tary said that he was not aware of any boat that was to be put on between Dorchester and Hopewell Cape.

Mr. O'Leary said the Gladiator was assisted in the interest of a few men—owners, and refers to the waste of dredging in Richibucto Harbor.

After speeches by Adams, Gillespie, Hannington and Kelly, full of insinuations and denials, fourteen thousand dollars were voted for steam service.

Hon. Mr. King said he had never listened to such a worse war as that of the last few days, and complimented Mr. Gough on keeping out of it and leaving it to the smaller fry of his party. As much time had been occupied—he considered unnecessarily occupied—in discussing what was, in his mind well understood in the first place, he trusted the legitimate business of the House would now go on more smoothly.

Mr. Gough said, if the time of the country was taken up by the Opposition in making charges that amounted to nothing, the Government found it necessary to take up quite as much time in answering them. The Chief Commissioner is the chief alms giver of the Government. Every thing from Killam to a pig-tail goes through his hands. (Hon. Mr. Kelly—I deny that, Mr. G. Hah.) Surely it has become too apparent, and this stream is a little divided, but the Surveyor General gets a very small rivulet. The great rolling river still goes through his hands. It may be well that this stream should go through the hands of the House, but he thought not. Kick the door open to encourage and dapped the independence of the members. The President of the Council may be innocent. He declares he is, but he has not proved it. Whenever a member of the Government is attacked, he turns his eyes to the Attorney General, who sits as his nurse, for the whole concern, and flies at once to the rescue. Mr. Gough felt proud of the Opposition. Defeated they might be, but not conquered.

FREDERICTON, March 12.

Mr. Wedderburn presented the petition of Leonard Wetmore and others in favor of the Carleton Water Excretion and Mr. Coram presented a similar petition from Rev. Geo. A. Hartley and others.

Mr. Wedderburn committed the Highland Park bill, Mr. Adams in the chair. He explained that it was to enable a number of gentlemen to purchase a tract of land in the vicinity of Long and Dark Lakes, in Portland, and give a portion of it to the public as a park, and another for church and school purposes, reserving the remainder for sites for suburban residences, $5,000 to be laid out on improvements within five years, and the property to be exempted from taxation for twenty-one years. The Town Council petitions in favor of the bill. At his own request Robert L. Hazen's name was struck from the bill, which was then agreed to.

Mr. Wedderburn, from the Committee on the bill to prevent frauds on creditors by secret bills of sale, reported substituting a substitute bill, which he introduced.

Mr. Covert presented the petition of Jeremiah Tracy and others in favor of the erection of part of Blissville into a separate town or parish.

Mr. Hannington presented a petition from Rev. P. Bradley and others praying amendment of Schools Act. He also gave notice of an address for papers relating to money paid to A. C. Killam or any person for him; also papers relating to money paid to members on Roads account since 1869.

Mr. Hibbard introduced a bill relating to St. George sidewalks, streets, and bridges.

Mr. Maher inquired for the Musquash bridge papers, which he said had been taken from his desk.

Mr. McPherson committed a bill, Mr. Hibbard in the chair, for the suppression of intemperance, pauperism and crime.

Mr. McPherson explained the bill, which comes from the Municipality of York and is to compel persons who sell liquor to intoxicated persons to pay for damage resulting therefrom on conviction before two or three Magistrates.

LEGISLATIVE COUNCIL.

FREDERICTON, March 12.

The following bills were committed and passed: To enable the Established Church of Scotland to elect from 5 to 12 trustees instead of 12 as at present; to limit the duration of the Restigouche Boom Bill on Bartholemew River to ten years; to incorporate Campobello Mill, Manufacturing and Shipbuilding Co.; to incorporate Passamaquoddy Fish Guano Company; to incorporate Chamcook Wharf Co.

Hon. Mr. Robinson-Owen said the object of the Guano Co. was to utilize the refuse and waste fish by compressing the oil from them, grinding them in well with sea weed and barrelling them for agricultural purposes. One thousand barrels were manufactured last year at Quoddy Bay.

Hon. Mr. Jones presented a petition from Leonard Wetmore and 39 others to authorize the Mayor of St. John to issue more Water Debentures.

