches in France of a number of circular letters each signed by three hundred soldiers, thanking him for his generous intervention, but asking him to "dream no longer of the chimera of peace until victory is gained."

In THE LITERARY DIGEST for February 3d, the feature-article shows what the rulers and the newspapers of the world think of President Wilson's attitude. Since it is not possible to know immediately what the common people think of it, it will give considerable satisfaction to read this comprehensive survey.

Among other articles of more than ordinary interest in this number are
