

- Fallopian tubes, pyosalpinx, with myoma, 396
rudimentary, with myoma, 340
salpingitis, with myoma, 338
tuberculosis of, with myoma, 341, 396
- Family history in cases of uterine myoma, 430
- Fat, emulsified, with cystic areas, in myoma, 92, 124
- Fecal fistula, temporary, following removal of ruptured suppurating myoma, 142
- Femoral hernia associated with myoma, 462
- Fertility in cases of uterine myoma, 457
- Fetus, dead, resembling myomatous uterus, 473
death of, with suppuration and perforation of uterine wall, 470
myoma resembling, in contour, 469
resembled by myoma, 6
- Fever with submucous uterine myoma, 572
- Fibroids of uterus, 1. *See also Myoma*,
recurrent, 178, 179, 252, 586
operation for, after vaginal myomectomy, 586
- Fibroma of ovary, 493
and myoma, differentiation, 493-495
with myoma, 351
of uterus, 1. *See also Myoma*.
- Fibromyoma of uterus, 1. *See also Myoma*.
- Fistula in ano following abdominal hysteromyomectomy, 660
- Fluid in cystic myoma, 91
- Flashes, hot, after hysteromyomectomy, 603, 604
- GALL-BLADDER, adhesions to, with myoma, 464
- Gangrene of ovary after hysteromyomectomy, 222
- Gangrenous submucous myoma, 66
- Giant cells in suspicious myoma, 250
- Glands. *See Lymph-glands*.
- Glands, cervical, dilatation of, with myoma, 298
unfolding of, with myoma, 302
hypertrophy of, with myoma, 316, 325
- Glands, running parallel to surface of uterine mucosa, 316
unusual shapes of, associated with uterine myoma, 321
- Glands, uterine, dilatation of, with myoma, 323
hypertrophy of, with myoma, 325
- Glycosuria with uterine myoma, 465
- Goiter with uterine myoma, 460
- Graafian follicle cysts with uterine myoma, 341
- Gritty particles in myoma, 126
- HALLUCINATIONS following abdominal hysteromyomectomy, 661
- Heart cavity, cystic myoma resembling, 122
- Heart complications after abdominal hysteromyomectomy, 660
hypertrophy of, with necrotic myoma, 423
in myoma cases, 451
lesions, possibly attributable to myoma, 421
muscle, calcification of, with myoma, 424
hyaline degeneration of, with necrotic myoma, 423
metastases in, from myosarcoma of uterus, 176
sounds in myoma cases, 451
- Heart-shaped myoma, 5
- Hematoma during abdominal hysteromyomectomy, 623
- Hematosalpinx with myoma, 338, 396
- Hemoglobin in cases of myoma, 451, 453, 455, 517
- Hemorrhage, abdominal, from sarcoma of cervical stump, 190
symptoms suggesting, after abdominal hysteromyomectomy, 669
due to general oozing from pelvis, 621
due to slipping of ligature during abdominal hysteromyomectomy, 623
during abdominal hysteromyomectomy, 620, 621, 622
during vaginal myomectomy, 576
following abdominal hysteromyomectomy, 654, 681
abdominal myomectomy, 548
in cases of submucous myoma, 572
local applications as means of checking, 588
method of controlling, where needle cannot be employed, 620
secondary, as cause of death after abdominal hysteromyomectomy, 681
- Hemorrhoids with uterine myoma, 446
- Heredity as cause of myoma, 430
- Hernia, femoral, with myoma, 462
inguinal, with myoma, 462
umbilical, strangulated, 120
with carcinoma of cervix and myoma, 398
with myoma, 120, 461, 639
- Hernial sac, postoperative, containing myomatous nodule, 463
- Histologic appearance of early myoma, 431
of myosarcoma, 172
- Hot flashes after abdominal hysteromyomectomy, 604
- Hot weather as cause of postoperative elevation of temperature, 655
- Hyaline degeneration, advanced, with liquefaction and formation of small cysts, 88
bright yellow areas of, 87
cases showing various types of, 93
giving water-core appearance, 95
