GEORGE THOMPSON'S DEATH.

Washington, Oct. 8 .- Henry B. Gombers, ew York, secretary of the Association of Master Steamfitters, was before the indusrial commission today explaining the plan and motives of his association. He said i FATHER BELONGS HERE. ncluded the master steamfitters in about 2 included the master steamfitters in about 20 offices and was creanized to protect its mem-bers against the aggression of the labor unions. Mr. Gombers said he considered the labor union the most thorough trust in ex-istence. Mr. Gombers said among other things that his association had an agreement with the manufacturers regarding steamfi-ters supplies in virtue of which the manu-facturers would not sell supplies to anyone not a master steamfilter. In a general way witness thought trade arbitration was a good thing but he said there were a great many things that neither he nor his association would ever be willing to arbitrate.
