The most strongly marked and developed cases of Pulmonay Consumption, where the lungs have become dis-eased and ulcerated, and the case so utterly hopeless, as thave been pronounced by Physicians and friends, to be past all possibility of recovery, have been cured by this winderful remedy, and are now as well and hearty as eyer. It is a compound of medications which are pecuharly adapted to and essentially necessary for the cure of COUGHS AND CONSUMPTION.

the operation is mild, yet efficacions; it lossens the phlegm which creates so much difficulty, relieves the cough, and assists nature to expel from the system all thesessed matter by expectionation, producing a delightful change in the breathing and chest, and this, after the prescriptions of the very best medical men and the inventions of kind and sorrowing friends and Nurses, have indeed to give the smallest relief to the Consumptive sufferer.

THOUSANDS OF CONSUMPTIVE persons have been deceived repeatedly in buying medi-cines which were said to be infattible cures, but which have only proved pallistives, but this medicine is not only and a palistive but a cure for uccerated lungs. It contains no detections drugs, and one trial will prove its astonomical edicacy better than any assertions or certificates in curing consumption and all diseases of the Lungs, such as spilling of blood, coughs, pain in the side, night siceasts, her. About 1000 certificates of almost miraculous cures, performed by this medicine, from some of the first Doctors, Clergymen, and Merchants, have been sent us for this me, dicine, but the publication of them looks too much tike Quackery (will-show them to any person, calling at our office.) This medicine will speak for itself and enough in

HOLLOWAY'S PILLS.

CURE OF A DISORDERED LIVER AND BAD DIGESTION.

Copy of a Letter from Mr. R. W. Kirkus, Chemist, 7, Prescot Street, Liverpool, dated 6th June, 1851.

Prescot Street, Liverpool, dated 6th June, 1851.

To Professor Holloway,
Sin.—Your Pills and Ointment have stood the highest on our sule inst of Proprietary Medicines for some years. A customer, to whom I can refer for any enquiries, desired me to let you know the particulars of her case. She had been grounded for years with a disordered liver, and had digestion. On the last occasion, however, the virulence of the attack was no sharming, and the inflummation set in no severely, that doubts were entertained of her not being able to hear up under it; fortunately she was in duced to try your Pills, and she informs me that after the first, and each succeeding dose, she had great relief. She continued to take them, and although she used only three Boxes, she is now in the enjoyment of perfect health. I could have sent you many more cases, but he above, from the severity of the attack, and the speedy cure, I think, speaks much in tayour of your astonishing Pills.

To Professor Holloway,

Sir.—I desire to bear testimony to the good effects of Holloway s Pills.—For some years I suffered severely from a pain and tightness in the stomach, which was also accompanied by a shortness of breath, that prevented me from walking about. I am 84 years of age, and notwithstanding my advanced state of life, these Pills have so relieved me, that I am desirous that others should be made acquained with their virtues. I am now gendered, by their means, comparatively active, and can take exercise without meanigeneous or pain, which I could not do before.
