Seems to have arrived when the Union of the various provinces may le promoted by creating a general Court of Appeal for the Dominion, and to this subject the attention of Government will be directed. The work of improving the canalization of the country will be vigorously paosecuted, and every effort made to attract to Canadian channels the tails of the west, and to foster by a judician expenditure in public improvements, the cast diture in public improvements, the vast maritime interests of the Dominion. The militia system demands revision, and will receive the immediate and earnest atten-tion of the Government with a view to

increasing its efficiency. Under this policy the American lines must be used during the winter in any case, and it is considered by practical men that they will be used for passage and light paying freights in the summer in preference to the water route proposed. This policy causes intense disappoint ment among those who have denied the