From Rhenos Ayres, 6th Jan, brig Salva, Johnson, for Barbadoes.

Notice to Mariners.

U S Revenue Cutter Campbell, Below New London, Conn, March 8, 1874 (PM)—The revenue cutter Campbell reports that in the vicinity of the wreck of schr Mary G Dennis in the Race, Long Island Sound, on Sunday, March 8, it had drifted off the rocks at Gull Island, and consisted of the forward part of the hull, with foremast and bowsprit attached, and nearly submerged. The Campbell remained in its vicinity for several hours, and made many unsuccessful attempts to tow it into shoal water, but the wind blowing a heavy gale, rendering the lines of no effect it became necessary to abandon it. Masters of vessels passing between the Race and Block Island are cautioned to be on the look out, as it is very dangerous to navigation, and could happen unbeknown to them.

Freights.

NEW ORLEANS, March 6—A ship was taken up for Havre to-day at 1½d for cotton, and yesterday, not before reported, a ship for Cardiff 1½c. The market is dull and easier. We now quote as follows: By sail—Coastwise to Liverpool 3-16d to 1/4d; to Hamburg 1-16d to 1/8d; to Bremen 1-16d; to Barcelona 1½c; to Genoa 1½c to Boston 7/8c; Grain to Havre 22-32d, grain to Rouen at 12d.

CALCUTTA, Jan 30th—Messrs Atkinson, Tilton & Co say there has been quite a reaction in our freight market, indeed the engagement for ships to the rice ports, which we noted last week was then arising, and which has been further increased by a large demand for the Continent that Government is seriously contemplating a stoppage in the export of rice from both Bengal and Burmah, it being rendered necessary by the grave proportions that the famine up country is assuming; a large quantity of demand tonnage has been taken up by this demand, and of the arrivals have been small, rates for English freights are somewhat very much stiffer, and may be quoted to-day about 76 6d@8s per ton, but by the mail there is not a very active inquiry for this quarter, excepting in rice. For the United States, one fresh charter has been made for New York at slightly higher rate, but otherwise the business has been confined entirely to small shipping orders in the vessels already on the berth at our previous quotations, though at the close some advance is demanded for the room now offering. The country trade, with the exception of the importation of rice from Lower Burmah, remains exceedingly dull and stagnant. Since the 23d inst, eight ships or steamers have been announced at Cossipur, eighteen have left or have made engagements for prompt arrival, and there are twenty-one in port disengaged, of which fifteen are iron, or At Lloyds for 12 to 14 years; three are At Lloyds or 9-3d Veritas for 7 to 9 years, or nearly similar class. To arrive, thirteen are out 110 days or over from the United Kingdom. For New York, the Lord Lyndhurst has taken 2,300 to 2,500 tons cutch at 45s 6d, and 2,500 to 3000 tons linseed at 35s; the Whittington has taken 25 bales hides, 400 bales jute butts, and 100 bales jute at 30s, and 10 cases indigo at 3d. For Boston, the Alaska has let out 25 cases indigo at

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs.

AMONG the great discoveries of modern science, few are of more real value to mankind than this effectual remedy for all diseases of the Throat and Lungs. Great trial of its virtues, throughout this and other countries, has shown that it does surely and effectually control them. The testimony of our best citizens, of all classes, establishes the fact that CHERRY PECTORAL will and does relieve and cure the afflicting disorders of the Throat and Lungs beyond any other medicine. The most dangerous affections of the Pulmonary Organs yield to its power; and cases of Consumption, cured by this preparation, are publicly known, so remarkable as hardly to be believed, were they not proven beyond dispute. As a remedy it is adequate, on which the public may rely for full protection. By curing Coughs, the forerunners of more serious disease, it saves innumbered lives, and an amount of suffering not to be computed. It challenges trial, and convinces the most sceptical. Every family should keep it on hand as a protection against the early and unperceived attack of Pulmonary Affections, which are easily met at first, but which become incurable, and too often fatal, if neglected.

