BOSTON LETTER. Travel to St. John Will be Large This Summer. The Elevated Street Railway System is Now in Full Running Order. Rev. F. F. Flewelling and Bride Cordially Welcomed - The Y. M. C A. Convention-Chattering About Reciprocity With Canada—The Lumber and Fish Markets.

(From our own correspondent.) BOSTON. June 15.—Boston has he plenty of excitement this week to kee the public mind occupied. To begin with, the new elevated railroad system was opened to the public, and for a was opened to the public, and for a time the capacity of the line was taxed to the utmost. Persons living near Sullivan square, Charleston, near the Somerville line, can now go to Dudley street, Roxbury, in 21 minutes. The distance is five miles. Under the old system it required nearly an hour, and sometimes fully that, to make the trip. The elevated line runs over trip. The elevated line runs over Washington street, north of Dover street, south end, and down town the cars run under the streets and the common by using the subway. Thus the city has an elevated and under-ground system all in one.

week were the record breaking trial trip of the new American battleship Wednesday: the big Y. M. C. A. international convention; the yachting dispute and the hunt for Wilfred wife was murdered and the body de-capitated near Lowell. Blondin had been working in Boston and was in the city up to the Wednesday morning when he hastily departed, presumably for Montreal. He did not remain here a minute after he found that the body had been identified. There was a report that Blondin had gone to Maine or St. John on an Inal line steamer, but this was

As Canada, was really the country of birth of the Y. M. C. A. movement on this continent, Canadians have been specially honored at the big convention still in session here. Many of them have made addresses and have filled important offices. The Lord Bishop of Huron accompanies the up-per province delegation, and his ser-vices have been in request daily. Hon. S. H. Blake of Toronto is another S. H. Blake of Toronto is another prominent Y. M. C. A. enthusiast. The chairman of the resolutions committee chosen Wednesday is J. E. Irvine of St. John. M. H. Ritchie of Halifax is a member of the business committee and J. C. Gass of Shuben-acadie, the well known Orange leader, has been elected one of the vice-pre-

Wednesday. The couple first met also to 18 months ago, while Dr. Mc-Keen was staying with his brother, made the rector of the Episcopal church at Baddeck. The bride had been visiting Prof. A. Graham Bell, but afterwards decided to remain and take up charity work among the fisher folks. While engaged in this she met Dr. Wolfen and the wadding is the result of trade are considered excellent. The catches are good, and there is no scarcity of new salt mackerel here. The last sales of new salt fish out of vessel were made at \$7 to \$. The jobbers are quoting these fish, While engaged in this she met Dr.

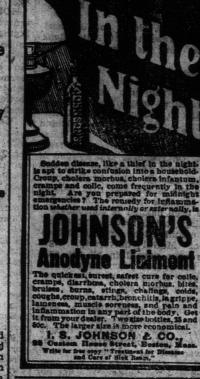

his parishioners.

Reme Dupont, a Quebec colonizing agent, is in Rhode Island endeavoring to induce familles to return to Canada. It is said he has been partly successful in several mill towns where work has been slack.

There is little that is new here in the tourist situation. It is possible the provincial season will be a week or so later in opening this year, and prolonged towards the close of the summer for the reason that many persons do not want to go east until the Duke of Cornwell and York reaches Canada. The ending of the rate war between the Dominion Atlantic and Yarmouth lines by the absorption of the latter by the former is expected to aid St. John and other points in New Brunswick. While the rate war was on a large percentage of vacationists and excursionists took advantage of the low feres and headed for Tarmouth. Now that rates are more on a common as well as a common sense basis, it is predicted New Brunswick will do much better this year, while the D. A. R. will have the most profitable season in its history. The Bostom schools do not close until about June 27, and until that time many families will be unable to leave town. The Canadian club is endeavoring to work up its old home mouth idea for September, and has asked the provincial authorities to co-operate.

No results are expected from the action of the Boston Chamber of Commerce on Wednesday in petitioning President McKimley to take action towards re-establishing a reciprocity trade agreement between Canada and the United States. The chamber has been working for reciprocity for many years, but the efforts have been prac-

the United States. The chamber has been working for reciprocity for many years, but the efforts have been practically fruitless. The movement will be continued, and then boards of trade will be asked to assist. If the joint high commission does not meet again, Mr. McKinley is asked to take other steps in the interest of reciprocity. But everyone knows what a friend of

