THE EXHIBITION.

The question of a grant to the St. John exhibition is now before the board of the Common Council, and it is to be hoped that the result will be such as will be satisfactory to both the directors of the exhibition and to our citizens generally.

Mr. J. V. Ellis of the St. John Globe and Mr. Stevens of the Moncton Times, New Brunswick has never been so fond of pushing his editors to the front in political life as some of the members of the exhibition committee.

It is not that they are not patriotic and do not think that either the editors or the public would suffer from any particular loss in consequence of their withdrawal from the exhibition.

Mr. Anglin would have been a wealthier man to-day, more influential and more respected, if ambition had never drawn him into the legislature and then into the House of Commons.

Mr. Elder, who had a fondness for public life, would probably be living to-day as the head of the newspaper he did so much to establish, if he had been content to remain merely an editor and had not aspired to be a member of the government of this province.

Mr. Ellis has lost both in influence and in reputation by his connection with public life, and has lost the people of Canada who have made some reputation as an editor more than in his own office at Moncton, and that neither he nor his newspaper will be benefited by his efforts to become the representative of the people of West-worked.

It is perhaps well that these results have followed the efforts of editors to attain distinction as politicians, because it will serve as a warning to others who might be seduced by the plumes of public life and prevent them from injuring their business and losing their reputations by mixing themselves in political contests which do not concern them.

The business is about as much interested in the exhibition, which promises to be by far the most successful ever held in this province, and which will undoubtedly attract a great deal of attention, both to the province of New Brunswick and to the city of St. John.

It is not that the exhibition is not a noble and patriotic enterprise, but that the means of large sums of money being expended in this city in various ways, in our opinion there is no public body which is so much entitled to give a grant to the exhibition as the Common Council of the city of St. John.

The money which they would give belongs to the citizens of St. John, the exhibition is largely for the benefit of the citizens of St. John, and if there is any loss involved, and even if \$8,000 were to be paid by the city, the loss would not be to the city, but to the few individuals, but on the general public who are not only able to but quite willing to pay for the exhibition to be held in this city.

It is understood that some members from the North end are opposed to this grant but we hardly think that their views on the subject have been properly presented. If the Common Council desire to prevent the exhibition from being held all they have to do is to act in a dignified manner in the matter.

They may rest assured that the preparations have gone a considerable distance the managers of the exhibition will not consent to go on with the work in which they have shown so much zeal and ability unless they are guaranteed against loss by the city, or against the necessity of having to solicit money from private individuals after the exhibition is over as was the case last year with reference to the Electrical Exhibition.

We feel confident that the Common Council, when the matter is properly presented to them, will do what is right and proper with respect to the St. John exhibition.

LITTLE MR. BLAKE.

Some of our esteemed contemporaries, conservative as well as glib, have recently been saying high things of the remarkable ability alleged to have been displayed by Mr. Blake at the present sitting of parliament.

Mr. Blake is unquestionably a man of ability in his own particular line, and we dare say might be turned into a useful public man if he could rid himself of the crochets and conceits with which his mind is filled, but that is the sort of a man or a great statesman is a misnomer.

It is rather remarkable that right on top of such high praise of Mr. Blake by such papers as the St. John Sun, comes a most conspicuous exhibition of his natural timidity. Mr. Blake yesterday, exhibited himself in the House of Commons by an elaborate attack on Mr. Kennedy F. Burns with reference to the Carquest railway, accusing the member for Gloucester with all sorts of crimes and wrong doings in connection with that matter.

We know nothing of the merits of the controversy in which Mr. Blake took so conspicuous a part and we do not think that the subject is of sufficient general interest for us to burden our columns with the details of the matter, but we do know that a man who has been leader of a great party who depends on such recriminations as Mr. Blake indulged in yesterday and who can find no better subject on which to attack the government than the conduct of a private member in connection with a local railway, must be a very small man and unfit to occupy any

position of influence in the Dominion of Canada, in connection either with government or opposition. It is by such exhibitions as this that Mr. Blake entirely destroys the influence that he might have in the House of Commons.

What has an opposition leader to do with the petty squabbles about railway subsidies? If Mr. Blake desires to make a reputation for himself in this country which will be lasting and enduring, he has to take up some question of principle and deal with it in a statesmanlike manner.