Throughout the country need this declaration: Have it without it. As a safeguard to children, amid the diseases of winter and spring, it is invaluable; for, by its timely use, multitudes are rescued from premature graves, and saved to the love and affection centered on them. It acts speedily and surely against ordinary colds, securing the sound and health-restoring sleep. No one will suffer troublesome Influenza and painful Bronchitis, when they know how easily they can be cured. Prepared by

Second Edition.

HOUSE OF ASSEMBLY.—*Continued from First Edition.*

Fredericton, March 12.

Hon. Mr. Crawford favored the principle of the bill, but said some of its provisions which created misdemeanors were beyond the power of the Legislature to pass.

Mr. Lindsay differed from Mr. Crawford's opinion of law, and was in favor of the bill.

Mr. Adams was against the principle of the bill in toto, as it aimed at the civil rights of citizens; it provides for the payment of damages by persons owning the buildings in which liquor is sold, when the loss or damage referred to takes place. It also gives two Justices power to try suits up to $200 damages, and three Justices jurisdiction up to $300. In ordinary civil suits Justices have jurisdiction only up to $20. He was opposed to this temperance legislation, and the present law is sufficient.

Mr. Phillips said it would be better to pass a law for inspection of liquors and the destruction of bad liquors, it would be well—better than the bill.

Mr. Landry said he would be favorable to the passage of some of the provisions of the bill—those making the seller liable. The other sections are *ultra vires* the B. N. A. Act.

On motion of Mr. McPherson progress was reported. The bill was referred to a special committee—Messrs. McPherson, Landry and Adams.

Dr. Alward committed a bill relating to part of the line of Street Railway in St. John, Harrison in the chair. It provides that the track from Market Square to Reed's Point be taken up by the Company within thirty days, or by the Corporation at the Company's expense should it not be done by the Company within that time, the Company to pay the expense of the work or forfeit the rails, etc.

Dr. Alward referred to the rails not having been used for two years, and said they were a nuisance, causing considerable damage to citizens. The bill comes from the Common Council, with a petition. The latter was sent up by Dr. Alward, who urged the passage of the bill.

Hon. Mr. Willis opposed the bill on the ground that travel is not impeded on Prince Wm. street by the rails, as a large portion of the rails have been covered up by the street surface. The Company have been prevented from using the rails by the street being broken up by the Corporation and Water Commissioners. He referred to the fact that the stock does not pay, and there is no immediate prospect that it will. As the Legislature gave a charter and people invested under it their property should not be destroyed.

Mr. Maher said last year such a bill passed, and Mr. Willis defeated it on a third reading on the ground that cars would be run over the road. No cars have been run over the road. The Company got a charter on the ground that the people would be accommodated. The public are not accommodated, but traffic is obstructed, and it should not be permitted. The Company allowed the rails to be covered up.

Hon. Mr. Willis—Who covered them up?

Mr. Maher—When Paddy Finn died his neighbors said "God Almighty died him." So he presumed God Almighty covered the rails. Carriage wheels are being broken by the rails, people complain that the streets are in bad order, while, when the Legislature is asked to allow the rails to be taken up, that fails on—may be put in order, it is opposed.

Hon. Mr. Willis said Mr. Maher knew that when the Corporation and Water Commissioners finished work on the street from Chubb's Corner to Reed's Point they covered the rails and thereby prevented the Company from running cars. On Water street, Halifax, narrower than Prince Wm. street, two tracks are laid, and the Company should have been consulted by the Corporation before the bill was sent here, and they would have been willing to make a satisfactory arrangement. He read a letter from Isaac Burpee, Minister of Customs, and President of the Company, saying he had seen the Mayor in reference to the bill, and the latter laughed at the idea of the Company asking remuneration for damage to the Company by the rails being taken up.

Hon. Mr. Crawford opposed the bill, as the removal of the rails would be a great wrong to stockholders.

Mr. Coram said the company had violated condition of the Act that they would run cars on their road. The street was in good order before the rails were put down, and now it is not. The company's duty was to keep the surface accumulations off their track, and they could have done so had they desired it. The rails should be taken up and the company made to haul them away, but it would be hard to compel the company to forfeit the rails.

LEGISLATIVE COUNCIL.

FREDERICTON, March 13.

The St. George Pleasure Ground bill was committed. On motion of Mr. Seely fifty instead of thirty paid-up shares have to be subscribed before organizing. Passed.