ody will be greatly disappointed eason of any action he may take. A marvellous crop of rumors con-cerning contemplated industrial deals and new ventures are coming from Nova Scotia just now. It is safe to Nova Scotia just now. It is safe to say that neither the Vanderbilts nor the C. P. R. people have gobbled up everything in sight just yet, and that there is still hope for smaller capitalists. The various reports were used to some extent on the Boston Stock Exchange, where Dominion Steel and Dominion Coal shares are listed. Undoubtedly the Vanderbilts are watching the progress of development in Nova Scotia carefully, and should a fast trans-Atlantic line from Sydney become a resulting development of the state of t become a reality during the next fev years, it is natural to suppose that they would desire to be in a position to maintain the interests of their own

market is firmer, decidedly, because of the alarmist reports from eastern Maine and other localities. Cargo spruce is higher under a brisk de-mand. The arrivals by land of water have been fewer than expected, and the result is that some yards are hustling result is that some yards are hustling to fill orders. Ten and 12 in, dimensions are held at \$18 to 20; 9 in, and under, \$17 to 18; 10 and 12 in, random lengths, 10 feet and up, \$17.50 to 18.50; 2x3, 2x4, 2x5, etc., 10 feet and up, \$15 to 18; other randoms, 9 in, and under, 10 feet and up, \$15.50 to 17; 5 in, and up merchantable boards, \$15 to 16; matched boards, \$17 to 18; out spruce boards, \$12.50; laths, 15-8 in., \$2.85 to 2.90; 11-2 in., \$2.70 to 2.85; extra clapboards, \$30 to 32; clear, \$28 to 29; secboards, \$30 to 32; clear, \$28 to 29; second clear, \$25 to 26. Cedar shingle The chairman of the resolutions committee chosen Wednesday is J. E. Irvine of St. John. M. H. Ritchie of Halifax is a member of the business committee and J. C. Gass of Shuben-acadie, the well known Orange leader, has been elected one of the vice-presidents of the international body.

Dr. George A. McKeen of Baddeck, C. B., and Miss Elizabeth M. Flagter, daughter of the late Gen. D. W. Flagter of Washington, D. C., were united in marriage in the latter place on are firm, eastern boards offering at

The prospects for a fine season's mackerel trade are considered excelout of vessel were made at \$7 to \$.

The jobbers are quoting these fish, which are No. 3s., as \$10 a barrel. The receipts of fresh mackerel have been While engaged in this she met Dr. McKeen, and the wedding is the result. The young lady met with a great misfortune several years ago. She unintentionally shot and fatally wounded a negro who was stealing from her father's orchard in Washington. The bride is a tall handsome young woman, and no doubt will spend most of her time in Cape Breton.

The members of the congregation of St. Thomas' Episcopal church, Wanskuck, R. I., recently tendered a reception to the rector, Rev. F. F. Flewelling and his bride. Rev. Mr. Flewelling, who is a native of Canada, was presented with a substantial gift by his parishioners. 5.50 for medium. Box herring are in poor demand. Medium scaled are in small supply, at 181-2 to 20c. Canned lobsters are quiet and unchanged, flats being quoted at \$3.25 to 3.50, and uprights at \$3 to 3.25. Live lobsters are in fair supply at 10c., and boiled at 12c

Judgments Delivered - The Lewin and Turnbull Estates Matter.

One of the Busiest Days for Some Years

FREDERICTON, June 14-The Sureme Court met today, all the judges, xcept Landry, being present. Bever-y R. Armstrong was sworn a barrist-Judgments were delivered as fol-

Ex-Parte Quirk.-An application to make absolute a rule for certiorari to quash a Scott Act conviction. Rule

Ex-Parte Simpson.—Rule nisi quash Scott Act conviction. Queens-Sunbury election case.—Chief Justice Tuck delivered verbal judgment at considerable length, referring to the acts of Mr. Wilmot and the efforts to serve the petition. It was the opinion of the court that it did not so much matter what he did as the efort made by the petitioner to serve notice. While the special circumstances were not so great as in the York Co.

es were not so great as in the York Co. case, yet the court felt that Judge Mc-Leod was justified in extending the time and the court so declared.

Potter v. Morrisey—This was an action on a promissory note. Appeal allowed with costs, and the case to go back to the judge of the county court, St. John, for a new hearing.

Potter v. Creaghan.—A similar case. Appeal allowed with costs.

The King v. Wells. ex parts Tingley. The King v. Wells, ex parte Tingley.

The King v. Kay, ev parte Belyea This was an application for a man damus to compel Kay, police magis-trate of Moncton, to try certain charges of violation of the Scot Act made by Belyea. The court was divided, Tuck, Hanington and Landry favoring an order; and Barker, Mc-Leod and Gregory against. Rule drop-

The King v. Sharpe and the The King v. Sharpe and the Assessors of St. John, ex parte Lewin.—
This was an appeal to quash an assessment. Rule discharged. Both the chief justice and Judge Barker read lengthy judgments. The chief justice said it appeared as if a certain act passed by the legislature in 1900 were intended to exempt certain mortgages held by the Lewin and Turnbull estates from taxation, and he deprecated any such legislation.

