THE TELLUS IS COMPLETE LOSS

THE CAPTAIN AND CREW ARE ALL SAVED

Collier Broke in Two Off Gray's Harbor With Cargo of Coal Aboard.

Aberdeen, Wash., Sept. 23.—The Norwegian steamer Tellus, coal laden from Nanaimo to Portland, has broken in two and with a cargo of four thousand tons of coal is a total loss.

Capt. Berg and the crew are saved. The cargo and ship are insured. It is reported the wreck was due to a drifting buoy.

The crew was paid off and sent home today. Capt. Berg has left the scene, having abandoned all hope of saving anything. The scene of the wreck is at the north spit, at the entrance to Gray's harbor.

STANDARD OIL CASE.

Important Information is Said to be in Possession of F. B. Kellogg.

New York, Sept. 23.—It is understood that Frank B. Kellogg, the government's counsel in the suit to dissolve the Standard Oil Company, of New Jersey, has important information in his possession bearing on the alleged relationship between railroad rebates and the profits of the corporation in the last eight years.

It is also said that the phase of Mr. Kellogg's case is being revised until the line of questions he pursued last week is finished.

Mr. Milburn said the company had nothing to conceal and it was perfectly willing to place at Mr. Kellogg's disposal any of its records.

COMING WEST.

J. G. H. Bergeron Will Appear on Western Platforms.

Montreal, Sept. 19.—J. G. H. Bergeron, who has been touring the west, accompanied Mr. Borden on his tour through the maritime provinces, Ontario and Quebec, left to-night for Vancouver, where he will remain.

Mr. Bergeron was most successful in his speeches in the maritime provinces and Ontario, and this led to his choice.

WIRELESS FOR ARMY.

Germany is Installing System to be Used for Military Purposes.

Berlin, Sept. 19.—The army authorities have decided to erect forty-eight test stations for wireless telegraphy in Prussia, with the intention of eventually utilizing the system solely for military purposes.

Fort William, Sept. 18.—Never before in the history of the C. P. R. have the local yards been in such excellent condition to handle the annual large amount of freight of various kinds with which they are for the western wheat crop.

During the summer the superintendent has had several miles of new track laid in the yards, thus vastly increasing the capacity for handling freight quickly, receiving it from the East and West by lake and rail, and sending it out and dispatching it to its destination.

During the summer the two boats Meaford and Wexford have unloaded at the local docks some 45,000 tons of steel rails all of which are for use in the western wheat crop.

BIG FAIR AT GANGES HARBOR

EXCELLENT SHOWINGS IN ALL DEPARTMENTS

Many People Attended From Surrounding Points—Lengthy List of Awards

Under the most congenial climatic conditions imaginable the twelfth annual exhibition, held by the Islands' Agricultural and Fruit Association, took place at Ganges Harbor on Saturday.

From many places in the Gulf, from Victoria and the east coast towns, big crowds flocked to the harbor, many of them taking advantage of the excursion on the steamer Ironquois.

Although the entries were not as numerous in all divisions as previously, the fair, taken in its entirety, attained a higher standard than its predecessors as regards quality.

In the horse and cattle divisions there were excellent showings, and Provincial Live Stock Commissioner Logan, who judged the stock, declared them to rank with anything shown in the province.

The fruit exhibits were very fine, having been selected and displayed with the greatest care. They bore testimony to the quality and variety that can be produced on the islands.

At the exhibition, the exhibition with a short speech, congratulating the directors upon their efforts and the very creditable showing which had resulted.

He referred to the beneficial effect that the agricultural exhibitions had upon the general interest in these pursuits.

Declaring the exhibition formally open, Mr. McPhillips expressed the hope that it would increase in importance each year, and that it would always prove a benefit to the district.

Much interest was displayed by the spectators in all the departments of the fair, and the exhibits were greeted with much commendatory criticism.

The judges had no easy task in allotting the many prizes owing to the general excellence of the various divisions and the individual exhibits. The complete list of awards is as follows:

COWICHAN FAIR A GREAT SUCCESS

CONCLUDING DAY WAS WELL ATTENDED

Exhibits Were a Glowing Tribute to What Vancouver Island Can Produce

Practically all the inhabitants of the Cowichan valley gathered in the town of Duncan on Saturday to attend the annual agricultural, horticultural, and poultry show of the district.

Besides these there were many visitors from Victoria, Nanaimo and Ladysmith, among them being Hon. William Templeman and Mrs. Templeman, Ralph Smith, M. P., and Mrs. Smith, Lady Cressie, Miss Bullen, Dave Ker, J. Musgrave, R. Musgrave, Mr. and Mrs. Beaumont Boggs, W. O. Wallace, A. Christie, Mrs. Stewart, S. Mottishaw, and R. H. Johnston, the last mentioned of whom was up for the purpose of packing the fruit and bringing it down to Victoria where it will be shown, not for competition but simply as an example of what that part of the Island can do.

The two strong features of the Duncan fair were the exhibits of fruit and horses. Of the former the immense size of the fruit was particularly noticeable. In many cases it was plain that quality had been sacrificed to size in making the selections, and the way the awards were apportioned made this very evident.

Only in a very few instances did the biggest fruit get the prizes. The quality of the fruit was on the whole very excellent but here and there were a few apples that were not even perfectly ripened.

One of the most notable exhibits was the collection of commercial fruit shown by G. H. Hadwen. It was of very good quality and excellently packed. The collection comprised four varieties of apples, three of pears, and one each of peaches, plums, and quinces. The peaches were large and of good color and as they were grown in the open it illustrates a fact which the inhabitants of the Transvaal would foster that spirit. He had set himself the task of inducing concord between the two races.

Addressing the school children, Gen. Botha said that feelings of suspicion should be dispelled on the school benches. All should assist in building up a great nation under the British flag.

At a meeting of his constituents, the premier, yesterday visited Standerton, where he was welcomed by the municipality.

He declared that he could not adequately express his feelings concerning his recent visit to England. In spirit Englishmen meant well to the Transvaal. It was a spirit of friendship and brotherhood, and he hoped that the inhabitants of the Transvaal would foster that spirit. He had set himself the task of inducing concord between the two races.