Mr. Jones presented a water debenture petition from John K. Taylor and thirty-nine others.

The Fredericton steam fire engine bill was committed, Mr. Seely in the chair. Mr. Jones said the city had better learn to use the one they have than to get a new one. [The reporter doesn't say what was done about it.]

The bill extending the penalties to Saturday in cases of selling spirituous liquors in St. John was agreed to.

Merchants' Exchange.

New York, March 13th.

Freights.—Fair enquiry for grain accommodation by vessels on the berth, also good demand for room for cotton; rates not materially changed.

Markets—Molasses quiet; sugar moderate demand, granulated 10.

Exchange—Gold opened at 112, been 112¼ and 112⅞, now 112. Cable unchanged.

Weather—Wind N. W., fresh, clear. Ther. 20°.

Boston, March 13.

Wea'her—Wind W. N.W., fresh, clear. Ther. 20°.

Portland, March 13.

Weather—Wind West, light, clear. Ther. 14°.

(*Special Telegram to the Tribune.*)

Reformed Episcopal Church—Band of Glass.

OTTAWA, March 13.

The Reformed Episcopalians held a large meeting last night, addressed by Rev. Mason Gallagher, who fully explained the reasons for establishing a separate church. At the close of his address a resolution passed formally organizing a reformed church. Over one hundred heads of families joined, and $1,700 were subscribed. A pastor will be immediately called.

David Glass wants the Grits to elect him in E. B. Wood's county.

Shipping Notes.

The bark Sunny Region.—A cable telegram to Messrs. Troop & Son announces the safe arrival at Antwerp of the bark Sunny Region, Smith master, from New York.

The bark Ida F., Doty master, which sailed from this port on the 28th Jan with deals for Glasgow, has been abandoned at sea. Crew rescued and landed at London. The F. E. registered 531 tons, was built in Carleton in 1866, and was owned by O. Emery & Co. and her builder. There is but a small amount of insurance on the vessel and none on the freight. While at this port she was thoroughly overhauled, additional iron knees put in, cabins renovated, a new set of sails bent, and a quantity of new rope for running gear put on board; she was also provisioned for six months. The loss to the owners is a heavy one.

The Circuit Court.

In the case of Wallitaker vs. Welch the jury returned a verdict of $104.13 for the plaintiff. The case will be argued before the Supreme court.

The next case taken up was J. R. Parker vs. Charles McLanchan and Robert Lapoard, an action to recover $243, wages. The case went to the jury at 11 o'clock this forenoon. At one they sent word that they could not agree, but were not discharged.

Donovan vs. The Grand Trunk Railway and Thorne vs. Bostwyck were withdrawn.

Gorham vs. Burpee and Wetmore vs. Connors are made nonsuits.

Everitt vs. Rankine et al has been settled.

Nowlin vs. O'Regan came up for trial, W. Pugsley, Esq., appearing for the plaintiff, and Charles Duff, counsel, and R. J. Ritchie, Esq., attorney for defendant. It is an action on a note of hand given the plaintiff by O'Regan for $300, payment of which was refused. The defendant denies that there was any consideration for the note.

Rev. Mr. Pope and the Centenary.

To the Editor of the Tribune.

A remembrance of past favors persuades me still further to trespass upon your kindness, by troubling you with this brief communication.

The pastoral relation existing between myself and the congregation of the Centenary Church of this city is becoming every day more agreeable and assuring. From the period of my entrance upon the duties of this responsible position, I have again and again been both surprised and cheered by most substantial evidences of the thoughtful sympathy and liberal affection of many of my dear people; but it remained for last evening to reveal to me the true "fragrance of heart" by which they are distinguished. At an official meeting held in the church last evening, the chief official of the Circuit, Alexander Lochart, Esq., quite unexpectedly to me, by requesting my acceptance of a purse of $281 from the Centenary congregation.

I need scarcely say, such kindness has made a profound impression on my heart, which overflows with thankfulness to the generous donors, and prompts me to pray that "the Giver of every good and perfect gift" may infinitely recompense them for their deeds of love.

Yours truly, EDWIN POPE, Jr.

St. John, March 13th.