The King v. Sharpe ex parte Turnoull—Rule discharged.

Peck v. Peck.—An action to recover damages for false imprisonment. Mo-tion for new trial refused.

Jack v. Bonnell.—Judgment that ver-dict be entered for defendant, Judge McLeod dissenting, chief justice no

part.
Goldie and McCullough Co v. Hewson,
Judgment for defendant with costs;
Gregory dissenting, Baker no part.
Court adjourned to resume at 2.30 p.

Finn, appellant, and Brown, respondent—Appeal dismissed with costs.

This concluded the judgments, and the court then heard common motions.

The King v. Daniel P. Sisk—M. G. Teed, K. C., moves for a rule nist calling upon Jeremlah D. Foley to show cause why a writ of attachment issued in the suit of Percy Sisk by Daniel P. Sisk, his nent friend, egainst. Sisk at the instance of Foley, on June 3rd, 1961, should not be set aside and Daniel P. Sisk discharged from arrest. Rule nist, returnable on June 25th at St. John, with stay of proceedings.

Colored Man Shoots His Wife at Glace Bay—Bricklayers Strike Still on.

GLACE BAY, N. S., June 16 .- John York, colored, fired a revolver shot at fect in the back of the woman's head. York had been working all night, and coming home in the morning found another man, Joseph Windle, from North Sydney, in the house, An altercation ensued, during which York used his revolver and fired at his wife. The bullet was extracted today.

NORTH SYDNEY, June 16.—The body of an unknown man was found on Saturday off Little Bras d'Or. The remains are as yet unidentified. Two men have been drowned lately at that place, Wm. O'Toole and Alex. McDonald, but the body found is not that of either of these. An inquest has been held, the verdict returned being that the body was that of an unknown man found drowned at Little Bras d'Or.

SYDNEY, N. S., June 16.—The strike of the brieflayers and masons' union is still on, and there are no prospects at present of a settlement. The men are as determined as ever. The strike is the cause of serious delay in the progress of work, and a large number of laborers are affected.

MONCTON.

Visit to the Coal Areas of River Hebert Valley

The Stratheona Company Has: Possession of a Most Valuable Mining Property.

known as the Strathcona Coal Company, has been organized for the purpose of carrying on coal mining and other business, with a capital of \$120,000, and head office at Moncton. It may not be generally known that the principal object of this company is to develop the coal areas in the valley of the River Hebert, in Cumber-land Co., N. S., where several very valley of the River Hebert, in Cumber-land Co., N. S., where several very promising seams have recently been opened. A representative of the Sun recently visited this property, accom-panied by Messrs. Binney and Borden of Moncton, Mr. Stopford of Tidnish, and Mr. Hall, the well known mining expert, for many years connected with anch of the River Hebert, directly on the line of the Joggins railway, six miles from the I. C. R. station at Maccan, one mile from the River Hebert station on the Joggins railway, and miles or more from loggins mine. It was found that shafts had been sunk at the outcroppings of two seams, one on the Lawson seam, so called, which lies within twenty feet of the Joggins railway track, and the other 160 feet further up at what is known as the Milner seam. There are three other seams so far as known on the area of two square miles, all within a distance of a few hundred yards. Mr. Hall, who had previously examined the property for the owners, was evidently well pleased with the outlook dently well pleased with the outlook, which was even better than he had anticipated and advised immediate development with the most improved machinery of a capacity of at least 200 tons a day. In a report made some time ago, Mr. Hall says he examined the Milner seam and found 1,600 acres of coal. This seam is 45 inches thick, top coal 12 inches, fire clay 9 inches, bottom coal 24 inches. This seam ran at an angle of 25 degrees, and has the advantage of a strong shale roof, not requiring May are given as follows: of 25 degrees, and has the advantage of a strong shale roof, not requiring much timber. He advises the sinking of an air slope on this seam 400 feet deep and anticipates that this can be done within two months. The Lawson seam, with 15 inches of coal, can be reached from the Milner seam by mass-cutting and both worked from

be reached from the Milner seam by cross-cutting, and both worked from the same slope. Other seams are known as the Dirty, which at Maccan is 13 feet 2 inches in depth, with 6 feet 2 inches of good coal; the Hardsorabble, 3 feet 4 inches, and the Binney, 1 foot, 10 inches, of which 10 inches is fire clay and 12 inches coal. Mr. Hall says the Hardscrabble at the outcrop is much mixed, but he superior quality, said by old miners to The stock as here given does not invery much resemble Old Mines Sydclude what is held on the Manchester ney. He speaks very highly of the canal. siding can at a nominal cost be run from any of the seams so far located to the Joggins track, and shipments by the river, giving connection with St. John, Moncton and other Bay of Fundy ports could be made at a small outlay, as the distance to the river, ac-cessible at this point to all vessels of coasting size, is only about 2,400 feet.

