WAR RISK INSURANCE BILL.

Washington, August 27 .- House leaders to-day were prepared to put through the Administration Bill, providing government insurance against war risks for American merchant ships and their cargoes, despite prosition of the Republicans, and it was expected the measure would be in the hands of the President by to-night.

To expedite the passage of the bill, the leaders planned to bring in a special rule limiting the debate and to remove all danger of a filibuster engineered by the Committee was called for this purpose.

Immediately after the War Risk Insurance Bill has been disposed of, the bill urged by President Wilson, providing for a government controlled corporation to purchase foreign ships will be taken up. Chairman Alexander, of the House Committee on Merchant Marine and Fisheries, to-day announced that no time will be lost in pressing to passage the measure, which is aimed to build up an American merchant marine
