

ake; Professors Howard and Fenwick—Mondays, Wednesdays and Fridays; Professors McCallum and Drake—Tuesdays, Thursdays and Saturdays. In addition to the above, daily bedside instruction will be given during the same months, in the wards of the General Hospital by the attending Physicians, Professors Wright and McCallum.

The above course of Clinical instruction does not form a necessary part of the curriculum, but has been established to allow the student facilities for acquiring practical knowledge of disease, when his time is not otherwise occupied in attendance upon lectures.

LIBRARY AND MUSEUM.

The Library contains upwards of 4,000 volumes, including the most useful books of reference, as well as the most elementary ones: the works of older authors as well as the most recent. It is open to the Students without charge, under necessary regulations for the care of the books. The Museum contains a large number of preparations, chiefly Pathological; wax and papier-maché models.

HOSPITALS.

The Montreal General Hospital is visited every day by the attending medical officers, most of whom are Professors of the University. In addition to the poor patients a large number of out-door patients, including a considerable portion of children, are treated before the student and will afford materials for the special course of clinical instruction to be given this year. The ship contributes a great many examples of accidents and surgical cases. The fee for a six months' ticket is Six Dollars; for perpetual, Sixteen Dollars.

The Operating Room (used also for a lecture room) is so constructed as to suit the convenience of the students in obtaining a good view of the operations.

The University Lying-in Hospital is under the direction of the Professor of Midwifery. Students who have already attended one course of his lectures, are furnished with cases in rotation. The fee for a Six months' ticket is Five Dollars.