We would not say so much on this topic were it not for the fact that this is a sample of Mr. Blake's general conduct during the session which is now drawing to a close. Mr. Blake's views on all public questions are those of a lawyer and not those of a statesman, and therefore he is at all times liable to be drawn into some side issue which he mistakes for the main topic and loses himself in a labyrinth of details in respect to matters in which the public outside of a few individuals, take no interest whatever.

The grip party has suffered and is suffering from the gross incompetency and the ravenous speeches of its leaders, and among them Mr. Blake, Mr. Laurier and Sir Richard Cartwright are disposed of it can not be too much to expect that in any future election in Canada.

EDITORS IN POLITICS.

The Sun has been taking stock of the names of the editors who are in public life throughout Canada. They form quite a numerous body, although there are but few editors in politics in this province.

Mr. J. V. Ellis of the St. John Globe and Mr. Stevens of the Moncton Times, New Brunswick has never been so fond of pushing his editors to the front in political life as some of the members of the exhibition committee.

It is not that they are not patriotic and do not think that either the editors or the public would suffer from any particular loss in consequence of their withdrawal from the exhibition.

Mr. Anglin would have been a wealthier man to-day, more influential and more respected, if ambition had never drawn him into the legislature and then into the House of Commons.

Mr. Elder, who had a fondness for public life, would probably be living to-day as the head of the newspaper he did so much to establish, if he had been content to remain merely an editor and had not aspired to be a member of the government of this province.

Mr. Ellis has lost both in influence and in reputation by his connection with public life, and has lost the people of Canada who have made some reputation as an editor more than in his own office at Moncton, and that neither he nor his newspaper will be benefited by his efforts to become the representative of the people of West-worked.

It is perhaps well that these results have followed the efforts of editors to attain distinction as politicians, because it will serve as a warning to others who might be seduced by the plumes of public life and prevent them from injuring their business and losing their reputations by mixing themselves in political contests which do not concern them.

HARBOR IMPROVEMENT.

THE STAFF THAT HAS BEEN MADE WITHIN A YEAR.

dredging at Government Pier—City Engineer's Report—Mr. Wharves and Warehouse for New York—Wharves and Warehouse for Montreal—Thompson's Slip.

Harbor improvement! It is a familiar word to the ears of the people of St. John, and it has been a familiar word for many years past. It is a word that has been used in connection with the harbor of St. John, and it is a word that has been used in connection with the harbor of St. John, and it is a word that has been used in connection with the harbor of St. John.

At the close of the year 1908, the harbor of St. John had been improved in many ways, and it was found that the harbor was in a better state of repair than it had been for many years past.

The harbor of St. John is a harbor of great importance, and it is a harbor that has been improved in many ways, and it is a harbor that has been improved in many ways, and it is a harbor that has been improved in many ways.

The harbor of St. John is a harbor of great importance, and it is a harbor that has been improved in many ways, and it is a harbor that has been improved in many ways, and it is a harbor that has been improved in many ways.

The harbor of St. John is a harbor of great importance, and it is a harbor that has been improved in many ways, and it is a harbor that has been improved in many ways, and it is a harbor that has been improved in many ways.

The harbor of St. John is a harbor of great importance, and it is a harbor that has been improved in many ways, and it is a harbor that has been improved in many ways, and it is a harbor that has been improved in many ways.

The harbor of St. John is a harbor of great importance, and it is a harbor that has been improved in many ways, and it is a harbor that has been improved in many ways, and it is a harbor that has been improved in many ways.

and so that a railway track can be run along in front of it, and the idea of a wharf and another through the middle of it any time it may be desired to do so, when the extent of the railway along the harbor front is made, it will be arranged so that when this is done the floors can be raised to the height of the car platforms, if thought best for the more expeditious handling of freight.

The estimated cost of the proposed wharves is \$200,000. This fine wharf privilege has been leased to the New York Steamship Co. for five years, at an annual rental of \$2,000.

AT THE LONG WHARF, great improvements have been made within a year. The owners obtained permission from the city and have built a bridge and trestle roadway from the old railway wharf on the north side of York Point slip to the Long wharf property. A good roadway for light traffic has been made, so that the Long wharf is easily accessible by teams from any part of the city and this roadway is the means of making it one of the most useful wharves in the city for local traffic.

A good roadway for light traffic has been made, so that the Long wharf is easily accessible by teams from any part of the city and this roadway is the means of making it one of the most useful wharves in the city for local traffic.