The Strathcona is located directly in the coal bearing area of Nova Scotia. Joggins mine, the coal from which

mproves as a greater depth is reached. Just across the river, not a mile distant, is the Minudie seam, now be-ing worked in a primitive way by miles distant is the Patrick mine at Maccan, now being worked by Messrs. Harrison and Smith of Amherst, and further east are the famous Springhill mines. The coal from the Maccan and erne mines is all sold to the Inter said to be inferior to that brought out on the Strathcona area. Parties are now looking over the Sterne mine with the object of purchasing it and put-

ting in improved machinery for min-ing on a larger scale. Between the Strathcona area and the village of River Hebert, with only a few hund-red yards intervening, is the old Law-rence seam, worked 40 years ago, and now owned in the United States. The output of the Lewise output of the Lawrence seam was shipped by water and sold in the United States during the reciprocity period, but the abrogation of the treaty and the imposition of a high duty on coal by the United States govern-MONCTON, N. B., June 14.—As noted in the closing of the Lawrence. The whole valley of the River Hebert, in fact, seems to be a monoton and Tidnish people, to be bed of coal. It may also be noted in this connection that within each allowed the cost of company has been organized for the pure the connection that within each allowed the cost of company has been organized for the pure the connection that within each allowed the cost of company has been organized for the pure the connection that within each allowed the cost of company has been organized for the pure the cost of company has been organized for the pure the cost of company has been organized for the pure the cost of company has been organized for the pure the cost of ment, together with the lack of a re-

BAD NEWS

For St. John Shippers of Spruce Deals to Liverpool—Sharp Decline in Values— The Market Overstacked.

Farnworth and Jardine's Liverpool Wood Circular of June 1st says the business of the past month has been unsatisfactory. "The arrivals have not been unduly large" (from North America 12,605 tons register, against 9,872 tons for May, 1900) "and the de-liveries have been fair, but buyers lack confidence, and a serious decline in some of the leading articles has taken place. Stocks generally for the season are on the heavy side, and shippers should act with caution by

igning moderately." Of New Brunswick and Nova Scotia spruce and pine deals the Circular says: "The arrivals during the past month have been large, viz., 4,230 standards, against 1,520 standards durseam tion in consigning moderately until notes, our markets are more settled. Pine al 24 deals continue in fair demand; prices angle are steady; stocks are light."

The sales of colonial woods during

May are given as follows:

Quebec pine, elm, ash and red pine—
No wholesale transctions to report.

Birch timber—Logs, no sales to report. Planks at from £6 5s. to £7 per

Quebec pine deals—The arrivals have been chiefly on merchants account.

Spruce deals—St. John, at from £6.7s. 6d. to £6.15a per standard c. i. f. flower ports, at about £6.10s. ex quay. Scantling, boards and palings—No sales to report. sales to report.

The table of comparative import,

consumption and stock shows the fol-lowing with regard to N. B., N. S., etc., spruce and pine deals;

TWO BROTHERS DROWNED.

MONTREAL, June 16.-Harold and Alfred Smith, brothers, were drowned this afternoon while fishing in St.

Princess Louise, Duchess of Argyll, celebrated recently her 53rd birthday and the 30th anniversary of her marriage with the Marquis of Lorne. Next to the Empress Frederick, Princess Louise is the most talented of the daughters of Queen Victoria.

Weak, Nervous School Children.

The severe and ever increasing strain of competitive examinations coming at a time when every boy and girl is undergoing trying physiological changes, does much toward making mental and physical wrecks of school children. A glance at the pale, weak and puny children which come from our public and high schools will make any thoughtful person consider seriously the advisability of sacrificing health and vigor for the trivial honor of standing high at examination time.

Hosts of boys and girls, young men and young women are suffering from ills and irregularities resulting from exhausted nerve force. There is no treatment known to science that will so naturally and throughly restore strength and vitality to nervous system and health to the whole body as Dr. Chase's Nerve Food It makes parents happy by bringing buck the color to the faces and the buoyancy and el sticity to the bodies of their pale, puny

DR. CHASE'S NERVE FOOD
