KLIM

Reverses Your Ideas About Milk

PURE pasteurized separated milk is converted from a liquid into Klim, a dry powder, by the well known "spray process." The valuable protein and rich food content of liquid separated milk is, therefore, concentrated in powder form.

Klim is pure, sweet and keeps fresh. It retains the natural flavor. Use this dry powdered separated milk instead of liquid separated milk. Reverse your ideas and save time, trouble and money.

The Benjamin 92 Two-Way Plug

THE ability to provide instantly an additional power outlet where only a single socket is otherwise available, makes the Benjamin Two-Way Plug a valuable asset to stores, factories and warehouses, or wherever electricity is used commercially.

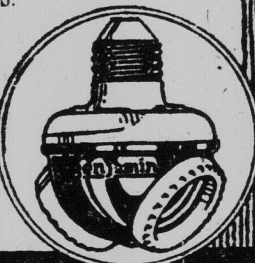

Examples show how it enables current for two purposes to be drawn from one original socket.

Screws into socket just as you would change a lamp bulb.

In all electrical devices it is good judgment to avoid cheap and unreliable goods. Any electrical device with the name Benjamin on it can be depended upon for quality and service.
