COLIC.

CURE FOR HORSES OR PERSONS.

Spirits of Turpentine, 3 oz.; Laudanum, 1 oz.; mix, and give all for a dose, by putting it into a bottle with half-a-pint of warm water, which prevents injury to the throat. If relief is not obtained in one hour, repeat the dose, adding half an ounce of the best powder aloes, well dissolved together, and have no uneasiness about the result.

SYMPTOMS.—The horse often lies down, suddenly rising up again with a spring; strikes his belly with his hind feet, stamps with his fore feet, and refuses every kind of food, etc. I suppose there is no medicine in use for colic, either in man or horse, equal to this mixture.

For persons, a dose would be from one to two teaspoonsful; children or weak persons, less, according to the urgency of the symptoms; to be taken in warm water or warm tea. I have been familiar with it for about five years, and know that it has been successful in nearly every case where it has been used. Many think it the best Colic Remedy in the world.

ANOTHER.

Laudanum, $\frac{1}{2}$ oz.; Sulphuric Ether, 1 oz. Mix, and for a horse give all at a dose, in warm water as above. Dose for a person, same as the first.

A Mr. Thorpe, of whom I obtained this recipe, tells me he has cured Colic in horses with the first dose, in every case except one, and in that case by repeating the dose thirty minutes after the first. There is no question but what it is good, and some would prefer it to the turpentine. I know it is valuable.

BOTS.

SURE REMEDY.

When a horse is attacked with Bots, it may be known by the occasional nipping at their own sides, and by red pimples or projections on the inner surface of the upper lip, which may be seen plainly by turning up the lip.

First then, take new Milk, 2 qts.; Molasses, 1 qt.; and give the horse the whole amount. Second—15 minutes afterwards, give very warm Sage Tea, 2 qts. Lastly—30 minutes after the Tea, you will
